ANALYSIS:

These amendments make the chapter consistent with the 2013 model food code, published by the U. S. Food and Drug Administration (FDA). The model assists food control jurisdictions at all levels of government by providing them with a scientifically sound technical and legal basis for regulating the retail and food service segment of the industry (restaurants and grocery stores and institutions such as nursing homes). Local, state, tribal, and federal regulators use the FDA Food Code as a model to develop or update their own food safety rules and to be consistent with national food regulatory policy.

The 2013 edition of the model code reflects the input of regulatory officials, industry, academia, and consumers that participated in the 2012 meeting of the Conference for Food Protection (CFP). Collaboration with the CFP and FDS partners at the U.S. Department of Agriculture's Food Safety and Inspection Service and the Centers for Disease Control and Prevention of the U.S. Department of Health and Human Services helps ensure the Food Code establishes sound requirements that prevent foodborne illness and injury and eliminates the most important food safety hazards in retail and foodservice facilities.

The model code was then reviewed by Oklahoma's Food Service Advisory Council and the proposed changes reflect the advice and consent of the Council and include the removal those requirements in the model rule that would be overly burdensome to the industry; removal of unnecessary language; modifications to language to make all language consistent, and removal of the word "service" from the term "food service establishment."

Subchapter 3, Management and Personnel, includes general language cleanup and removes "service" from references to food service establishment, clarification on the responsibilities of the "person in charge" to include verifying that foods delivered to the food establishment during non-operating hours are from approved sources and appropriately stored and maintained. Establishes responsibility for written procedures and plans, where specified by this Chapter and as developed by the food establishment, are maintained and implemented as required. Updates reportable pathogens among staff and the time period for reporting to the Department within twenty-four (24) hours or the next business day when a food employee is diagnosed with an illness due to a specified pathogen. The amendments modify the pathogens and symptoms qualifying for exclusion or restriction from duties. Updates practices for cleaning, handwashing and use of antiseptics to reflect best practice.

Standards for fruits and vegetables that may be washed by using chemicals meeting the requirements specified in 21 CFR Section 173.315 are identified. The rule is updated to reflect best practice and model food code relating to refilling returnable food containers. The standards for cooking times, temperatures and holding times are updated. Time periods for the discarding of food are updated. New, easy to read tables, are referenced in a new Appendix A.

Subchapter 7, Equipment, Utensils and Linens, includes general language cleanup and removes "service" from references to food service establishment. New easy to read tables are referenced in a new Appendix A, for lead limits in ceramic, china, and crystal utensils, and use limitations. Establishes rule that equipment used in a food establishment shall be designated as "commercial" or "commercial grade" by the manufacturer if the equipment is used to meet or maintain temperature for time/temperature control for safety food. Clarifies exceptions related to beverage tubing and separation. Amendments here apply model food code terminology replacing the term "potentially hazardous food" with "Time/Temperature Control for Safety Food." Best practice standards for hot water mechanical warewashing operations that include an irreversible registering temperature indicator are applied. New guidance is provided on use of chemical sanitizer generated by a device located on-site at the food establishment and on the use of preset tableware.

(d) Applicants must register with the Department and pass the Oklahoma Hearing Aid Rules examination and Hearing Aid Trouble Shooting Practical Examination.

310:265-5-3. Address of place of business

(a) A person who holds a license shall notify the Commissioner in writing of each address of the business(es) where he/she engages or intends to engage in the fitting or the sale of hearing aids. A post office box number by itself does not fulfill this requirement.

(b) The Commissioner shall keep a record of the place of business of licensees.

(c) Any notice required to be given by the Commissioner to a person who holds a license shall be mailed to him/her by certified mail at the address of the last place of business of which he/she has notified the Commissioner.

(d) Where more than one (1) office is operated by the licensee, duplicate licenses shall be issued by the Commissioner for posting in each location, without additional payment. The licensee must send a written request for a duplicate license indicating the address of the place of business where the duplicate license will be posted.

310:265-5-4. Receipts

(a) Any person who practices the fitting and sale of hearing aids shall deliver to each person supplied with a hearing aid a receipt which shall contain the licensee's signature and show his business address, (a post office box number by itself does not meet the requirement of a business address), and number of his State license, together with specifications as to the make and model of the hearing aid furnished, with full terms of the sale clearly stated. If an aid which is not new is sold, the receipt shall be clearly marked as "used" or "reconditioned", whichever is applicable, with terms of guarantee, if any.

(b) Such receipt shall bear in no smaller type than the largest used in the body copy portion the following: "Any examination or representation made by a licensed hearing aid dealer

and fitter in connection with the fitting and selling of this hearing aid is not an examination, diagnosis, or prescription by a person licensed to practice medicine in this state and therefore must not be regarded as medical opinion or advice. Further, it is recommended that medical advice from a licensed physician should be obtained."

(c) No receipt for a hearing aid shall be valid without the original signature of a licensed hearing aid dealer and fitter. Said receipt shall constitute a contract of sale between the hearing aid dealer and fitter and the purchaser. The holder of a temporary license may not issue a receipt unless the original signature of the direct supervisor also appears on the receipt. Said receipt shall have the state license number of both the licensed hearing aid dealer and fitter and the temporary licensed person.

(d) The hearing aid dealer and fitter may retain a cancellation fee of 10% or \$150 per aid, whichever is less, of the purchase price of the hearing aid(s). The guarantee must entitle the purchaser, upon cancellation for any reason within the 30-day period after taking possession of the hearing aid(s), to receive the full refund less the cancellation fee. Said refund shall be provided to the purchaser within 30 days after the return of the hearing aid(s). If the hearing aid must be repaired, remade or adjusted during the 30-day refund period, the running of the 30-day period is tolled for any period during which the hearing aid provider takes possession or control of a hearing aid after its original delivery.

(e) ~~The hearing aid provider shall provide a written receipt or contract to the purchaser that includes, in immediate proximity to the space reserved for the signature of the purchaser, the following specific statement in all bold faced type capital letters no smaller than the largest print used in the written receipt or contract: The hearing aid provider shall provide a written receipt or contract to the purchaser that includes, in immediate proximity to the space reserved for the signature of the purchaser, the two specific statements as set forth in Appendix A, in all bold-faced type capital letters no smaller than the largest print used in the written receipt or contract.~~ **OKLAHOMA STATE LAW GIVES THE PURCHASER THE RIGHT TO CANCEL THIS PURCHASE FOR ANY REASON BY RETURNING THE HEARING AID TO THE HEARING AID PROVIDER AT ANY TIME PRIOR TO MIDNIGHT OF THE THIRTIETH CALENDAR DAY AFTER RECEIPT OF THE HEARING AID. BY LAW, THE HEARING AID PROVIDER MAY BE ENTITLED TO A CANCELLATION FEE NOT TO EXCEED TEN PER CENT (10%) OF THE TOTAL PURCHASE PRICE FOR THE HEARING AID OR ONE HUNDRED FIFTY DOLLARS (\$150.00) PER HEARING AID, WHICHEVER IS LESS, TO COVER THE COSTS INCURRED BY THE HEARING AID PROVIDER. IF THE PURCHASER RETURNS THE HEARING AID WITHIN THE THIRTY DAY PERIOD, THE PURCHASER WILL RECEIVE A REFUND OF \$.00. (HEARING AID PROVIDER MUST INSERT THE DOLLAR AMOUNT OF THE REFUND). IF THE HEARING AID PROVIDER FAILS TO COMPLY WITH THIS PROVISION, COMPLAINTS SHOULD BE FORWARDED TO: OKLAHOMA STATE DEPARTMENT OF HEALTH OCCUPATIONAL LICENSING DIVISION 1000**

~~N.E. 10TH STREET OKLAHOMA CITY, OKLAHOMA 73117
[15:764.1(A)(3)]~~

- (7) Whether the client has visible evidence of significant cerumen accumulation or a foreign body in the ear canal.
- (8) Whether the client has pain or discomfort in the ear.

310:265-5-6. Continuing education requirements

(a) Each applicant for renewal of a hearing aid dealer or fitter license must submit written evidence showing he/she has completed ten (10) clock hours of continuing education, completed during the previous year and pertaining to the hearing sciences, ~~as approved by the National Institute of Hearing Instruments Studies or an equivalent; or have had the curriculum approved by the Department.~~

- (1) No more than four (4) online continuing education clock hours may be submitted for the required ten (10) annual hours.
- (2) The continuing education hours must be approved by the International Institute of Hearing Instruments or have had the curriculum approved by the Department.

(b) **Continuing education course approval by the Department.** An entity which desires to sponsor education to licensees in compliance with the continuing education requirements of subsection (a) of this Section shall file an application for approval on the form prescribed by the Department. An application shall include a list of the course instructors and their qualifications, an agenda detailing the material to be presented, the location of the training, the program objectives, and the number of clock hours of classroom and supervised instruction. After completion of the course, the entity shall submit sign-in sheets for all sessions which require a signature and social security number or state license number of each person in attendance. The program shall verify the total number of continuing education hours completed by each attendee. All programs shall be presented as submitted unless changes have been approved prior to presentation. Changes which occur during the presentation shall be submitted to the Department within ten (10) days of the training session for review by the Department. Failure to obtain approval of changes may result in loss of certification.

(c) **Approval requirements for continuing education.**

Permanent Final Adoptions

- (1) All material and information presented shall pertain to the hearing aid dealers and fitters profession.
- (2) ~~The training location must be outside the regular work place or after regular work hours.~~
- (3) All training should utilize materials that are to be generic and non-proprietary in nature.

310:265-5-7. Temporary permits

- (a) An applicant who fulfills the requirements regarding age, character and education as set forth in these regulations shall be entitled to a temporary hearing aid dealer or fitter permit upon application to the Commissioner. Previous experience or a waiting period shall not be required to obtain a temporary permit.
- (b) Upon receiving an application as provided under this section and accompanied by a temporary permit application fee of Fifteen Dollars (\$15.00), the Commissioner shall issue a temporary permit which shall entitle the applicant to engage in the fitting and sale of hearing aids for a period not to exceed six (6) months or until the holder has successfully passed the examination required for a license, whichever period is less. A person holding a valid Oklahoma Hearing Aid Dealers' and Fitters' License shall be responsible for the direct on-site supervision and training of such applicant ~~and maintain adequate personal contact.~~
- (c) A temporary permit may be extended for an additional period by the Commissioner upon payment of a fee of Fifteen Dollars (\$15.00). The Commissioner shall not extend a temporary permit more than one (1) time.
- (d) A maximum of two (2) people with temporary permits may work under the direct on-site supervision of a person holding a valid Oklahoma Hearing Aid Dealers' and Fitters' License.

310:265-5-8. Procedures and instrumentation in fitting of hearing aids.

- (a) **Testing.**
 - (1) All instruments used to measure thresholds shall be annually certified to meet American National Standard Specifications for Audiometer, S3.6-1969 or a standard which supersedes it. In addition, some form of live voice or recorded voice testing must be made to obtain at least a subjective evaluation of the individual's ability to discriminate. In the case of live voice testing, the tests should be run without visual cue. A hearing aid of similar characteristics can be refitted to an individual without a hearing test if this is done within six (6) months of the original fitting and original hearing test.
 - (2) Hearing testing for the purpose of fitting hearing aids shall not be conducted where ambient noise levels exceed 45 dB measured on a slow weighted dB (a) scale. If the testing environment exceeds 45 dB, the testing shall be considered a "Hearing Screening" and shall not be utilized to determine the auditory thresholds in the selection of a hearing aid unless a qualified waiver is executed by the person supplied with a hearing aid and is accompanied

by written documentation from a competent medical authority as outlined in 310:265-5-8(c).

- (b) **Screening.** A licensee may conduct a hearing screening at a health fair, state fair, public location or similar facility, but due to excessive background noise commonly found in these environments, measurement of auditory thresholds are not acceptable. A licensee should present to the person receiving the "Hearing Screening" a written statement at the time of the screening containing the following provisions: Results of a "Hearing Screening" are not a medical or audiological evaluation of your ear nor a diagnosis of a hearing disorder. You passed/failed (circle one) the hearing screening. Failing a screening is an indication you need further testing prior to the selection of a hearing aid.
- (c) **Qualified waiver.** The waiver must be accompanied by written documentation from a competent medical authority that the person supplied with a hearing aid is not ambulatory and any transport of that person would create a serious risk of harm or cause an imminent threat to their health and ~~well being.~~ A qualified waiver may not be utilized at a hearing screening conducted at a health fair, state fair, public location or similar facility that exceeds 45 dB on a slow weighted dB (a) scale.

SUBCHAPTER 7. REGULATORY ENFORCEMENT

This requirement may be waived if a otolaryngologist-physician who specializes in diseases of the ear is not available within 100 miles of the person's residence and a licensed physician provides the medical

evaluation. This evaluation must have taken place within the preceding six (6) months of the testing and fitting. A licensed audiologist should perform the evaluation and rehabilitation; or-

(9) ~~An Oklahoma licensed hearing aid dealer and fitter shall not infer~~ **Infer** directly or indirectly in advertisement or written material that the hearing aid dealer and fitter is licensed as a physician or audiologist or performs diagnostic procedures to determine the cause of a hearing impairment.

ANALYSIS:

The adopted changes re-organize the Chapter, amend existing rules and add some new rules. The re-organization separates the different license and certification types. The revised rule allows applicants, certificate holders, and licensees to find applicable requirements within a defined subchapter of rule. This relocated text is designated with the tagline (Amended or Renumbered To). The re-organization separates the different license and certification types. Currently, an applicant, certificate holder, or licensee must review the entire rule document to determine the compliance requirements. The reorganization allows stakeholders to be able to find all rules that affect their type of license within one subchapter.

The changes update and amend rules pursuant to House Bill 1083 (2013) and House Bill 1467 (2013). House Bill 1083 amended the Oklahoma Emergency Response Systems Development Act (OERSDA), Title 63 of the Oklahoma Statutes, Section 1-2501 and the sections that follow. House Bill 1083 (2013) updated language to make personnel, emergency medical personnel and emergency medical responders licensed personnel; redefined certified emergency medical responder and certified emergency medical response agency; defined critical care paramedic as a license paramedic who successfully completed critical care training and testing requirements

in accordance with the OERSDA; defined use of letters of review as an official designation for paramedic programs becoming accredited; redefined the license levels as an emergency medical technician, an intermediate or advanced emergency medical technician or paramedic licensed by the Department to perform emergency services; allows any hospital or health care facility in Oklahoma to use emergency medical technicians (EMTs), intermediate or advanced EMTs, paramedics or critical care paramedics for the delivery of emergency medical patient care within the hospital or facility and for on-scene patient care; allows advanced EMT students to perform in the hospital, clinic or prehospital setting while under direct supervision. The bills redefine EMT to omit technician or EMT basic; allow an EMT training program to be administered by the Department or its designees; define an advanced EMT to mean a person who has completed advanced EMT training and passed the licensing exam. The bills provided that for any licensed emergency medical personnel or certified emergency medical responder who dies while performing official duties in the line of duty, a beneficiary of the deceased will receive \$5,000. The bills authorized the Department of Health to charge a fee for various stages of application of licensed emergency medical personnel. The bills charged the Department with creation of a registry of critical care paramedics. The bills amended requirements for specialty care ambulance services to be solely used for inter-hospital transport of patients who require specialized enroute medical monitoring and advanced life support which exceeds the capabilities of the equipment and personnel of paramedical life support.

House Bill 1467 (2013) created the Trauma and Emergency Response Advisory Council which replaced two formerly designated advisory bodies. Changes were made to the rule to address this change. These legislative actions required several additions and/or amendments to this Chapter.

Since the original chapter was created in 1991, there have been six (6) regulatory revisions to this chapter. Those revisions have created contradictory or conflicting rules. The revised language eliminates contradictions and the new organization format will minimize the possibility of conflicting language in future revisions. Additionally, a review of the Federal Aviation Administration regulations pertaining to Air Ambulances resulted in the removal of several Air Ambulance rules because of Federal jurisdiction.

Establish new standards for existing agencies and create a new certification type. The new certification type is for Standby Emergency Medical Response Agencies. This certification proposes to establish a minimum standard for individuals and agencies that provide emergency medical care at public events. Another new standard requires all Emergency Medical Response Agencies to submit data to the Department through the Oklahoma Emergency Medical Services Information System. The remaining new standards relate to adding details to existing rules or regulatory concepts.

DUE TO EXCESSIVE LENGTH OF THESE RULES (AS DEFINED IN OAC 655:10-7-12), THE FULL TEXT OF THESE RULES WILL NOT BE PUBLISHED. THE RULES ARE AVAILABLE FOR PUBLIC INSPECTION AT OKLAHOMA STATE DEPARTMENT OF HEALTH, 1000 N.E. 10TH STREET, OKLAHOMA CITY, OK 73117-1207 AND AT THE SECRETARY OF STATE'S OFFICE OF ADMINISTRATIVE RULES. THE FOLLOWING SUMMARY HAS BEEN PREPARED PURSUANT TO 75 O.S., SECTION 255(B):

SUMMARY:

Subchapter 1, General EMS Programs, sets forth the organization, subchapters, statutes, and smoking prohibitions. This change amends the subchapter to include definitions for the Chapter. The change clarifies the reorganization of subchapters by license type and includes the new definitions required by statutory changes in 2013. The effect of the rule change will be a more complete set of definitions and a better organized Chapter of rules.

Subchapter 3, Ground Ambulance Service, sets forth the approval and renewal of emergency medical service agency licensure, certification, standards, and authorization, and focuses on the ground ambulance license type. This change clarifies the requirements for the ground ambulance service license, removes conflicting language, and incorporates changes such as emergency vehicle specifications, equipment requirements, and systems of care.

Permanent Final Adoptions

Subchapter 5, Personnel Licenses and Certification, provides for individual licensure and certification levels, requirements for training, application requirements, and initial and renewal requirements for each license and certification level. This change amends the current subchapter to align with required statutory changes from House Bill 1083 (2013) and House Bill 1467 (2013). Sections amend the scope of practice to meet industry standards and statutory changes. Additionally, it adds specific circumstances when the Department has authority to take licensure action against an individual for inappropriate actions or activities. The changes are necessary to meet statutory requirements and to improve processes for testing, certification, and licensure.

Subchapter 7, Training Programs, provides for the approval and renewal of training programs. It also contains instructor qualifications and standards. This change amends the current subchapter by including statutory requirements, removing conflicting language, and aligning the requirements to industry standards. The proposal clarifies differences between training program instructors and agency instructors. The effect of the changes will be to improve the Department's and the approved training programs' abilities to train, certify, and license qualified candidates.

Subchapter 11, Specialty Care Ambulance Service, is a new subchapter created to address requirements for the specialty care ambulance license type. The prior specialty care language existed in subchapter 3 in eight sections, with cross references to several others. The change locates all aspects of this license type in one subchapter. The changes were necessary to meet the statutory changes of 2013 and to eliminate regulatory conflicts and language that does not apply to the license type. The effect of the rule change will be to fully implement statutory changes from House Bill 1083 (2013) and House Bill 1467 (2013) and locate all the requirements for this license type in one subchapter.

Subchapter 13, Air Ambulance Service, is a new subchapter created to locate all of the requirements for this license type in one subchapter and to address regulatory changes. The prior air ambulance language existed in subchapter 3 in nine sections and was cross-referenced to several others. The proposal clarifies and removes conflicts between Federal Aviation Administration jurisdiction and the Department's jurisdiction.

Subchapter 15, Emergency Medical Response Agencies, is a new subchapter created to bring all requirements for this certification into one subchapter. The language for this agency type was in subchapter 3 with cross references in several other sections. The revised language removes conflicting language and creates a new type of emergency medical response agency certification. This covers the certification of an agency that provides care at mass gatherings such as athletic events, car races, or rodeos. Exceptions address industrial settings and providers that do not provide emergency medical care to the public. The rule will improve the standards for agencies that provide emergency medical care but do not transport patients to healthcare facilities.

Subchapter 17, Stretcher Aid Van Services, is a new subchapter created to include all requirements for this license type in one subchapter. The rule for this category was in subchapter 3 in six sections and cross-referenced in several other sections. The revised language removes regulatory conflicts and ensures that stretcher aid van services provide care within a scope of practice authorized in law. The proposed language clarifies the activities the license allows and removes several requirements that created burdens and conflicts within the license type. The effects of the rule change will be a more appropriate use of this license type while removing unnecessary rules.

The full text of the rule may be obtained by contacting the Emergency Medical Services division, Oklahoma State Department of Health, 1000 N.E. 10th Street, Oklahoma City, OK 73117-1207; phone (405) 271-4027, e-mail ESystems@health.ok.gov.

ANALYSIS:

This rule amends OAC 310:675-9-9.1(i) which deals with bulk non-prescription drugs. This rule change removes a limitation on dispensing over the counter medications from bulk supplies of drugs maintained in nursing facilities. This change inserts verbatim language from the law concerning the ordering or authorizing of medications by a physician. This change deletes language which restricts the use of bulk over the counter medications to only as needed or unscheduled dosage regimens and only upon written order of a physician. This change will allow nursing facilities to dispense scheduled regimens of over the counter medications with an order or other authorization. This change brings the rule into conformity with the authorizing statute at Title 63 O.S. Section 63.1-1950(B), which is permissive, rather than restrictive, regarding the dispensing of bulk over the counter medications based on a nonscheduled regimen.

ANALYSIS:

This rule amends OAC 310:680-13-2 which deals with bulk nonprescription drugs. This rule change removes a limitation on dispensing over the counter medications from bulk supplies of drugs maintained in residential care homes. This change inserts verbatim language from the law at Title 63 O.S. Section 1-1950(B) concerning the ordering or authorizing of medications by a physician. This change deletes language which restricts the use of bulk over the counter medications to only as needed or unscheduled dosage regimens and only upon written order of a physician. This change will allow residential care homes to dispense scheduled regimens of over the counter medications with an order or other authorization. This change brings the rule into conformity with the authorizing statute [Title 63 O.S.

Section 1-1950(B)] which is permissive, rather than restrictive, regarding the dispensing of bulk over the counter medications based on a nonscheduled regimen.

Statutorily-generated revenue from (a)(2) above shall be divided between the race meetings, if more than one, based on an agreement (on a calendar year basis) between the Organization Licensee and the duly elected horsemen's representative organizations recognized by the Commission as representing the breeds authorized to race at the respective race meetings. ANALYSIS:

The Ad Hoc Committee on Rules is comprised of three Commissioners, the Commission Executive Director, the Commission Counsel, the Commission Staff Attorney and the Executive Directors of the two horsemen's representative organizations [the Oklahoma Quarter Horse Racing Association and the Thoroughbred Racing Association of Oklahoma].

The Rules Committee proposed the rule amendment to address the ineligibility of a horse to start in a race if the Owner or Trainer is suspended or ineligible for a license or ineligible to participate under the rules of any Turf Governing Authority or Stud Book Registry.

The amendment of the Rule is necessary to ensure Oklahoma and the Horse Racing Commission are complying with Federal Anti-Trust Laws, in light of the recent United States Supreme Court's decision in *North Carolina*

State Board of Dental Examiners v. Federal Trade Commission, (2015). At present, Commission Rule OAC 325:25-1-10 establishes various grounds that make a horse ineligible to start in a race conducted under the Commission's jurisdiction. Among those grounds is one contained in present subsection (A)(7) of the Rule, that makes a horse ineligible if, "such horse is owned in whole or in part or trained by any person who is suspended or ineligible for a license or ineligible to participate **under the rules of any Turf Governing Authority or Stud Book Registry.**" *Id.* (emphasis added).

Thus, under this present provision in the Rule, the Commission is required to recognize suspensions on ineligibility based on decisions and policies of non-sovereign entities, Turf Governing Authorities and Stud Book Registries.

As the United States Supreme Court's decision in the *North Carolina* case recognized, non-sovereign entities controlled by market participants that do not receive active supervision by the state, are not entitled to *Parker* state-action immunity from federal anti-trust laws. In that case, a state regulatory board, the North Carolina Board of Dental Examiners, was considered a non-sovereign entity; the Horse Racing Commission, under the Court's analysis, might also be considered a non-sovereign entity, as under the present rule the Commission might be viewed as merely acting as an enforcement arm of the private, non-sovereign breed registries. Without the rule change, the Commission would be totally acting on the basis of decisions and policies of private organizations, the Turf Governing Authority and Stud Book Registry.

At present, the rule would require the Commission to recognize and hold owners and trainers ineligible regardless of whether the grounds for such rulings by the Turf Governing Authority and Stud Book Registry were based on policies consistent with Oklahoma's public policy.

The intent of the rule amendment is to correct this situation by eliminating paragraph 7 and replacing it with a new subsection (B) that requires that decisions of Stud Book Registries be recognized only when the Commission determines:

- That the Stud Book Registry has adopted uniform criteria and procedures for use in excluding horses from participating in races for the Registry's breed and for suspending or finding an owner or trainer ineligible,
- That the Stud Book Registry has adopted procedures that afford affected owners and trainers with notice and meaningful opportunity to respond prior to suspension or finding the owner or trainer ineligible or excluding a horse, that comports with due process, and
- That the Stud Book Registry has provided the Commission's Director of Law Enforcement Division with:

(1) the Registry's Order of Suspension or Ineligibility for an act or omission that violates the Oklahoma Horse Racing Act and/or Commission Rules, and

(2) the Due Process Notice provided to the owner or trainer prior to the proceeding leading to the Order of Suspension or Ineligibility.

The amendment to the rule thus ensures that a horse would be ruled ineligible on the basis of clearly articulated and affirmatively expressed State policy—here, the Oklahoma Horse Racing Act or Commission Rule.

The amendment would also ensure that no ruling by such Registries would be recognized unless the Commission finds that the affected owner or trainer has been afforded due process by the Stud Book Registry.

In the *North Carolina State Board of Dental Examiners* case, the Court held that to be entitled to the protection of *Parker* immunity, the market restraint of an entity, such as the Board Dental Examiners, had to be one clearly articulated and affirmatively expressed public policy.

The change in the rule ensures that the Commission's recognition of any of the Registry's actions will only be afforded in those cases in which the owner or trainer's actions are contrary to clearly articulated and affirmatively expressed state policy, as expressed in the Oklahoma Horse Racing Commission Act or Commission Rules, bringing the rule into compliance with one of the major criteria for *Parker* immunity.

The Committee has been reviewing the *Rules of Racing* document, proposing amendments to update information and/or delete obsolete language.

For 325:35-1-8, the amendment proposed an editorial change 'on the enclosure' to 'within the enclosure' to read: "No person shall in any manner or at any time disturb the peace or make themselves obnoxious on the enclosure of an Organization Licensee." For 325:35-1-10.1, the proposed amendments limited Stewards' involvement to those financial complaints that are in excess of \$100.00 and addition that the complainant must bear the expense of service of the summons rather than the Commission. For 325:35-1-18, the Commission proposed the revocation of this rule since it is outdated and unenforceable.

The Ad Hoc Committee on Rules proposed an amendment to change the deadline for submitting the next year's Horsemen's Agreement [between a racetrack and a horsemen's representative organization] from June 1 to October 1 of the preceding year. This would allow more comprehensive negotiate conditions in the next year's Horsemen's Agreement since information could be provided about the fall race meetings held at two racetracks that begin in August.

325:45-1-20. Split samples

As determined by the Official Veterinarian, when sample quantity permits, each test sample shall be divided into two (2) portions so that one (1) portion shall be used for the initial testing for substances in the sample. Urine and blood samples shall be collected unless otherwise provided by rule. Both the Trainer and Owner shall be notified in writing of positive lab report of the horse. If the duly notified Trainer and/or Owner

so requests in writing to the Stewards within forty-eight (48) hours of notice of a positive lab report on the test sample of his/her horse, the split sample shall be sent for further testing to a drug testing laboratory approved by the Commission. Nothing in this Section shall prevent the Commission or Executive Director from ordering first use of both sample portions for testing purposes. The results of said split sampling may not prevent the disqualification of the horse pursuant to the provisions of 325:45-1-15 and 325:45-1-4. All costs for the transportation, shipment and testing of the split sample shall be the financial responsibility of the requesting person, and payment shall be paid by the requesting person through the Horsemen's Bookkeeper or otherwise at the time of packaging. The Official Veterinarian shall have overall responsibility for the freezing, storage, and safeguarding of the split sample. Failure of an Owner and/or Trainer to make a written request of the Stewards for split sample testing within 48 hours or failure to make payment as required by this rule constitutes a waiver of any and all rights to have the split sample tested. If the split sample is not confirmed as positive by the Referee Laboratory, the Owner or Trainer will be reimbursed the cost of testing by the Commission.

(b) ~~This policy is applicable to all Divisions and Offices within the Department and to any person who may require assistance, services or employment from DHS. All Oklahoma Department of Human Services (DHS) employees, job applicants for DHS employment, and clients served by the Department DHS have a the right to request a reasonable accommodation when circumstances exist which directly and adversely affect their employment with DHS or their ability to receive DHS services. No employee, job applicant, or client is discriminated against with regard to employment or services for exercising his or her rights under the request procedure. Copies of ADA 1 and ADA 2, Request for Reasonable Accommodation are available in each DHS office and facility for use by any person upon request.~~ a disability causes:

- (1) an employee to be unable to perform an essential function of the position;
- (2) an applicant for employment to need assistance to apply or interview; or
- (3) a client to be unable to access a DHS service or program.

(c) Discrimination, including retaliation, against persons exercising rights under the accommodation request procedure is prohibited. Form 14CR003, The Request for Reasonable Accommodation, is available online and in each office and facility upon request.

(d) Examples of reasonable accommodations are found at: www.askJAN.org.

340:1-11-41. Overview of reasonable accommodation Reasonable accommodations for Oklahoma Department of Human Services (DHS) employees - Title I

(a) The need for accommodation is determined DHS employee requests for reasonable accommodations are resolved at the lowest level possible, on a case-by-case basis, taking into consideration after Form 14CR003E, Request for Reasonable Accommodation, is accepted by the Office for Civil Rights

(OCR) and OCR has opened a case. OCR considers Americans with Disabilities Act (ADA) protocol for reasonable accommodation requests, when:

- (1) the employee's or job applicant's specific disabling condition and the existing limitations to the performance of a particular job function employee has a disability;
- (2) the essential duties of the particular job employee is qualified; and
- (3) the work environment; and
- (4) ~~whether the proposed an effective and reasonable accommodation would is available and does not create an undue hardship on the Department.~~

(b) In all cases, the When feasible, an employee or job applicant must be consulted before an makes a request for a reasonable accommodation is made in writing by submitting Form 14CR003E to the local ADA coordinator. The employee attaches a definitive, narrative medical statement from a medical professional that confirms the employee is disabled per the Americans with Disabilities Act Amendments Act (ADAAA) and specifies the reasonable accommodation(s) needed in order to perform the essential functions of the position.

(c) The concept of reasonable accommodation is considered in recruitment, training, promotion, reassignment, and developmental assignments. For example, in providing equal access to employees with visual impairments, promotion vacancy announcements may, upon request, be prepared in Braille, tape recorded, or they may be read to the employees. In short, the responsibility to provide reasonable accommodation does not end when the person with a disability is placed in a position local ADA coordinator signs Form 14CR003E, retains a copy, and forwards the original and the medical documentation to the deputy director, division or program director, or designee, who signs the form and retains a copy. Original Form 14CR003E and the medical documentation are immediately forwarded to the DHS OCR to open a case and approve the medical statement. Signatures under this subsection of the form serve only to acknowledge the request and do not indicate agreement to provide the accommodation requested or any other accommodation.

(d) An accommodation must be job related rather than intended for personal use. For example, personal hearing aids or eyeglasses will not be purchased by the Department When the original is fully-signed and was forwarded to OCR, and OCR approves the medical statement and opens a case, the local DHS office initiates the mandated interactive-process by meeting with the requesting employee one or more times in an attempt to clarify the need for accommodation and to determine what, if any, accommodation is provided. The interactive process may take up to 30-calendar days. At the end of the interactive process the employee is notified in writing of the decision, whether an accommodation is to be provided, and a copy of the notice is sent to OCR. When a decision is not made by the 30th day after OCR opens the case, OCR refers the request to the Request Review Committee (RRC) for a decision.

(e) The value and nature of a particular accommodation may be clarified by considering six questions, as listed in (1) (6) of this subsection.

Permanent Final Adoptions

- (1) Is the accommodation necessary for performance of duties?
- (2) What effect will the accommodation have on the Department's operations and on the employee's performance?
- (3) To what extent does the accommodation compensate for the disabled person's limitations?
- (4) Will the accommodation give the person opportunity to function, participate or compete on a more equal basis with coworkers?
- (5) Will the accommodation benefit other individuals?
- (6) Are there alternatives that would accomplish the same purpose? Upon receipt of the fully-signed Form 14CR003E and an approved, definitive, narrative medical statement, OCR opens a file and notifies the requesting employee that the local DHS office approves or denies the request and of his or her right to appeal the decision. OCR monitors the interactive process and serves as a resource to all parties.
- (f) Accommodations that would result in an undue hardship to DHS do not have to be provided. Before making such a determination OCR consults with the regional director, division or program director, or designee.
- (g) Appeals to the RRC are routed through the DHS OCR administrator.
- (h) Employees who request a reasonable accommodation have the right to file a written appeal with the RRC when:
 - (1) his or her request is denied;
 - (2) a decision is not made by the 30th day of the interactive process; or
 - (3) the accommodation provided is not effective.

340:1-11-42. Examples of reasonable accommodation [REVOKED]

Specific examples of reasonable accommodation to known physical and mental limitations of otherwise qualified disabled employees, applicants, and clients that are used in DHS offices and facilities to meet requirements of the Americans with Disabilities Act (ADA) are provided in this Section.

- (1) **Modifying work sites.** In many cases, changes in the work environment enable persons with disabilities to perform job duties more effectively.
- (2) **Adjusting work schedules.** Some individuals with disabilities possess great productive potential that is unused because they cannot meet the requirements of a standard 40-hour work week. By taking advantage of the flexibility of alternative work schedules, accommodations can be made for various disabilities.
- (3) **Restructuring jobs.** Job restructuring is one of the principal methods by which some qualified disabled workers can be accommodated.
 - (A) **Trading job functions.** Job restructuring often involves trading of non-essential job functions between an employee with a disability and non-disabled employees.

- (B) **Performing essential job functions.** Employees with disabilities must be able to perform the essential functions of the position, not every function of the position. Job restructuring does not alter the essential functions of the job; it maximizes the abilities of the employee with a disability to perform the essential job functions. It does not stereotype, under employ, or limit job opportunities for the disabled. In job restructuring, the individual with the disability requiring accommodation is consulted first. Supplementary information can be obtained through consultation with a Vocational Rehabilitation Specialist.
- (C) **Modifying or adjusting a job.** A modification or adjustment must not fundamentally alter the essential nature of the employment position sought by an individual with a disability, nor can the adjustment fundamentally alter the essential nature of another identical employment position.
- (4) **Reassigning employees.** Reasonable accommodation does not require the creation of a new position for an employee with a disability. If the employee can no longer perform the essential job functions, reassignment of the employee to another existing position is considered. Reassignment is considered when accommodations are not effective in enabling the employee to perform all essential job functions. Such a reassignment is to a vacant position at the same grade and salary level, and one for which the employee is qualified with or without reasonable accommodation. **There is no requirement that the Department establish a new position for an employee with a disability or that the Department promote an employee with a disability as an accommodation.**
- (5) **Demotion or Termination.** Once it has been determined that no reasonable accommodation is possible, the Department is not required to maintain employees with disabilities in positions in which they cannot satisfactorily perform. When an employee cannot perform a job because of a disability and is not eligible for or does not wish to apply for disability retirement, then as a last resort the employee is removed from the position for failure to perform. This action is taken only if:
 - (A) there are no positions available for reassignment or placement.
 - (B) the employee refuses an offer of reassignment or placement.
- (6) **Providing special equipment.** Through new technologies, special equipment and assistive devices are available to aid disabled individuals. In many cases, employees with disabilities have adapted to their disabling conditions so well that no specialized equipment is necessary for satisfactory job performance. - (A) OCA advocates assist OCA, ~~and~~ Adult Protective Services investigators, ~~and~~ law enforcement officers ~~to~~ obtain information necessary to complete investigations when a client is an alleged victim.
- (B) Advocates engage in appropriate follow-up activity in response to a referral from the OCA ~~intake unit~~ Intake Unit, per OAC 340:2-3-35.
- (C) When an advocate has a concern related to a client's health, safety, well-being, or program implementation, the advocate advises the client's case manager or designated ~~QMRP~~ qualified intellectual disabilities professional (QIDP), as applicable, and others, such as DDS staff, provider or facility staff, treatment staff, or health care professionals as circumstances warrant.
- (D) Immediately upon becoming aware of concerns regarding imminent risk of harm, an advocate advises the applicable residential or vocational provider and the client's case manager.
- (E) An OCA advocate ensures that ~~allegations of~~ abuse, neglect, maltreatment, and/or exploitation ~~allegations~~ are reported to the OCA ~~intake~~ Intake Unit, per OAC 340:2-3-33.
- (6) **Promoting informed choice.** An OCA advocate promotes informed decision-making, consistent with a client's unique strengths, resources, priorities, concerns, abilities, capabilities, and interests; through provision of necessary information and assistance to a client in understanding options and potential consequences of a decision. ~~If~~ When a client is unable to make an informed choice, the advocate seeks to provide the client's legal guardian, Guardian ad Litem, volunteer advocate, and

other representative(s) with access to information to make an informed decision on the client's behalf. The advocate general does not provide legal advice to clients; but may provide information about the law.

(7) **Protection of rights.** An OCA advocate promotes the full exercise of legal rights guaranteed clients under federal and state laws. An advocate takes appropriate steps to protect a client's rights; including ensuring those rights are considered in PST decisions and in the manner PST decisions are carried out. An advocate seeks to ensure the application of due process in administrative, quasi-judicial, and judicial proceedings involving a client that might result in a rights restriction or a reduction in services. When a rights restriction is absolutely necessary, OCA supports the least restriction necessary for the shortest period of time possible, and a plan to remove the restriction as soon as possible.

(8) **Access to services.** An OCA advocate promotes client access to the full range of supports per federal and state ~~and federal~~ requirements. Although an advocate takes a position with regard to services needed by a client, an advocate does not have authority to approve services.

(9) **Guardianship issues.** The Oklahoma Guardianship and Conservatorship Act promotes the participation of persons as fully as possible in the decisions that affect them, in the development of maximum self-reliance and independence, and the appointments of guardians and others, only to the extent necessitated by the mental and adaptive limitations or other conditions of individuals, per 30 O.S. § 1-103. Because a full guardianship of the person and his or her estate is the most restrictive intrusion on an individual's decision-making, OCA advocates for the least restrictive alternative to a full guardianship feasible under the circumstances including, but not limited to:

- (A) limited guardianship;
- (B) representative payee for financial benefits;
- (C) volunteer advocate;
- (D) supportive friends and family;
- (E) health care proxy;
- (F) durable power of attorney; and
- (G) advance directives.

(10) **Promoting inclusion.** An advocate:

(A) promotes the realization of active citizenship and inclusion in the community. This includes, but is not limited to, encouraging clients to:

- (i) learn the rights and responsibilities of good citizenship;
- (ii) vote;
- (iii) take classes;
- (iv) participate in volunteer services organizations;
- (v) attend religious services of the client's choice;
- (vi) attend recreational, cultural and social events; and
- (vii) join citizen advocacy organizations that promote inclusion in the community;

~~(B) An advocate~~ encourages the development of friends who can serve as natural supports for a client; and

~~(C) An advocate~~ assists a client in locating relatives who are not currently active in the client's life and encourages relationship building between the client and family members.

(11) **End-of-life issues.** End-of-life issues for an individual with a developmental or intellectual disability do not differ from those of other individuals. Regardless of the medical circumstance that brought these issues to the forefront, an OCA advocate seeks to have a client's physicians, guardians, and loved ones adhere to Oklahoma laws relating to do-not-resuscitate orders, withdrawal or denial of nutrition or hydration, and withdrawal or termination of medical treatment. In the absence of clear and convincing evidence of a client's choices, an advocate presumes the client would choose life-sustaining measures.

(i) **Contacting an OCA advocate.** When an advocate is not available during office hours, his or her supervisor serves as an advocate back-up to the ~~advocate~~. Information about the name of the advocate assigned to a client, the advocate's phone numbers and the name of the advocate's supervisor is obtained ~~from~~ by phoning OCA at 1-800-522-8014.

(j) **OCA access to client records and information.** OCA staff is provided access to all records, files, documents, and information needed to fulfill OCA responsibilities regarding a client. DDS case managers and employees, and provider agency staff send the assigned OCA advocate copies of documents and notices sent to the client.

The OCA advocate monitors the implementation of the recommendations in the capacity assessment and advocates for timely achievement. (a) **Application.** This Section describes Office of Client Advocacy (OCA) advocacy services for Hissom class members who reside in Oklahoma. 340:25-5-124.2. Tribal case referral of cases to an Oklahoma tribal child support office [AMENDED AND RENUMBERED TO 340:25-5-286]

(a) **Definitions.** The following words and terms, when used in this Section, have the following meanings:

(1) **"Native American"** means a person who is an enrolled member of a federally recognized Indian tribe.

(2) **"Tribal child support office program"** means a federally recognized comprehensive IV-D child support program in Oklahoma.

(b) **Scope.** The tribal child support programs:

(1) provide child support services to tribal members as outlined in their tribal codes; and

(2) do not provide child support services when the child(ren) is in a deprived or delinquent state juvenile court action.

~~(c) **Tribal case referrals from Oklahoma Child Support Services (OCSS) to tribal child support programs.**~~

~~(1) Per OAC 340:25-5-124, Oklahoma's Interstate Central Registry and Oklahoma's Centralized Support Registry, also known as the State Disbursement Unit, assign to a district child support office incoming interstate referrals, Form 03EN001E, Application for Child Support Services, and Form 03AD020E, Request for Paternity Testing and Services Notice of Applicant Responsibilities, with a:~~

~~(A) Native American noncustodial parent;~~

~~(B) tribal child support order; or~~

~~(C) tribal employer.~~

~~(2) OCSS retains cases with tribal members and tribal child support orders unless:~~

~~(A) the applicant of the OCSS case applies for child support services with a tribal child support program, and the OCSS case meets the eligibility requirements as determined by the tribal child support program;~~

~~(B) the noncustodial parent is a tribal employee, and the employer refuses to honor the OCSS income withholding order; or~~

~~(C) the child is in a deprived or delinquent juvenile court case in tribal court and not subject to a state court deprived or delinquent juvenile action.~~

~~(3) Upon confirmation from a tribal child support program that the OCSS case applicant has applied for tribal child support services and there is no pending litigation, the district office provides copies of relevant documents from the district office case file to that tribal child support program and retains the district office case file.~~

~~(4) OCSS maintains a case record when state assistance is being provided to the child or assistance has been provided in the past and there is assigned child support or cash medical support owed per OAC 340:25-5-117.~~

~~(d) **Tribal case referrals from tribal child support programs to OCSS.** OCSS accepts case referrals from a tribal child support program when:~~

~~(1) there is lack of jurisdiction to proceed in the tribal court system;~~

~~(2) a current customer with a tribal child support program applies for services with OCSS; or~~

~~(3) a noncustodial parent leaves tribal employment and the applicant on the former OCSS case does not apply for services with the tribal child support program.~~

~~(e) **Registration of tribal child support orders.** OCSS registers tribal child support orders in state courts per The Full Faith and Credit for Child Support Orders Act (FFCCSOA) in Section 1738B of Title 28 of the United States Code and may establish and enforce a child support order in tribal or federal courts outside the tribal programs' service area.~~

340:25-5-124.3. Assignment and management of deprived cases

When a case includes a child(ren) in a deprived court action, Oklahoma Department of Human Services Child Support Services (~~OCSS~~)(CSS) assigns cases ~~under~~per this Section.

(1) **No existing child support order.** When there is no existing child support order, the case is assigned to a district office serving the county in which the district court has jurisdiction over the deprived action.

(2) **Existing case.** When there is a prior Family and Domestic district court case involving the parent(s) and child(ren), the case is assigned to a district office serving the county in which the order was entered or docketed, regardless of whether a child support order was entered as to either parent.

(3) **Split jurisdiction.** When the case involves split jurisdiction, the district offices coordinate paternity and child support order establishment and child support order enforcement procedures with the district courts.

(4) **No prior child support order.** When no child support order was entered prior to the filing of the juvenile petition, there is no existing Family and Domestic district court case, the parental rights of the noncustodial parent (NCP) are terminated, and the child is not placed with ~~that noncustodial parent~~ the NCP, the child support case is assigned and transferred according to (A) through ~~(E)~~(D) of this paragraph, as applicable.

(A) ~~When a child(ren) is permanently placed within Oklahoma, the child support case is assigned to the district office serving the county where the minor child(ren) resides,~~ there is one NCP or when both NCPs reside in the same county, the CSS case is assigned to the district office serving the county where the NCP(s) resides.

(B) ~~When a child(ren) is permanently placed outside Oklahoma, the child support case is assigned to the district office serving the county where the non-custodial parent resides.~~

~~(C)~~ When there are multiple ~~noncustodial~~ NCPs residing in different ~~areas~~ counties, the district offices within whose jurisdiction the ~~non-custodial~~ NCPs reside reach an agreement regarding district office assignment.

~~(D)~~ When parental rights ~~have been~~ are terminated, ~~OCSS~~ CSS requests the court refer all child support issues regarding the parent whose rights have been terminated to ~~OCSS~~ CSS for filing in the appropriate court.

~~(E)~~ When the juvenile court ~~has~~ entered a child support order but no longer desires to exercise jurisdiction to enforce the order, no prior Family and Domestic district court case exists, and the child(ren) is not placed with the ~~noncustodial parent~~ NCP, ~~OCSS~~ CSS docket the juvenile child support or paternity order in a new district court case according to (i) through ~~(iii)~~(ii) of this subparagraph, as applicable:

(i) in the county in which the ~~noncustodial parent~~ NCP resides or the NCP's last verified address ~~of the noncustodial parent~~; or

(ii) ~~if~~ when both parents are ~~noncustodial~~ NCPs, ~~(C)~~(B) of this paragraph applies; or

~~(iii) in the county where the child(ren) resides if parental rights have been terminated.~~

(5) **Prior child support order.** When a prior child support order exists and after final adjudication and dismissal of the deprived action from the juvenile court, or when child support issues have been deferred by the juvenile court, the office with the existing child support order docket any juvenile child support or paternity order in its district court and proceeds with both judicial and non-judicial enforcement of the child support order.

(6) **Adoption.** When the child(ren) is adopted and the deprived action terminates, the child support case is assigned as described in (A) and (B) of this paragraph.

(A) When there is an existing child support order prior to the child(ren) entering foster care, the case

is assigned to the district office serving the county where the order was established.

(B) When there is no existing child support order prior to the child(ren) entering foster care, and a child support order is established during the deprived action, the case is assigned to the district office serving the county where the ~~noncustodial parent~~ NCP resides.

340:25-5-124.4. Multiple case processing

(a) **Definitions.** The following words and terms when used in this Section shall have the following meanings unless the context clearly indicates otherwise:

(1) **"Multiple case action"** means a noncustodial parent (NCP) has multiple cases that are worked together for the primary purpose of right-sizing the NCP's child support orders. A multiple case action includes either an establishment action, modification action, or both. Child Support Services (CSS) presents multiple case actions to the Office of Administrative Hearings: Child Support (OAH) or district court as appropriate. When appropriate, CSS may pursue enforcement action in addition to completing the other action(s). CSS follows Oklahoma Administrative Code (OAC) 340:25-5-200.3 when multiple case processing involves enforcement actions only.

(2) **"Right-sizing"** means establishing and modifying child support orders and setting judgment payments that reflect current circumstances and actual income, unless the evidence supports imputing, to encourage NCP compliance and consistent, reliable support collections for the child(ren) involved.

(b) **Determination of multiple case actions.** CSS determines whether there is evidence to justify a modification per OAC 340:25-5-198.2 and Section 237 of Title 56 of the Oklahoma Statutes (56 O.S. § 237). When determining whether it is appropriate to conduct a multiple case action, CSS considers:

- (1) the NCP's income;
- (2) the NCP's ability to pay all child support orders each month, in full;
- (3) if the NCP is paying on all cases; and
- (4) the monthly child support amount per 43 O.S. §§ 118-118I.

(c) **Interstate multiple case actions.** Multiple case actions involving non-Oklahoma orders are worked per this subsection.

(1) When Oklahoma has continuing exclusive jurisdiction, a case is included in a multiple case action.

(2) When Oklahoma does not have continuing exclusive jurisdiction and:

(A) current support is still due, a case may be included in a multiple case action when all necessary parties consent for Oklahoma to exercise jurisdiction to modify the support order per 43 O.S. § 601-611; or

(B) consent is not received for Oklahoma to exercise jurisdiction to modify, the interstate case is included only for determination of the judgment payment plan.

Permanent Final Adoptions

(d) **Initial transfer of cases.** When CSS initiates a multiple case action, CSS transfers cases as necessary to the office completing the multiple case action.

(e) **Initial notice.** CSS provides notice to the custodial persons and the NCP, explaining their case:

- (1) is involved in a multiple case action;
- (2) was temporarily transferred, as appropriate, to another office for the multiple case action; and
- (3) will be returned to its original office after completion of the multiple case action.

(f) **Child support computation preparation.** In multiple case actions, CSS prepares:

- (1) individual child support computation forms for each case, including medical support and child care costs for the family group; and
- (2) one combination child support computation form that treats the NCP's children as one family, allowing a child support amount based on a pro rata share. The combined child support computation form uses the NCP's income and an average of all the cases' biological parents' (BP) income and does not include medical support or child care costs.

(g) **Filing.** CSS files multiple case actions in OAH or district court and requests the court:

- (1) consider all of the NCP's cases at the same time;
- (2) deviate from the individual guidelines child support amount due to extreme economic hardship and to more equitably distribute the resources available, as supported by 43 O.S. § 118H and OAC 340:25-5-178;
- (3) order a pro rata child support amount calculated by averaging the BPs' incomes and dividing the NCP's total child support amount evenly among all children; and
- (4) add medical support and child care costs from the individual child support computation form to the pro rata child support amount.

(h) **Conclusion of multiple case action.** After a multiple case action is concluded, the multiple case processing office transfers each case back to the original office.

PART 20. MEDICAL SUPPORT

340:25-5-168. Establishment of medical support

(a) **Scope and applicability.** Oklahoma Department of Human Services (DHS) Child Support Services (CSS) refers to federal and state law for establishment of a medical support order per:

- (1) Section 666 of Title 42 of the United States Code;
- (2) Sections 302.33, 302.56, 303.7, 303.30, and 303.31 of Title 45 of the Code of Federal Regulations; and
- (3) Section 6058A of Title 36 of the Oklahoma Statutes (36 O.S. § 6058A), 43 O.S. §§ 112, 118-118I, 118.2 and 119, and 56 O.S. § 237.

(b) **Medical support provision of child support order.** A child support order established by CSS must contain a medical support provision.

(c) **Calculating the cost of medical support.** To calculate the actual premium cost of health insurance, CSS:

(1) deducts from the total insurance premium, the cost of coverage for the parent;

(2) deducts from the total insurance premium, the cost of coverage for any other adults in the household, when that cost information is available;

(3) divides the remainder by the number of dependent children covered; and

(4) multiplies the amount per child by the number of children in the child support case under consideration.

(d) **Standards for medical support provision.** When choosing a medical support provision, CSS requests the court to apply the standards in paragraphs (1) through (3) of this subsection.

(1) Health insurance must be reasonable in cost, meaning that the actual out-of-pocket premium cost paid does not exceed five percent of the gross income of the parent ordered to provide health insurance.

(2) Health insurance must be accessible, meaning the health care providers must be available to meet the child(ren)'s individual health care needs, and must be located no more than 60 miles one-way from the primary residence of the child(ren).

(3) Health insurance must provide coverage for both routine and major medical expenses including, but not limited to: preventive care, office visits, hospitalization, and medication coverage in compliance with the Oklahoma Insurance Department per Oklahoma Administrative Code (OAC) 365:10-5-3(14) and OAC 365:10-5-5(f). Limited Insurance Coverage per OAC 365:10-5-5(k) does not satisfy this requirement. Annual deductibles must be reasonable and relate to the medical circumstances of the child(ren).

(e) **Exceptions to standards for medical support provision.** When the parents agree or it is otherwise appropriate, CSS requests the court make an exception to the standards for health coverage when the:

(1) reasonable cost of health insurance exceeds five percent of the gross income of the parent ordered to provide health insurance; or

(2) closest insurance provider exceeds 60 miles one-way from the primary residence of the child(ren).

(f) **Hierarchy of medical support provisions.** The provision for medical support must be consistent with one of the priorities listed in paragraphs (1) through (4) of this subsection.

(1) Health insurance is provided through a parent's employer or other available group health insurance plan.

(2) No coverage is available under paragraph (1) of this subsection, and a private insurance policy or group health insurance is available to the child(ren) through another source, such as a third party custodian or spouse of a parent, CSS seeks an order for the:

(A) parent to provide health insurance when insurance is provided through the spouse of a parent; or

(B) third party custodian to provide health insurance when insurance is provided through a third party custodian and the third party custodian has requested an order to provide the coverage.

(3) No health coverage is available under paragraphs (1) or (2) of this subsection, and alternative health coverage including, but not limited to, Indian Health Services (IHS) and Defense Eligibility Enrollment Reporting System (DEERS) is available to the child(ren).

(4) ~~If~~When none of the provisions in paragraphs (1) through (3) of this subsection are available at reasonable cost or are not accessible, the custodial person (CP) is required to make application for the child(ren) for health coverage through a government medical assistance program, such as SoonerCare (Medicaid).

(g) **Health coverage preference.** When health coverage meeting standards in subsection (d) of this Section is available to both parents, CSS requests the court give priority to the preference of the CP.

(h) **Exceptions to hierarchy.** CSS requests a cash medical order instead of an order for health coverage by the noncustodial parent (NCP) ~~under paragraphs (1) or (2) of subsection per~~ (f)(1) or (2) of this Section when the:

- (1) court determines an order for health insurance is inappropriate due to family violence concerns; or
- (2) obligor is an applicant for a governmental medical assistance program, such as Insure Oklahoma, State Children's Health Insurance Program (S-CHIP), or SoonerCare (Medicaid).

(i) **Cash medical support.**

(1) ~~When paragraph (4) of subsection (f)(4) of this Section is chosen as the provision for medical support, CSS requests the court order cash medical support to be paid by the NCPs, until insurance is provided under paragraphs (1) through (3) of subsection per~~ (f)(1) through (3) of this Section.

(2) CSS refers to the Cash Medical Income Guidelines Table as found in the child support computation form prescribed by CSS and published by the Administrative Office of the Courts on the Oklahoma State Courts Network site per 43 O.S. § 120 to determine the cash medical support amount.

(3) CSS computes a cash medical order by applying the Cash Medical Income Guidelines Table, using the gross income for the NCP of the child in the case under consideration and the number of children in the instant case.

(A) When the NCP's gross income is at or below the income amount for the number of children in the case, CSS requests the court order a cash medical order at \$0 per month.

(B) When the NCP's gross income exceeds the income amount for the number of children in the case, CSS computes the requested cash medical order by:

- (i) multiplying the amount of \$115, representing the average monthly cost of health care for an uninsured child(ren), by the number of children in the case ~~that are~~ not covered by insurance; and
- (ii) prorating the result by the percentage of income for each parent.

(C) The NCP's share of the cash medical amount is added to the child support obligation.

(D) ~~When neither parent is the obligor or NCP due to equally shared physical custody and the application of the parenting time adjustment, CSS requests the court set cash medical support as follows:~~

~~(i) if the child(ren) receives SoonerCare or other governmental medical assistance, the parent who is not the applicant for governmental medical assistance is ordered to pay the cash medical support;~~

~~(ii) if the child(ren) does not receive SoonerCare or other governmental medical assistance, the cash medical amount is calculated for each parent and the amounts are offset. The parent owing the larger amount is ordered to pay the net cash medical support. CSS does not request the court set cash medical support against a parent who has equally shared physical custody with at least 182 overnights.~~

(4) Unless the parties agree or the court orders a greater amount, the prorated cash medical support amount must not exceed five percent of the gross income of the parent who is ordered to pay cash medical support.

(5) CSS seeks cash medical support only as part of a prospective order for child support. CSS does not include a cash medical support amount in a judgment for support for a prior period per OAC 340:25-5-179.1.

(6) In a child support modification action, CSS requests a cash medical support order be effective the first day of the month following the date the modification order is entered.

(j) **Medical support for DHS adopted children.** CSS does not request health insurance or cash medical support for children who are adopted through DHS Adoption Services. CSS requests a medical support order reflecting that the child(ren) receive SoonerCare through the adoption plan. The parties may agree to cover the child(ren) on health insurance.

(k) **Termination of cash medical support.**

(1) When CSS receives notice the parent ordered to pay cash medical support enrolled the child(ren) in health insurance, CSS sends a Notice of Proposed Termination of Cash Medical Support to all parties in the case by regular mail. When a party believes the child(ren) is not covered by health insurance, a party may request a review of the termination of cash medical support within 10-calendar days from the date of mailing of the notice.

(2) When a party requests a review to contest the Notice of Proposed Termination of Cash Medical Support, CSS reviews the case within 10-calendar days of receipt of the request and determines if termination of cash medical support is proper based on information provided by the contesting party. CSS notifies the parties of the review decision.

(3) When the parties disagree with the review decision, the parties have 15-calendar days from the date of mailing the review decision to request a hearing on the termination of cash medical support.

(4) CSS files a Notice of Termination of Cash Medical Support with the proper court when no party requests a:

- (A) review within the 10-day time period; or

Permanent Final Adoptions

- (B) hearing after CSS notifies them of the review decision.
- (5) CSS does not proceed with a separate termination of cash medical support when the child support and medical support order is modified within 30-calendar days of notification that the child(ren) is enrolled in health insurance.
- (6) When a cash medical support order is terminated within a modification action, CSS requests the termination become effective the date of filing of the Motion to Modify or the date, if later when the child was actually enrolled in the insurance.
- (l) **Reinstatement of cash medical support.**
- (1) CSS seeks reinstatement of the cash medical order when:
- (A) a child support court order previously ordered the NCP to pay cash medical support until insurance was available;
- (B) insurance became available;
- (C) the cash medical support was terminated; and
- (D) the insurance subsequently lapsed.
- (2) CSS uses one of the following processes to seek reinstatement of the cash medical order:
- (A) **Modification.** CSS seeks modification of the child support order and reinstatement of cash medical support per OAC 340:25-5-198.1 and OAC 340:25-5-198.2 when:
- (i) the child support order that provided for cash medical support ~~has been~~was modified to include credit for insurance premium costs; or
- (ii) there is another material change of circumstance in addition to the lapse of health coverage.
- (B) **Expedited Process.** When ~~subparagraph~~ (A) of this paragraph does not apply, CSS uses an expedited process to reinstate the cash medical support. CSS uses the expedited process when there is an address of record for the obligor.
- (3) CSS initiates a reinstatement of cash medical support when it receives notice the parent whose cash medical support was terminated due to the enrollment of the child(ren) in health insurance has allowed the coverage to lapse. CSS sends a Notice of Proposed Reinstatement of Cash Medical Support to all parties in the case by regular mail. When a party believes the child(ren) is covered by health insurance, a party may request a review of the reinstatement within 10-calendar days of the date the notice was mailed.
- (4) A party may file a written objection to the reinstatement of cash medical support and submit it to CSS with supporting health care coverage documentation. CSS reviews the case within 10-calendar days of receipt of the objection and determines if reinstatement of cash medical support is proper based on the information provided by the contesting party. CSS provides the CP and the NCP with written notice of the review decision.
- (5) When the parties disagree with the review decision, they have 15-calendar days from the date of the review decision to request a hearing.
- (6) CSS files a Notice of Reinstatement of Cash Medical Support with the proper court when no party requests a:
- (A) review within the 10-calendar day time period; or
- (B) hearing after CSS notifies them of the review decision.
- (m) **Fixed medical costs.** When the parties agree or the court orders, CSS includes the total monthly fixed medical costs in the child support guidelines computation. When the obligor's share of fixed medical costs exceeds five percent of the obligor's gross income and the parties do not agree to exceed the five percent standard, CSS requests the court determine the monthly amount of fixed medical costs included in the current child support order.
- (n) **Indian Health Services (IHS).**
- (1) A child support order that provides for the enrollment of a child(ren) in IHS may comply with the standards in ~~subsection~~ (d) of this Section. CSS seeks an order for either or both parents to secure health insurance for the minor child(ren) when:
- (A) IHS does not meet the standards in ~~subsection~~ (d) of this Section; or
- (B) health insurance is available through an employer or other group plan and the CP requests it.
- (2) CSS does not request cash medical support when IHS is the chosen provider.
- (o) **Notification requirements.** The NCP and the CP must notify CSS in writing within 30-calendar days after:
- (1) health insurance becomes available;
- (2) the cost of existing health insurance changes; or
- (3) other provisions of existing health insurance change.
- (p) **Modification request.** When a child support order exists, CSS considers a request to establish a medical support order as a request for modification of the order per 43 O.S. § 118.1. CSS seeks a medical support order in a tribunal that has jurisdiction to modify the child support order.

PART 21. ESTABLISHMENT

340:25-5-176.1. Challenges to paternity establishment

- (a) Oklahoma Department of Human Services Child Support Services (CSS) objects to a paternity challenge proceeding when:
- (1) a party challenges an acknowledgment of paternity (AOP) outside of the rescission time periods per Section 7700-307 of Title 10 of the Oklahoma Statutes (10 O.S. § 7700-307), unless the challenge is filed within the two-year time limit for challenges per 10 O.S. § 7700-308. When a party challenges an AOP within the statutory time limit, the state's attorney reviews the facts of the case to determine whether an objection is appropriate under the circumstances. CSS may object to the proceedings and request the court require the challenging party to prove fraud, duress, or material mistake of fact by clear and convincing evidence-;

- (2) the child has a presumed father and a party initiates a challenge more than two years after the child's birth, unless the parties meet the jurisdictional requirements per 10 O.S. § 7700-607(B); or
- (3) paternity ~~has been~~was established by a district or administrative court order per 10 O.S. § 7700-636 and the challenging party is filing outside the 30-calendar day time period to vacate a judgment per 12 O.S. § 1031.1(A).
- (b) CSS does not object to a paternity challenge proceeding when the:
 - (1) time requirement to rescind an acknowledgment of paternity has not passed;
 - (2) parties neither cohabited nor engaged in sexual intercourse and the husband never held out the child as his own; or
 - (3) mother, legal father, and biological father agree to adjudicate paternity per 10 O.S. § 7700-607.
- (c) When a paternity challenge proceeding is brought by a child per 10 O.S. § 7700-637, the state's attorney reviews the facts of the case and determines whether an objection is appropriate under the circumstances.
- (d) When one or both parties timely objects, orally or in writing, to the entry of an order for a child with a presumed or alleged father, CSS takes necessary steps to bring the paternity challenge before the appropriate court for resolution.

340:25-5-178. Calculation of new and modified child support obligations

- (a) **Legal authority.** Oklahoma Department of Human Services (DHS) Child Support Services (CSS) establishes current child support per:
 - (1) Sections 654, 656, and 666 of Title 42 of the United States Code (42 U.S.C. §§ 654, 656, and 666);
 - (2) Parts 302 and 303 of Title 45 of the Code of Federal Regulations; and
 - (3) Section 83 of Title 10 of the Oklahoma Statutes (10 O.S. § 83); Title 43; and 56 O.S. §§ 231 through 240.23.
- (b) **Child support guidelines.** CSS uses the child support guidelines in 43 O.S. §§ 118-118I and 119 to:
 - (1) establish the amount of current support; and
 - (2) prepare a child support computation form prescribed by CSS and published by the Administrative Office of the Courts on the Oklahoma State Courts Network website per 43 O.S. § 120.
- (c) **Child support computation.** Per 43 O.S. §§ 118-118I, CSS uses the best evidence available to determine a parent's monthly gross income for the child support computation form, including written earning records, past job history, and earning ability based on education and training, with a continued emphasis on setting fair and equitable child support orders. When requesting the court enter or modify child support orders in a noncustodial parent's (NCP) multiple cases, CSS may request the court deviate from the child support guidelines amounts per 43 O.S. § 118H.
- (d) **Gross income.** When determining gross income for the child support computation, CSS uses (1) through (4) of this subsection per 43 O.S. § 118B.

- (1) **Written earning record.** For time periods when a parent has a written earning record, CSS uses the:
 - (A) actual monthly gross income; or
 - (B) average of the gross monthly income for the time actually employed during the previous three years.
- (2) **Ability to work and no written earning record.** For time periods when a parent has an earning ability, but no written earning records, CSS imputes the most equitable of the:
 - (A) minimum wage paid for a 40-hour work week; or
 - (B) amount of gross income a person with comparable education, training, and experience could reasonably expect to earn.
- (3) **Combination.** For time periods when a parent has a written earning record for some months, but no written earning record for other months, for the months worked CSS uses the actual income and for the months with no written earning record CSS uses the most equitable of either:
 - (A) the actual gross income; or
 - (B) an imputed amount of either:
 - (i) minimum wage paid for a 40-hour work week; or
 - (ii) the amount of gross income per person with comparable education, training, and experience could reasonably expect to earn.
- (4) **Reduced earning ability.** CSS uses actual income when a parent has reduced earning ability due to the parent's limited education, physical or mental disability, incarceration, or other obstacle to employment, and there is evidence the parent has income of less than minimum wage for 40 hours per week.
- (e) **Child care.** To establish the amount of current support, CSS considers "actual" child care expenses to be the amount paid to the child care provider by the parent(s) or custodial person (CP) except when (f) of this Section applies. CSS determines the amount of prospective annual child care costs and allocates this amount between the parents in the same proportion as their adjusted gross income. The amount allocated to the NCP becomes part of the fixed monthly child support obligation.
- (f) **Child care subsidy.** When the parent(s) or CP is participating in the DHS Child Care Subsidy Program per 56 O.S. § 230.50, CSS uses DHS Appendix C-4, Child Care Eligibility/Co-payment Chart, to determine the family share co-payment amount considered as actual child care costs on the child support computation form per 43 O.S. § 118G.
 - (1) CSS considers ~~the NCP's~~a parent's share of the base monthly obligation for child support and the ~~CP's~~gross monthly income amount reflected in the records of the DHS Child Care Subsidy Program as the CP's monthly income when applying Appendix C-4. Upon selecting the applicable income level on Appendix C-4, CSS uses the corresponding family share co-payment amount based on the number of children in DHS subsidized child care.

Permanent Final Adoptions

CSS allocates the family share co-payment amount indicated on Appendix C-4, in the same proportion as base child support. CSS staff performs a separate child support guidelines calculation for each NCP.

(2) When ~~the CP a parent~~ has a child(ren) in DHS subsidized child care other than a child(ren) included in the child support case being established, CSS uses the proportionate share of the family share co-payment for the child(ren) included in the case.

(g) **Juvenile Court cases.**

(1) **Deprived cases.** When a case is referred, CSS establishes child support orders in deprived court actions per 10A O.S. § 1-4-702 and prepares the child support order on the standard child support order form prescribed by CSS and published by the Administrative Office of the Courts on the Oklahoma State Courts Network website.

(2) **Delinquent cases.** When a case is referred, CSS establishes a child support order against each parent of a child in the custody of the Oklahoma Office of Juvenile Affairs per 43 O.S. §§ 118 through 118I.

(h) **Intergovernmental majority age.** CSS establishes child support orders for a child(ren) for whom child support is impossible under applicable law.

(i) **Minor parents.** When the NCP is a minor, CSS establishes paternity per Oklahoma Administrative Code 340:25-5-176 when necessary and establishes a child support order. When a minor NCP or a CP is under 16 years of age, CSS does not impute gross income for the minor parent in the child support computation and only uses actual income. When a minor NCP or CP is between 16 and 18 years of age and regularly and continuously attending high school, unless otherwise inappropriate, CSS uses either the imputed gross income for the minor parent(s) based on minimum wage at 20 hours per week or actual income.

(j) **Adult disabled child.** CSS enforces child support orders for adults with disabilities per 43 O.S. § 112.1A. CSS establishes or modifies child support orders to continue after the child reaches the age of majority per 43 O.S. § 112.1A ~~if~~when the application or referral for Title IV-D services is received during the period when child support is due per 43 O.S. § 112.

(k) **Incarcerated NCP.** When an NCP is incarcerated, CSS follows (1) and (2) of this subsection.

(1) When an NCP is expected to be incarcerated for at least six consecutive months from the date the support amount is reviewed or established, CSS requests the court enter a temporary child support and medical support amount using actual income of \$0, unless there is evidence of income or assets outside of the correctional institution. At the time the order is entered, when there is:

(A) a pre-incarceration child support order, CSS requests the order state that upon release from incarceration, the monthly child support obligation reverts back to the pre-incarceration order amount beginning the first day of the month following a lapse of 90-calendar days upon release from incarceration. When the NCP within the lapse period, requests in writing

a review of the pre-incarceration order, the post incarceration monthly child support obligation does not begin until the review or modification is complete. When a review is requested and the NCP fails to appear for hearing, the monthly child support obligation reverts back to the pre-incarceration amount to begin the first day of the month following a lapse of 90-calendar days upon release from incarceration; or

(B) no pre-incarceration child support order, CSS requests the court order state; upon release from incarceration, the monthly child support amount is set based on minimum wage for a 40-hour work week beginning the first day of the month following a lapse of 90-calendar days upon release from incarceration. When the NCP within the lapse period requests in writing a hearing, the post incarceration monthly child support amount does not begin until the review or modification is complete. When a hearing is requested and the NCP fails to appear for the hearing, the monthly child support obligation reverts back to the support amount set based on minimum wage for a 40-hour work week, to begin 90-calendar days upon release from incarceration.

(2) This provision does not apply when the NCP is incarcerated for crimes against the CP or child.

(l) **Military.** When CSS establishes a child support order for a child of an NCP or a CP who is a servicemember, CSS applies the provisions of the Servicemembers Civil Relief Act, codified in 50A U.S.C. §§ 501 through 596.

(m) **Disability benefits.** CSS does not impute gross income to a person determined disabled by the Social Security Administration.

(n) **Default orders.** When a default order for child support ~~has been~~is ordered and either party contacts CSS in writing within 30-calendar days of entry of the default order and provides information to calculate an accurate child support obligation, CSS treats the request as a motion to vacate or modify, and requests the court enter a new order consistent with the evidence presented.

PART 22. REVIEW AND MODIFICATION

340:25-5-198.1. Review of a child support order

(a) **Purpose.** The purpose of the review process is to determine whether a child support order should be modified to ensure substantial compliance with the child support guidelines in Sections 118-118I through 119 of Title 43 of the Oklahoma Statutes (43 O.S. §§ 118-118I & 119) and Oklahoma Administrative Code (OAC) 340:25-5-178.

(b) **Notification requirements.** At least once every three years after a child support order is established, reviewed, or modified, Oklahoma Department of Human Services (DHS) Child Support Services (CSS) notifies all parties in a full-service case of the right to request a review of the child support order and the process for requesting a review.

(c) **Authority for review.** CSS conducts a review every three years in cases with a Temporary Assistance for Needy

Families (TANF) assignment. CSS determines the tribunal with jurisdiction under subsection (e) of the Full Faith and Credit for Child Support Orders Act, codified in Section 1738B(e) of Title 28 of the United State Code (28 U.S.C. § 1738B(e)) and the Uniform Interstate Family Support Act (UIFSA) in 43 O.S. §§ 601-101 through ~~601-901~~601-903 to modify the order. When another tribunal has jurisdiction to modify the child support order, CSS follows the provisions in (j) of this Section. When Oklahoma has jurisdiction to modify the child support order, CSS follows the provisions of this subsection. CSS completes the review and modification process within 180-calendar days after a request is received or the non-requesting party is located, whichever is later.

(d) **Initiation of review.**

(1) CSS reviews an order upon written request by a customer or on its own initiative:

- (A) when there ~~has been~~ is a material change in circumstances per 43 O.S. § 118I; or
- (B) per 56 O.S. § 237 when the evidence in the case justifies a modification as per OAC 340:25-5-198.2, regardless of whether there ~~has been~~ is a change of circumstances.

(2) CSS notifies the parties of the review with instructions for submitting financial and other information required for the review.

(3) CSS does not initiate a review upon customer request when:

- (A) the non-initiating party is not located;
- (B) it has been less than 12 months since the child support order was established, reviewed, or modified unless there ~~has been~~ is a material change of circumstances; ~~or~~
- (C) the preliminary information indicates the change of circumstances will not significantly impact the child support amount or the change of circumstances is temporary; ~~or~~
- (D) there is evidence the monthly child support amount or judgment payment is based on a noncustodial parent's (NCP) ability to pay and the NCP is working in a job consistent with his or her education and training.

(4) When CSS determines the customer review request does not meet the provisions in ~~paragraph~~ (1) of this subsection, CSS provides available pro se self-help modification forms to the customer.

(5) CSS does not seek an upward modification of a child support order or a judgment payment upon request when an NCP is:

- (A) employed full-time in an occupation consistent with his or her education and training;
- (B) ordered to pay more than 20 percent of his or her gross income; and
- (C) is not paying the full court-ordered monthly child support amount.

(e) **Medical enforcement only (MEO) cases.**

(1) When either the custodial person or the noncustodial parent requests a review, CSS changes the services

offered from an MEO to a full-service case. CSS notifies the parties of the change in services provided.

(2) When the non-applicant requests the review, the non-applicant must complete Form 03EN001E, Application for Child Support Services, per OAC 340:25-5-110.1.

(f) **Initial review.** Within 15-calendar days after receiving a request for a review, CSS determines if the criteria described in ~~paragraph (1) of subsection (d)~~(1) of this Section are met. CSS notifies the requesting person when the criteria for review are not met. If the criteria are met, CSS may:

- (1) request further information as necessary from the parties; or
- (2) proceed with the review process when CSS considers it has information sufficient to complete the process.

(g) **Final review.** Within 30-calendar days after the deadline for the parties to submit requested financial and other information to CSS, ~~under per (d)(1) of this Section,~~ CSS completes the review process and notifies parties of its determination as to whether the support order should be modified.

(h) **Modification after review.** CSS staff follows OAC 340:25-5-198.2 to determine if the child support order is modified after the review process is complete.

(i) **Termination of the review process.**

- (1) The person requesting a review may withdraw the request after the review process begins, upon CSS approval. CSS does not accept requests to withdraw the review after making a determination that the child support order be modified.
- (2) When the requesting person fails to supply information requested by CSS as instructed, CSS may terminate the review process, unless CSS or the non-requesting party requests the process continue.
- (3) When the review is initiated by CSS, failure of the parties to return requested information does not stop the review process. CSS proceeds, using the best information available.

(j) **Interstate cases.**

(1) When a tribunal other than an Oklahoma district or administrative court has jurisdiction under UIFSA to modify an order, CSS obtains the information necessary for the review.

(A) CSS transmits the documents to the Title IV-D agency in the other state within 20-calendar days after receipt of the request to modify the order and of the completed documents from the person requesting the modification.

(B) CSS issues and enforces a subpoena to compel compliance with the request for documents if the non-requesting party fails to return the required documents or CSS is unable to obtain the necessary information to proceed and an Oklahoma tribunal has personal jurisdiction over the non-requesting party.

(C) CSS may terminate the review process in an interstate case ~~as provided in subsection (g) per (i) of this Section and~~ 43 O.S. §§ 601-611 and ~~601-613~~ 601-616.

(2) When Oklahoma has jurisdiction to modify the order of another state, ~~Native American tribe, territory, or~~

Permanent Final Adoptions

foreign country as defined by 28 U.S.C. § 1738B(b) per 43 O.S. § 601-102, the order is registered in Oklahoma for modification per 28 U.S.C. § 1738B(i) and 43 O.S. §§ 601-609 through 601-616.

PART 23. ENFORCEMENT

340:25-5-200. Scope and applicability

(a) **Enforcement.** The Oklahoma Department of Human Services Child Support Services (~~OCSS~~)CSS follows Part D of Subchapter IV of Chapter 7 of Title 42 and Section 1738B of Title 28 of the United States Code (28 U.S.C. § 1738B), Section 303.6 of Title 45 of the Code of Federal Regulations (45 C.F.R. § 303.6), and Section 240.1 of Title 56 of the Oklahoma Statutes (56 O.S. § 240.1) in initiating enforcement proceedings.

(1) Orders for current and past child and spousal support, health care coverage, fixed amounts of medical support, judgments, and delinquencies may be enforced through expedited and judicial processes, or through other collection efforts.

(2) Past-due child support is a judgment by operation of law and may be enforced in the same manner as any other money judgment—per 43 O.S. § 137.

(3) Post-judgment remedies do not require an adjudicated judgment by a district or administrative court.

(4) Each missed support payment is a judgment; thus, a judgment increases with each missed payment. This total judgment becomes a lien on the real and personal property of the noncustodial parent (NCP).

(b) **Non-Oklahoma support order.** ~~OCSS~~CSS registers a support order from another state, Native American tribe, territory, or foreign country, as defined by subsection (b) of the Full Faith and Credit for Child Support Orders Act codified in Section 28 U.S.C. § 1738B(b) of Title 28 of the United States Code and Section 43 O.S. § 601-101102(21) of Title 43 of the Oklahoma Statutes when enforcement of the order is sought.

(c) **Multiple support orders.** When multiple child support orders have been entered in the same or different tribunals involving the same noncustodial parent NCP and child, ~~OCSS~~CSS seeks a determination of controlling order under Sections per 43 O.S. §§ 601-207, 601-307, and 601-601 through 601-603 of Title 43 of the Oklahoma Statutes and ~~OAC~~Oklahoma Administrative Code (OAC) 340:25-5-270.

(d) **Legal remedies.** ~~OCSS~~CSS determines appropriate enforcement actions and may use any legal remedy to enforce support obligations. ~~OCSS~~CSS chooses remedies that are designed to obtain compliance with an obligor's support obligations and does not use any remedy for the purpose of punishment. When an NCP is participating in the Court Liaison Program (CLP) or complying with a seek work order, CSS considers the NCP's participation and compliance per OAC 340:25-5-200.3 when choosing enforcement remedies. Remedies ~~OCSS~~CSS may use include, but are not limited to:

(2) does not file the interstate transmittal forms with the tribunal;

(3) does not release a copy of the interstate transmittal form to the other party per ~~OAC~~ Oklahoma Administrative Code (OAC) 340:25-5-67; and

(4) seeks an order from the appropriate tribunal regarding release of the information when the initiating state, responding state, or a party requests release of specific identifying information per ~~Section 601-312 of Title 43 of the Oklahoma Statutes~~ 43 O.S. § 601-312.

(fg) **Services provided.** Except as provided in paragraphs (1) through (4) of this subsection, OCSSCSS processes ~~interstate~~ intergovernmental cases in the same manner as intrastate cases. ~~OCSS processes intrastate cases,~~ per OAC 340:25-1-1.2.

(1) **Evidence.** If one of the parties is a nonresident of the forum state, OCSSCSS arranges for telephonic testimony at the request of the nonresident party or a Title IV-D agency, and requests the court to admit evidence per ~~Section 601-316 of Title 43 of the Oklahoma Statutes~~ 43 O.S. § 601-316.

(2) **One-state processing.** In the absence of an order to establish paternity or support, OCSSCSS uses a one-state process to establish an order if personal and subject matter jurisdiction may be exercised over a nonresident party per

~~Section 303.7 of Title 45 of the Code of Federal Regulations~~ 45 C.F.R. § 303.7 and ~~Section 601-201 of Title 43 of the Oklahoma Statutes~~ 43 O.S. § 601-201.

(3) **Determination of controlling order.** When there are multiple orders for current support for the same child, OCSSCSS seeks a determination of controlling order (DCO) or a new order from the appropriate tribunal per ~~Sections 601-207 and 601-602 through 601-615 of Title 43 of the Oklahoma Statutes~~ 43 O.S. § 601-207 and 43 O.S. §§ 601-602 through 601-616.

(A) When making the arrears calculation for the DCO proceeding, ~~OCSS-CSS~~ OCSSCSS applies the law of the respective issuing states in determining the arrears under each order.

(B) Once the court issues a DCO, OCSSCSS applies the law of the controlling order state to the consolidated arrears, even when the support orders of other states contributed a portion to those arrears.

(4) **Redirection of payments.** ~~In accordance with Sections 601-307 and 601-319 of Title 43 of the Oklahoma Statutes~~ Per 43 O.S. §§ 601-307 and 601-319:

(gh) **Determination of arrears.** When Oklahoma has personal and subject matter jurisdiction and can obtain service of process on the noncustodial parent, OCSSCSS uses the annual notice, notice of support debt, contempt, or other appropriate proceedings to determine past support and interest before requesting a tribunal of another state to enforce.

(hi) **Choice of law.** The applicable law for determination of duration of support and other choice of law issues is controlled by subsection (h) of the Full Faith and Credit for Child Support Orders Act, ~~codified in Section 1738B(h) of Title 28 of the United States Code~~ per 28 U.S.C. § 1738B(h) and Sections 601-604 and 601-611 of Title 43 of the Oklahoma Statutes 43 O.S. §§ 601-604 through 601-616. SUBCHAPTER 7. FINANCIAL ELIGIBILITY CRITERIA

PART 3. INCOME

340:50-7-29. Income inclusions

(a) **Sources of income considered.** The worker considers all household income, unless specifically excluded ~~at per~~ Section 273.9(c) of Title 7 of the Code of Federal Regulations (C.F.R.) (7 § C.F.R. 273.9(c)) and Oklahoma Administrative Code (OAC) 340:50-7-22, in determining monthly gross income. Income is classified as earned or unearned.

(1) When one or more household members are absent from the home, before deciding whether to consider the absent household member's income, the worker must determine if the person returns to the home for part of the month.

(A) Per OAC 340:50-5-2, the worker does not include the absent member in the benefit amount and only counts the portion of his or her income that he or she makes available to the rest of the household when the household member does not return for part of the month.

(B) When the household member returns for part of each month, the worker includes him or her in the benefit amount and counts all of his or her income unless excluded per OAC 340:50-7-22.

(2) Per OAC 340:50-5-5, the household has the option of including a child receiving a foster payment, that includes a payment for kinship care, in the food benefit. When the household chooses not to include the child

Permanent Final Adoptions

receiving a foster care payment in the food benefit, the worker does not count the child's income, including the foster payment.

(3) When the household adopts a child previously in the custody of the Oklahoma Department of Human Services (~~OKDHS~~) (DHS) and receives an adoption subsidy payment for the child, the worker includes the child in the food benefit and counts the child's income, including the adoption subsidy payment.

(4) When a member of the household becomes the guardian of a child and receives a guardianship payment from ~~OKDHS~~ DHS, the payment is considered as income. The child for whom the payment is received must be included in the food benefit.

(b) **Earned income.** ~~Earned~~ Per 7 § C.F.R. 273.9(b)(1), earned income is income a household receives in the form of wages, commission, self-employment, or training allowances, and for which a person puts forth physical labor. Temporary disability insurance payments and temporary ~~worker's~~ workers' compensation payments are considered earned income ~~if when~~ payments are employer funded and the person remains employed. The types of earnings listed in (1) through (4) of this subsection, including money from the sale of whole blood or blood plasma, are considered earned income.

(1) **Wages.** ~~The worker counts as earned income all wages~~ Wages and salaries for ~~services performed as an employee, including~~ include sick pay paid by the employer to an employee who plans to return to work when recovered, ~~excess benefit allowance payments. This includes~~ and wages garnisheed or diverted ~~and paid to pay~~ a third party for a household's expenses. Countable wages for military personnel include any allowance included on the earnings statement, such as the Basic Allowance for Housing (BAH) and the Basic Allowance for Subsistence (BAS).

(2) **Self-employment.** ~~The worker determines the household's total gross income from a self-employment enterprise per procedures described per~~ Refer to OAC 340:50-7-30 for self-employment income procedures.

(3) **Title I payments of the Domestic Volunteer Services Act.** Countable earned income includes payments paid to a household member under Title I of the Domestic Volunteer Services Act of 1973 as amended ~~per~~ Public Law (P.L.) 93-113, unless excluded per OAC 340:50-7-22.

(4) **On-the-job training (OJT).** The worker counts income earned in OJT positions as earned income. This includes OJT provided ~~under per~~ Section 204(b)(1)(e) ~~or Section 264(e)(1)(A)3(44)~~ of the Workforce ~~Investment~~ Innovation and Opportunity Act of 2014 for persons 19 years of age or older.

(c) **Unearned income.** In general, unearned income is ~~that~~ income ~~which~~ a household receives and is not in the form of wages, self-employment, or training allowances, and for which a person does not put forth physical labor. The income listed in (1) through (6) of this subsection, while not all inclusive, are considered unearned per 7 § C.F.R. 273.9(b)(2).

(1) **Assistance payments.** The worker counts payments from a federally aided public assistance program, such as Supplemental Security Income (SSI), Temporary Assistance for Needy Families (TANF), or assistance programs based on need, such as State Supplemental Payments, as unearned income.

(A) A household's food benefit amount does not increase when the benefit received from another program is reduced, suspended, or terminated because of a penalty imposed for an intentional failure to comply with a requirement of that program. The other program must be a means-tested, federal, state, or local welfare or public assistance program ~~which is~~ governed by welfare or public assistance laws or regulations ~~and which that~~ distributes public funds, such as SSI and TANF. OAC 340:10-2-2 explains the TANF penalty considered for Supplemental Nutrition Assistance Program (SNAP).

(i) When a worker is not able to obtain the necessary information and cooperation from another federal, state, or local means-tested welfare, or public assistance program to comply with the provision in (A) of this paragraph, ~~OKDHS~~ DHS is not held responsible. The worker must make a good faith effort to get the needed information and record the details and results of this effort in the case file.

(ii) The worker does not reduce, suspend, or terminate the household's current food benefit amount when the benefits under another assistance program are decreased.

(iii) When the worker adds eligible members to the food benefit, the benefit must be adjusted regardless of whether the household is prohibited from receiving benefits for the additional member under another federal, state, ~~or~~ local welfare, or public assistance means-tested program.

(iv) Changes in ~~the~~ household circumstances ~~which are~~ not related to the penalty imposed by another federal, state, ~~or~~ local welfare, or public means-tested assistance program are not affected by the provision in (A) of this paragraph.

(v) The application of the provision in (A) of this paragraph applies for the duration of the imposed penalty.

(B) The provision in (A) of this paragraph does not apply to persons or households subject to disqualification from SNAP for noncompliance with a comparable work requirement ~~under per~~ Title IV of the Social Security Act or an unemployment compensation work requirement.

(2) **Pension and Social Security.** Annuities, pensions, retirement, veterans' or disability benefits, workers' or unemployment compensation, survivors' or Social Security benefits, and strike benefits are unearned income. The worker considers disability payments as:

(A) unearned income when the person is no longer considered an employee of the company and an

agency outside of the company pays the disability benefits; and

(B) earned income when the person is still considered an employee of the company and the company pays the disability benefits.

(3) **Support and alimony.** The worker counts as ~~unearned income~~ support and alimony payments paid directly to the household from non-household members as unearned income. The worker also counts as ~~unearned income~~, money deducted or diverted to a third party to pay a household expense as unearned income when the court order directs the payment be made to the household. The worker does not count as ~~income~~ money the court order states must be paid to a third party as income.

(4) **Grants, dividends, royalty, and interest payments.** Payments from government sponsored programs, such as Agricultural Stabilization and Conservation Service Programs, grants, dividends, royalties, interest, and all other direct money payments from any source ~~which can be~~ construed to be a gain or profit are considered as income. The worker treats income from these sources as unearned income. The household must provide proof of income from these sources so income can be averaged to determine monthly countable income.

(5) **Monies ~~which are~~ withdrawn or dividends ~~which that~~ are or could be received by a household from trust funds.** Dividends ~~which~~ the household has the option of either receiving as income or reinvesting in the trust are considered as income in the month they become available to the household.

(6) **Department of Veteran's Affairs (VA) Aid and Attendance.** When a person receives VA Aid and Attendance income and does not pay someone outside of the food benefit household to care for him or her, this is countable income. Any portion of the VA Aid and Attendance paid to someone outside of the food benefit household for care is excluded.

(d) **Income of disqualified or ineligible household members.** OAC 340:50-5-10.1 ~~gives~~ provides a complete list of reasons for disqualification of household members. The worker counts the income of disqualified persons and unqualified aliens as indicated in ~~paragraphs~~ (1) and (2) of this subsection.

(1) **Income of a person disqualified for failure to comply with food benefit Employment and Training (E&T) Program requirements, a fleeing felon disqualification, or willful misrepresentation or fraud.** All income of a person disqualified for failure to comply with food benefit E&T Program requirements, a fleeing felon disqualification, or willful misrepresentation or fraud, is counted in ~~its~~ its entirety as available to the remaining household members per 7 § C.F.R. 273.11(c)(1)(i). The worker does not prorate utility, medical, dependent care, and excess shelter deductions.

(2) **Income of persons disqualified for reasons other than willful misrepresentation, a fleeing felon disqualification, or failure to comply with E&T Program requirements.** The worker prorates the income of

persons disqualified for reasons other than those stated in ~~paragraph~~ (1) of this subsection among all household members per 7 § C.F.R. 273.11(c)(2)(ii).

(A) A pro rata share of the income of a disqualified person is considered as ~~income~~ available to the remaining members. The worker calculates the pro rata share by first subtracting the allowable exclusions from the disqualified member's income and dividing the income evenly among the household members, including the disqualified member.

(B) The worker counts all but the disqualified member's share as income available to the remaining household members. The earned income deduction, ~~from OKDHS~~ per OAC 340:50-7-31 and DHS Appendix C-3, Maximum Food Benefit Allotments and Standards for Income and Deductions, applies to the prorated income attributed to the household ~~if~~ when it was earned by the disqualified member.

(C) The portion of the household's allowable shelter and dependent care expenses ~~that are either~~ paid by or billed to the disqualified member is divided evenly among the household members, including the disqualified member. ~~When the household is using the utility standard, it is evenly prorated.~~ All but the disqualified member's share is considered as a deductible shelter expense for the remaining household members, ~~with the exception of utility expenses per 7 § C.F.R. 273.9(d)(6)(iii)(F).~~ When the household is responsible for utility expenses, the household is allowed the full utility standard for which it qualifies per OAC 340:50-7-31.

(3) **Determining eligibility and benefit level.** The worker does not consider the needs of a disqualified or ineligible household member when determining the household's size for purposes of assigning a benefit level to the household or comparing the household's monthly income with the income eligibility standard per 7 § C.F.R. 273.11(c)(2)(iv).

340:50-7-31. Deductions

(a) **Deductible expenses.** ~~Deductible~~ Households are allowed certain deductible expenses from income include only certain costs of dependent care, shelter, the earned income allowance, a standard deduction, certain medical costs for elderly or disabled household members, and legally binding child support payments as described in OAC 340:50-7-

(1) ~~The portion of the household's allowable shelter, utility, and dependent care expenses, paid by or billed to a disqualified household member, per OAC 340:50-7-29(c)(2), is divided evenly among the household members, including the disqualified member. All except the disqualified member's share is considered a deductible shelter expense for the remaining household members.~~

(2) ~~Business expenses for the self-employed are handled per OAC 340:50-7-30.~~

Permanent Final Adoptions

~~(b) Deductions from income are allowed for the expenses listed in paragraphs as described in (1) through (6) of this subsection and per 273.9(d) of Title 7 of the Code of Federal Regulations. The household reports current medical, dependent care, legally-binding child support, and shelter expenses at certification, mid-certification renewal, and certification renewal. The household must also report current shelter costs when the household moves.~~

~~(1) **Standard deduction.** The appropriate~~All households are allowed a standard deduction as shown in per Oklahoma Department of Human Services (OKDHS) (DHS) Appendix C-3, Maximum Food Benefits Allotments and Standards for Income and Deductions, ~~is deducted from the household's income.~~

No other deduction is allowed from the gross earned income. Refer to Oklahoma Administrative Code (OAC) 340:50-7-30 for information regarding business expenses for self-employed persons.~~

~~(3) **Medical expense deduction.** A medical expense deduction is only allowed for household members meeting the definition of elderly or disabled per OAC 340:50-5-4. Medical~~For these household members, medical expenses exceeding \$35 per month incurred by elderly or disabled household members, per OAC 340:50-5-4, are deductible when verified. The \$35 is subtracted from medical expenses once per household even though, not per person, when the household has more than one elderly or disabled member. ~~When the household does not know the amount of on going medical expenses anticipated monthly during the certification period, the anticipated expense amount is determined by averaging at least the past two month's expenses.~~

~~(I) uses his or her own vehicle, the state's current mileage reimbursement is allowed;~~

~~(II) uses public transportation, the actual cost of the transportation is allowed; or~~

~~(III) pays a non-household member for transportation, the amount charged by the person is allowed;~~

~~(ix) maintaining an attendant, homemaker, home-health aide, child care services, or housekeeper due to age, infirmity, or illness. When this expense also qualifies as a dependent care expense per (4) of this subsection, it is considered a medical expense rather than a dependent care expense. Additionally, when the household furnishes a majority of the caretaker's meals, an amount equal to one allotment is added to the medical expense for meals provided. The allotment used is the amount in effect at certification.~~

~~(B) **Medical expenses not allowed.** Expenses not allowed include:~~

~~(i) costs associated with special diets;~~

~~(ii) premiums for health and accident insurance policies, such as those payable in lump sum settlements for death or dismemberment;~~

When the change requires household contact for additional information or verification, ~~the worker does not make the change~~is not made.

~~(B)iv~~ If ~~When~~ a household ~~report~~reports but does not verify an anticipated medical expense ~~at the time of certification, but is unable to provide the verification at that time, the worker informs the household is told~~ the expense will be allowed when the household provides verification is provided during the certification period. Upon verification, a household may elect a ~~one time medical deduction or to average the expense over the remaining months of the certification period or to have the expense deducted for the next effective month only~~. Allowable costs are:

- ~~(i) medical and dental care, including psychotherapy and rehabilitation services provided by a licensed practitioner or other qualified health professional authorized by state law;~~

Additionally, if the household furnishes a majority of the caretaker's meals, an amount equal to one allotment is added to the medical expense for meals provided. The allotment used is the amount in effect at certification.~~

~~(C) Costs not allowable as medical expense deductions include:~~

(5) **Legally-binding child support.** A deduction is allowed for verified legally-binding child support payments paid by a household member to or for a non-household member, including payments made to a third party on behalf of the non-household member.

Permanent Final Adoptions

(6) **Shelter costs.** A household is allowed a shelter deduction when the monthly shelter cost exceeds 50% percent of the household's income after all other deductions are allowed. The shelter deduction cannot exceed the maximum amount as shown in ~~OKDHS~~ allowed per DHS Appendix C-3, unless the household ~~has~~ includes an elderly or disabled member. Households with an elderly or disabled member receive an excess shelter deduction for the monthly cost exceeding 50% percent of the household's income after the deductions listed in paragraphs (1) through (6) of this subsection are allowed. ~~All homeless households who incur or expect to incur a shelter cost during the month are entitled to use the estimated homeless shelter deduction to determine food benefit eligibility and benefit level. This estimate covers shelter costs as described in this paragraph. If a homeless household is living in a vehicle for which they are making payments, the monthly payment is allowed as a shelter cost. If the household's actual verified shelter cost exceeds the estimated amount, the larger amount is used. Shelter costs only include:~~ When the household includes a non-household member or disqualified member, refer to (b)(4) and (5) of this Section to determine whether to prorate shelter costs.

A household incurring an allowable utility expense receives the total amount of the applicable utility standard specified in ~~OKDHS~~ per DHS Appendix C-3 for one of the mandatory utility standards in (i) through (iii) of this subparagraph.

(i) The standard utility allowance (SUA) is a single standard based on annual averages that include costs for heating or cooling; and cooking fuel, electricity, basic telephone service, water, sewage, and garbage.

- (2) ~~Amounts carried forward from past billing periods are not deductible even if included in the most recent billing and actually paid by the household.~~
- (3) ~~A particular expense may be deducted only once.~~

(f3) **Reimbursed expenses.** The portion of an expense paid by an excluded reimbursement or vendor payment is not deductible. The amount left after deducting the excluded payment is deductible and includes HUD and FmHA rent and utility payments. Expenses are only deductible ~~if~~when the service is provided by someone outside of the household and the household makes a monetary payment for the service.

(4) **When the household includes a disqualified household member.** When the household includes a disqualified household member per OAC 340:50-5-10.1,

expense calculation depends on the disqualification reason.

(A) **Disqualification for failure to comply with food benefit Employment and Training (E&T) Program requirements, a fleeing felon disqualification, or willful misrepresentation or fraud.** When the household member is disqualified because of failure to comply with food benefit E&T Program requirements, a fleeing felon disqualification, or willful misrepresentation or fraud, the remaining household members are eligible for all allowable income deductions. The worker does not prorate allowable deductions because the disqualified member's income is counted in its entirety per OAC 340:50-7-29(d).

(B) **Disqualification for other reasons.** When the household member is disqualified for a reason other than those included in (A) of this paragraph, the worker prorates the allowable deductions evenly between the household members, including the disqualified member. The remaining household members are not eligible for the disqualified member's portion of the expenses, except for utility expenses because the disqualified member's income is also prorated per OAC 340:50-7-29(d). When the household is responsible for utility expenses, the household is allowed the full utility standard deduction for which it qualifies per Oklahoma Administrative Code 340:50-7-31(a)(6)(C).

(5) **When the household includes a non-household member.** When the household shares deductible expenses with a non-household member, the worker only deducts the amount the household actually pays or contributes toward household expenses with the exception of the utility expenses. When the household pays part of the utility expenses, the household is allowed the full utility standard deduction for which it qualifies per OAC 340:50-7-31(a)(6)(C). When the payments or contributions cannot be differentiated, the worker prorates the expenses evenly among persons actually paying or contributing to the expense and deducts only the household's pro rata share with the exception of the utility expenses.

SUBCHAPTER 9. ELIGIBILITY AND BENEFIT DETERMINATION PROCEDURES

340:50-9-5. Changes after application and during the certification period

(a) **Change reporting requirements.** Section 273.12 of Title 7 of the Code of Federal Regulations (7 § C.F.R. 273.12) contains change reporting requirements after application and during the certification period described in (a) through (i) of this Section.

(b) **Applicant households.** Applicant households must report all changes related to their food benefit eligibility and

Permanent Final Adoptions

benefit amount. Households must report changes that occur after the interview but before the date of the notice of eligibility, within 10-calendar days of the date of the notice.

(c) **Annual reporting households.** Annual reporting households are households in which all adult members are elderly or disabled with no earned income.

(1) **Certification period.** A 24-month certification period is automatically assigned to annual reporting households. Annual reporting households must complete a mid-certification renewal between certification periods to report current household circumstances.

(2) **Change reporting between renewal periods.** Between the mid-certification renewal and certification renewal reporting months, the household must report gross income changes when the household's income exceeds the maximum gross income scale for household size shown on Form 08MP006E, Information for Benefit Renewal, within 10-calendar days of the change occurring. The maximum gross income scale is based on 130 percent of the monthly poverty income guidelines.

(3) **Action taken on reported changes.** The worker must act on all changes reported by households.

(A) The computer system determines if the change results in an increase, decrease, or no change in benefits.

(B) Between the mid-certification renewal and certification renewal months, the changes the worker makes do not decrease or close benefits until the mid-certification renewal is due unless the:

(i) household's income increase exceeds the maximum gross income scale for household size shown on Form 08MP006E;

(ii) household requested benefit closure; or

(iii) worker has information about the household's circumstances considered verified upon receipt per (h) of this Section.

(C) The computer system applies all changes that increase benefits.

(d) **Mid-certification renewal for annual reporting households.** Annual reporting households are sent notification in the 11th month of certification that the mid-certification renewal is due. The notice explains methods the household may choose to complete the renewal and required verification needed. An interview is not required.

(1) **When the mid-certification renewal is due.** The household must complete the benefit renewal and provide required verification by the last day of the 12th month of certification.

(2) **Completion of mid-certification renewal.** The worker reviews benefit renewal information and verification provided to determine completeness and continued eligibility.

(A) When the renewal is complete and the household remains eligible, the worker acts on all reported changes and the computer system applies any increase or decrease in benefits.

(i) When the household fails to provide sufficient information regarding a deductible expense

requiring verification, the worker processes the mid-certification renewal without regard to the deduction.

(ii) When benefits are decreased, an advance notice is sent per Appendix B-2, Deadlines for Case Actions.

(B) When the household is no longer eligible, the worker closes food benefits effective the next advance-notice deadline date per Appendix B-2.

(C) When the renewal is incomplete, the computer system closes food benefits effective the next advance-notice deadline date per Appendix B-2.

(3) **When benefits may be reopened.** Food benefits may be reopened following closure when criteria is met per (i) of this Section.

(e) **Semi-annual reporting households.** Food benefit households are considered semi-annual reporting households unless they meet criteria per (c) or (g) of this Section.

(1) **Certification period.** A 12-month certification period is automatically assigned to semi-annual reporting households.

(2) **Change reporting between renewal periods.** Between the mid-certification renewal and certification renewal reporting months, the household must report within 10-calendar days of the change occurring when:

(A) the household's gross income exceeds the maximum gross income scale for household size shown on Form 08MP006E. The maximum gross income scale is based on 130 percent of the monthly poverty income guidelines; and

(B) a decrease in work hours below an average of 20 hours per week or 80 hours per month occurs for any household member meeting the able-bodied adults without dependents (ABAWD) work rules per Oklahoma Administrative Code (OAC) 340:50-5-64.

(3) **Action taken on reported changes.** The worker must act on all changes reported by households.

(A) The computer system determines if the change results in an increase, decrease, or in no change in benefits.

(B) Between mid-certification renewal and certification renewal months, the changes the worker makes do not decrease or close food benefits until the mid-certification renewal is due unless the:

(i) the household's income increase exceeds the maximum gross income scale for household size shown on Form 08MP006E;

(ii) household requested benefit closure;

(iii) worker has information about the household's circumstances considered verified upon receipt per (h) of this Section; or

(iv) an ABAWD must be removed from the food benefit household because he or she does not meet the ABAWD work rule per OAC 340:50-5-64.

(C) The computer system applies all changes that increase benefits.

(f) **Mid-certification renewal for semi-annual reporting households.** Semi-annual reporting households are sent notification in the fifth month of certification that the mid-certification renewal is due. An interview is not required.

(1) **When the mid-certification renewal is due.** The household must complete the benefit renewal and provide required verification by the last day of the sixth month of certification.

(2) **Completion of mid-certification renewal.** The worker reviews benefit renewal information and verification provided to determine completeness and continued eligibility.

(A) When the renewal is complete and the household remains eligible, the worker acts on all reported changes and the computer system applies any increase or decrease in benefits.

(i) When the household fails to provide sufficient information regarding a deductible expense requiring verification, the worker processes the mid-certification renewal without regard to the deduction.

(ii) When benefits are decreased, the worker sends an advance notice per Appendix B-2. Deadlines for Case Actions, deadline dates.

(B) When the household is no longer eligible, the worker closes food benefits effective the next advance-notice deadline date per Appendix B-2.

(C) When the renewal is incomplete, the computer system closes food benefits effective the next advance-notice deadline date per Appendix B-2.

(3) **When benefits may be reopened.** Food benefits may be reopened following closure when criteria is met per (i) of this Section.

(bg) **Certified households/Change reporting households.** Those Change reporting households are assigned a certification period other than 12 or 24 months. These households are required to report changes within 10-calendar days of the change occurring.

(1) **Household characteristics.** Households not approved for a 12- or 24-month certification period include households approved for:

(A) expedited services for one or two months because the interview and/or verification was postponed per OAC 340:50-3-2; and

(B) a three or four month certification period because the household includes one or more ABAWDs that do not meet the work rule per OAC 340:50-5-64.

(2) **Required change reporting.** These households must report changes in:

- (1A) sources of income;
- (2B) unearned income of \$50 per month or more;
- (3C) earned income of more than \$100 per month;
- (4D) household composition, such as an addition or loss of a household member;
- (5E) residence and resulting changes in shelter costs; and
- (6F) the legal obligation to pay child support.

(e3) **Change affecting food benefit/Action taken on case changes.** If a reported change affects the household's eligibility or food benefit amount, the household is notified of the adjustment to be made and the effective date. The worker must act on changes reported by the household within 10-calendar days from the date the household reported the change is reported to take the necessary action and provided necessary verification.

(4A) If when the household fails to report a change within the 10-calendar day period and, as a result, receives benefits to which it is not entitled, an overpayment claim is referred to the Adult and Family Services (AFS) Benefit Integrity and Recovery Section per OAC 340:50-15.

(2B) If when the worker fails to take timely action on a reported change within the prescribed time limits and benefits are lost, they are restored to the household worker supplements the household's food benefits.

(d4) **Changes that increase benefits.** Changes resulting in a benefit increase must be verified. When the household reports a change that increases benefits the household must verify the information before the worker makes the change. The worker gives the household is allowed 10-calendar days to verify the information.

(e5) **Changes that decrease or close benefits.** Food benefits are closed; never suspended, if when a change in household circumstances causes a household to be ineligible for food benefits.

(A) When a household's benefit decreases or closes, an advance notice is required unless exempt from such a notice for a reason listed in (1) and (2) (i) or (ii) of this subsection. When an advance notice is required, the decrease or termination of the benefit is effective no later than the month following the month in which the advance notice period expired. When the change is reported less than 10 calendar days before the advance notice deadline, the action must be taken before advance notice deadline the following month. The household retains its right to a fair hearing and continuation of benefits when a fair hearing is requested within 10-calendar days of the change notice. Advance notice is not required when the:

(4i) Oklahoma Department of Human Services (OKDHS) DHS receives a clear written statement signed by a responsible household member:

- (I) stating he or she the household no longer wishes to receive food benefits; or
- (II) gives giving information that requires closure or reduction of food benefits and stating that he or she understands the food benefit will be reduced or closed. The household retains its right to a fair hearing and continuation of benefits if a fair hearing is requested within 10 calendar days of the change notice; and/or

Permanent Final Adoptions

(2j) ~~reduction or closure of the worker closes or reduces food benefits is based on situations listed in (k) per (i) of this Section.~~

(B) When an advance notice is required, the benefit decrease or closure is effective the next advance notice deadline date per Appendix B-2. When the household reports a change:

(i) 10-calendar days or more before the advance-notice deadline per Appendix B-2, the worker decreases or closes the food benefit effective the first of the following month; or

(ii) less than 10-calendar days before the advance-notice deadline per Appendix B-2, the worker must take action before the advance-notice deadline the following month.

(C) When a reported change increases food benefits, the worker makes the change by the non-advance-notice deadline date per Appendix B-2.

(h) **Changes considered verified upon receipt.** Verified upon receipt means the information is not questionable and the provider is the primary source of the information. For example, when DHS receives Social Security and Supplemental Security Income verification through data exchange with the Social Security Administration (SSA), it is considered verified upon receipt because SSA is the primary source. When the worker receives information considered verified upon receipt, he or she makes the change within 10-calendar days of notification using Appendix B-2 deadline dates.

(i) **When benefits may be reopened following closure.** The food benefit may be reopened following closure using current eligibility information when:

(1) ~~OKDHS~~DHS did not administer policy and procedures correctly. The food benefit is reopened ~~back to effective~~ the first day of the month of closure;

(2) the household fails to complete the mid-certification renewal timely, but provides all required verification by the first day of the month of closure. The food benefit is reopened ~~back to effective~~ the first day of the month of closure; or

(3) the household fails to complete the mid-certification renewal ~~by the last day of the month of closure~~ timely, but provides all required verification by the last day of the month of closure. The food benefit is reopened and prorated from the date the mid-certification renewal is completed.

(g) **Annual reporting households.** Food benefit households with all adult members elderly or disabled with no earned income are known as annual reporters. A 24 month certification period is automatically assigned. These households are only required to report changes that result in their gross monthly income exceeding 130 percent of the monthly poverty income guidelines for their household size unless it is the mid certification renewal or certification renewal month. The worker must act on any changes reported by households that increase or decrease their benefits. The system determines if the change results in an increase or decrease in benefits. ~~Between mid certification renewal or certification renewal months, a decrease in benefits does not occur unless the:~~

~~(1) household requested benefit closure; or~~

~~(2) worker has information about the household's circumstances considered verified upon receipt.~~

(h) **Mid certification renewal for annual reporting households.** Annual reporting households are sent notification in the 11th month of certification that the mid certification renewal is due. An interview is not required. In order to continue to receive benefits, the household must complete the benefit renewal. This includes providing all required verification by the last day of the 12th month of certification. The worker reviews information to determine whether changes are needed.

~~(1) The worker must act on changes reported at mid certification renewal.~~

~~(2) When the reported changes result in a decrease or closure of benefits, an advance notice must be sent to the household.~~

~~(3) If the household fails to provide sufficient information regarding a deductible expense requiring verification, the worker processes the mid certification renewal without regard to the deduction.~~

(i) **Semi-annual reporting households.** All food benefit households, except those considered annual reporters or certain households containing one or more able bodied adults without dependents (ABAWD), are assigned a 12 month certification period.

~~(1) Between the mid certification renewal or certification renewal months, households are only required to report changes that result in their gross monthly income exceeding 130 percent of the monthly poverty income guidelines for their household size unless their household contains an ABAWD meeting the work rule per OAC 340:50-5-64(a). Households with an ABAWD meeting the work rule at certification must report if the hours decrease below an average of 20 per week or 80 per month.~~

~~(2) The worker must act on any changes reported by households that increase or decrease their benefits. The system determines if the change results in increase or decrease in benefits.~~

~~(3) Between mid certification renewal or certification renewal months, a decrease in benefits does not occur unless the:~~

~~(A) household requested benefit closure; or~~

~~(B) worker has information about the household's circumstances considered verified upon receipt.~~

(j) **Mid certification renewal for semi-annual reporting households.** Semi annual reporting households are sent notification in the fifth month of certification that the mid certification renewal is due. An interview is not required. In order to continue receiving benefits, the household must complete the mid certification renewal that includes providing all required verification, by the last day of the sixth month of certification. The worker reviews information provided to determine whether changes are needed.

~~(1) The worker must act on changes reported at mid certification renewal.~~

(2) If the reported changes result in a decrease or closure of benefits, an advance notice must be sent to the household.

(3) If the household fails to provide sufficient information regarding a deductible expense, the worker processes the mid-certification renewal without regard to the deduction.

(k) **Advance notice of adverse action not required.** Advance notice of adverse action is not required when for actions (1) through (8) of this subsection per 7 § C.F.R. 273.12(e) and 7 § C.F.R. 273.13(b).

(1) **Mass changes.** When DHS initiates mass changes are initiated because of changes or requirements in federal or state law, the computer system closes benefits by the non-advance-notice deadline per Appendix B-2. In these situations, the individual notification requirement is waived and AFS mails generic notices to the affected households informing them of the changes that are about to be made.

(2) **Deceased household members.** When the worker determines, based on reliable information, that all members of the household are deceased, the worker closes benefits by the non-advance-notice deadline per Appendix B-2.

(3) **Moved out of state.** When the worker determines, based on reliable information, the household has moved out of state, the worker closes benefits by the non-advance-notice deadline per Appendix B-2.

(4) the household is previously notified in writing when restoration of lost benefits is completed and the household's food benefit is reduced due to completion of restoration of lost benefits;

(5) **Unfinished issuance certification.** When the household benefit amount varies from month to month within the unfinished issuance process is used at certification, period the worker adjusts the benefit to take into account changes that were anticipated at the time of certification, and the household was so notified at the time of The certification notice informs the household of all benefit changes included in this process.

(6) **Disqualified household member.** When a person is the only household member is disqualified for willful misrepresentation an intentional program violation or fraud per OAC 340:50-15-25, food benefits are closed by the non-advance-notice deadline per Appendix B-2. When there is more than one person in the household, the benefits of the remaining household members are reduced or terminated to reflect closed because of the disqualification of that household member by the non-advance-notice deadline per Appendix B-2.

(7) the household fails to make agreed upon cash or food benefit repayment of an overpayment;

Refer to OAC 340:2-5 for fair hearing procedures.

SUBCHAPTER 11. SPECIAL PROCEDURES

PART 1. HOUSEHOLDS ENTITLED TO EXPEDITED SERVICE

340:50-11-1. Criteria

These criteria apply to all households making an initial application or reapplication for food benefits, including residents of approved drug and alcohol treatment centers and group homes. Households Per 273.2(i) of Title 7 of the Code of Federal Regulations, households entitled to expedited services include households:

SUBCHAPTER 15. OVERPAYMENTS AND FRAUD

PART 1. OVERPAYMENTS

340:50-15-1. Scope and applicability

(a) **Scope and applicability.** The scope and applicability of overpayment procedures contained in this Subchapter apply to recipients of Supplemental Nutrition Assistance Program (SNAP) food benefits. Section 273.16 of Title 7 of the Code of Federal Regulations (7 § C.F.R. 273.16) contains federal requirements regarding disqualification for intentional program

Permanent Final Adoptions

violations and 7 § C.F.R. 273.18 contains federal requirements regarding overpayment claims against households.

(b) Overpayment claim definition. ~~An overissuance or A Supplemental Nutrition Assistance Program (SNAP) food benefit overpayment of food benefits~~ occurs when a household receives more food benefits than it is entitled to receive or when benefits are trafficked.

(c) Persons responsible for repaying an established overpayment claim. Refer to Oklahoma Administrative Code (OAC) 340:50-15-6 for repayment procedures. Persons responsible for repaying an established overpayment claim include:

(1) every adult included in the food benefit allotment when the overpayment or benefit trafficking occurred; and

(2) a person connected to the household, such as an authorized representative or other individual, when the person trafficked benefits or caused the overpayment.

(d) Overpayment referral. ~~When the worker determines a household may have received more food benefits than it is entitled to receive an overpayment occurred,~~ the worker documents the circumstances leading to the overpayment and computes the amount of the overpayments sends an overpayment referral to Adult and Family Services (AFS) Benefit Integrity and Recovery (BIR) for overpayment classification and establishment. The overpayment referral consists of a completed Form 08OP005E, Report of Food Benefit (FB) Overissuance, and supporting documents.

~~(1) Instances which may result in establishment of~~ Reasons to submit an overpayment claim referral to AFS BIR include, but are not limited to, when:

~~(A1)~~ the household:

~~(iA) failing~~ failed to provide the Oklahoma Department of Human Services with correct or complete information;

~~(iiB) failing~~ failed to report changes in household circumstances per OAC 340:50-9-5;

~~(iiiC) electing~~ chose to continue to receive benefits pending a fair hearing decision which ~~subsequently found~~ and the fair hearing decision finds the household ineligible or eligible for fewer benefits; or

~~(ivD) trafficking~~ trafficked SNAP food benefits per OAC 340:50-15-25;

~~(B2)~~ the worker:

~~(iA) assigning~~ incorrectly computed the household's income or deductions or otherwise issued an incorrect benefit allotment;

~~(iiB) failing~~ failed to take prompt action on a change reported by the household resulting in an over-issuance;

~~(iiiC) incorrectly computing the household's income, deductions, or both applied policy or procedures that resulted in an over-issuance or issuing benefits to an ineligible household; or~~

~~(ivD) incorrectly authorizing issuance~~ issued or renewed food benefits to a-an ineligible household; or

~~(E) failed to reduce food benefits because the household's public assistance benefits changed;~~

~~(3) the computer system incorrectly issued benefits to a household;~~

~~(C4) any overissuance discovered as a result of an Office of Inspector General (OIG) Administrative Review Unit AFS SNAP Quality Control staff discovered the over-issuance during a quality control review; or~~

~~(5) the OIG Investigative Unit discovered an over-issuance.~~

~~(2) Persons responsible for paying a claim are:~~

~~(A) each person who was an adult member of the household when the overpayment or trafficking benefits occurred and which resulted in an established overpayment claim; or~~

~~(B) a person connected to the household, such as an authorized representative, who actually trafficks or otherwise causes an overpayment or trafficking.~~

~~(3e) Overpayment classification and claim establishment.~~

~~The Family Support Services Division (FSSD) Benefit Integrity and Recovery Section Per OAC 340:50-15-4, AFS BIR staff classifies overpayments an overpayment as an inadvertent household error, intentional program violation also known as or fraud, or agency error and establishes the overpayment claim per procedures in OAC 340:50-15-3. All food benefit overpayment claims are considered as inadvertent household error or agency error until Form 08OP016E, Administrative Disqualification Hearing Waiver, is signed or a court of law finds a household guilty of fraud. Refer to OAC 340:50-15-2 for instances when an overpayment claim is not required.~~

~~(4) The worker and supervisor calculate all overpayment claims and establish any overpayments under \$500 due to inadvertent household error and all agency error overpayments, regardless of the amount. Once an overpayment is established, notices sent to the client include:~~

~~(A) the Notification of Food Benefit Overpayment notice;~~

~~(B) page 1 of Form 08OP005E, Report of Food Benefit Overissuance; and~~

~~(C) Form 08OP118E, Food Benefit Repayment Agreement.~~

~~(5) When the overpayment is \$500 or more and due to inadvertent client error, it is sent to the FSSD Benefit Integrity and Recovery Section. FSSD Benefit Integrity and Recovery Section staff either establishes the overpayment claim and notifies the household of the overpayment with appropriate notices or refers the case to OIG for a possible judicial determination.~~

~~(A) When the case is transferred to OIG, the overpayment claim is not established and notices are not sent to clients until after OIG completes its determination.~~

~~(B) After OIG acquires a judicial determination and the claim is either determined to be an intentional program violation or fraud or remains an inadvertent household error, the claim is released back to the FSSD Benefit Integrity and Recovery Section to establish the overpayment claim.~~

(C) After the overpayment claim is established, the client is sent Form 08OP009E, page 1 of Form 08OP005E, and Form 08OP118E.

(6) Food benefit overpayment claims classified as inadvertent household error or agency error do not cover more than 12 months prior to the month in which the overpayment was discovered. Food benefit overpayments classified as fraud or intentional program violation may cover the entire time the overpayment occurred. However, the time covered cannot include periods more than six years prior to the date the overpayment was discovered.

(7) Food benefit overpayments arising from trafficking-related offenses are the value of the trafficked benefits as determined by the person's admission, adjudication, or documentation that forms the basis for the trafficking determination. OIG refers these cases directly to the FSSD Benefit Integrity and Recovery Section for establishment of the claim and/or disqualification.

(f) **Development of repayment plan.** After AFS BIR staff verifies and calculates the overpayment claim, he or she establishes the claim by notifying the household of the overpayment debt. Once established, AFS BIR staff develops a repayment plan with the household per procedures in OAC 340:50-15-6.

(g) **Disqualification penalty.** When a person commits an intentional program violation or fraud, the person is disqualified from receiving food benefits for a period of time per OAC 340:50-15-25, in addition to being responsible for repaying the overpayment debt.

340:50-15-3. Overpayment claim procedures

(a) **Overpayment determination.** Overpayments are calculated by Adult and Family Services (AFS) local county office or support center staff and are referred to AFS Benefit Integrity and Recovery (BIR) for final determination.

(1) ~~The~~When the household failed to report earned income in a timely manner per Oklahoma Administrative Code (OAC) 340:50-9-5, the worker does not subtract an earned income deduction is not allowed in determining from gross earnings when calculating the overpayment amount when a recipient fails to report earned income in a timely manner.

(b2) ~~When the worker believes a household received an overissuance of food benefits, the worker~~AFS local county office or support center staff documents the circumstances causing the overpayment and calculates the overpayment claim calculations used to determine the over-issuance amount on Form 08OP005E, Report of Food Benefit (FB) Overissuance, and sends Form 08OP005E and supporting documentation to AFS BIR staff for claim establishment. The food benefit claim is considered established when the overpayment notice is dated and mailed to the client.

(3) When Office of Inspector General (OIG) staff determines the overpayment occurred because of a trafficking-related offense, he or she bases the overpayment amount on the value of the trafficked benefits. Per Section 273.18(c) of Title 7 of the Code of Federal Regulations, the value of the trafficked benefits is determined by:

(A) the household member or authorized representative's admission;

(B) adjudication; or

(C) OIG's documentation that formed the basis for the trafficking determination.

(b) **Overpayment claim establishment.** AFS BIR staff is responsible for evaluating overpayment referrals, establishing overpayment claims, and referring overpayment claims to OIG when fraudulent intent is suspected. An overpayment claim is considered established on the date AFS BIR staff sends the overpayment notice to the household.

(1) When fraudulent intent is not suspected, AFS BIR staff:

(A) establishes the overpayment claim and classifies it as an inadvertent household or agency error per OAC 340:50-15-4;

(B) notifies the household and worker per (d) and (e) of this Section; and

(C) sets up a repayment plan with the household per OAC 340:50-15-6.

(2) When fraudulent intent is suspected, AFS BIR staff sends the overpayment referral to OIG to determine whether fraudulent intent occurred. The overpayment claim is not established and notices are not sent until OIG completes its investigation and releases the claim back to AFS BIR. Refer to OAC 340:50-15-25 for procedures when overpayments are referred for an intentional program violation determination.

(c) **Claim establishment time frame.** The amount of time included in an overpayment claim varies.

(1) When AFS BIR classifies an overpayment as an inadvertent household error or agency error, the established overpayment claim does not cover more than 12 months prior to the month in which the overpayment was discovered.

(2) When an intentional program violation is determined, the established overpayment time frame may cover up to six years prior to the date the overpayment was discovered.

(ed) **Household notification.** ~~The worker and supervisor establish overpayment claims classified as inadvertent household error and less than \$500, and all agency error claims regardless of the amount. Notices sent to~~AFS BIR staff sends the client include household:

(1) the Notification of Food Benefit Overpayment notice;

(2) page 1 of Form 08OP005E, ~~Report of Food Benefit Overissuance~~ showing the overpayment over-issuance amount; and

(3) Form 08OP118E, Food Benefit Repayment Agreement.

(de) **County office notification.** ~~Calculated overpayments that are \$500 and over that are not due to agency error are not established until reviewed by staff in the Family Support Services Division (FSSD) Benefit Integrity and Recovery Section staff. In most instances after calculation, FSSD staff sends these overpayments to the Office of the Inspector General (OIG) to determine fraudulent intent prior to establishing the~~

~~overpayment.~~ After claim establishment, AFS BIR staff sends the county office:

- (1) a copy of the Notification of Food Benefit Overpayment notice sent to the client;
- (2) the completed Form 08OP005E; and

(a) **Visitation is a right.** The child and parent have a right to regular visitation when the child is in Oklahoma Department of Human Services (~~OKDHS~~) (DHS) custody and in an out-of-home placement.

(1) A court may not deny visitation based solely on the failure of a parent to prove that the parent has not used legal or illegal substances or complied with an aspect of the court-ordered individualized service plan per Section 1-4-707 of Title 10A of the Oklahoma Statutes (10A O.S. § 1-4-707).

(2) When the court determines reunification services are appropriate for the child and parent, the court allows reasonable visitation with the parent or legal guardian from whose custody the child was removed, unless visitation is not in the best interests of the child, taking into consideration the child's:

- (A) physical safety;
- (B) need for protection from traumatizing contact with the parent or sibling or contact that could endanger the child's life; and
- (C) expressed wishes.

- (E) court orders a different visitation frequency; or
- (F) the permanency plan is not reunification.

(c) **Child's mail and phone contacts.** Per 10A O.S. § 1-7-105, a child has constant access to writing materials and may send mail without limitation, censorship, or prior reading, and may receive mail without prior reading, except that mail may be opened in the presence of the child, without being read, to inspect for contraband or ~~if~~ when authorized by the court for the child's protection ~~of the child~~.

Per 10A O.S. § 1-4-101, the written consent of the judge presiding over the deprived case must be obtained and filed in the Title 30 guardianship case prior to the guardian being appointed for the child. PART 7. FAMILY AND CHILD INDIVIDUALIZED SERVICE PLANNING COMPONENTS

340:75-6-40.3. Family Functional Assessment/Permanency Assessments

(a) **Family functional assessment (FFA).** Form 04KI028E, Family Functional Assessment, is a component of the case plan. The family's strengths and protective factors are evaluated during the family functional assessment to identify resources that may support the family's ability to meet family needs and protect the child. An initial in-depth family assessment begins as soon as possible and is completed within the first 60-calendar days using the earliest date: after the child's removal, the filing of the petition, or the signing of the family service agreement. This assessment process identifies and evaluates the family's strengths, resources, protective factors,

and underlying causes of behavior that create the unsafe conditions.

(1) The family functional assessment FFA, is a tool where all information that is gathered during the in-depth assessment is documented. The FFA incorporates information collected through the safety assessment documented in the initial assessment of child safety, lists all safety threats, identifies any underlying causes of behavior related to those safety threats that led to removal, and integrates the information into a behaviorally-based individualized service plan.

(2) The assessment process is ongoing as information is gathered, obtained, and added to the assessment document.

(b) **Ongoing assessment of child safety.** Evaluating child safety is a primary function of all child welfare specialists during the investigative process and ongoing casework. Safety is assessed by the CW specialist during every contact with the family. The safety evaluation is a continuous process that occurs throughout the life of the case. The ongoing evaluation determines if the behaviors and conditions that led to the child's removal continue to rise to the level of a safety threat and assesses for additional safety threats and for safety as the case progresses and in reunification. This process is documented on Form 04KI030E, Assessment of Child Safety.

(c) **Preliminary inquiry.** A preliminary inquiry is conducted when the child, in an open permanency planning, trial reunification, Interstate Compact on the Placement of Children, or family-centered services case is reported to have a physical injury and the cause of the injury is unknown per Oklahoma Administrative Code 340:75-3-130.

PART 8. CHILD WELFARE SPECIALIST ROLE

- (6) The case manager ~~assures that ensures~~ the services and supports developed by the Team support the person's ~~own~~ network of personal natural resources. The willing efforts of family members or friends to support areas of the person's life are not replaced with paid supports.
- (7) Planning focuses on the needs and outcomes which the person receiving services wishes wants to achieve. The Team first considers the preferences of the person receiving services first and ~~then~~ family, friends, and advocates secondarily.

 - (C) ~~If~~ When an identified service is not within the scope of the State's programs, the Team creatively seeks methods to meet the need.

340:100-5-51. Individual assessment

An individual assessment process forms the basis for developing an Individual Plan (Plan).

- (1) Psychological, medical, social, and functional assessments are completed prior to the development of an initial Plan.
 - (2) The medical, social, and functional assessments are reviewed and updated at least annually.
 - (3) Consistent with the service recipient-directed focus of ~~an In Home Supports Waiver~~ planning, the Developmental Disabilities Services ~~Division (DDSD) (DDS)~~ case manager completes a needs ensures completion or update of a person-centered assessment, and necessary assessments to support the need for services, with the service recipient at least annually, with the service recipient to form the basis for developing the Plan of Care.
 - (4) ~~Consistent with a service recipient centered focus, the DDSD case manager ensures completion of a review and update at least annually of necessary assessments to support the need for services, as well as assessment of the skills, supports, and needs of the service recipient through the Community Waiver and Homeward Bound Waiver.~~

Permanent Final Adoptions

(B) The ~~DDSDDS~~ case manager ensures early intervention and prevention by the Personal Support Team when changes occur. Events, such as the loss of a loved one, change in roommates, staff, schedules, health changes, or loss of a job prompt a re-assessment of needs, services, and supports.

340:100-5-52. The Personal Support Team (Team)

(a) The ~~Personal Support Team~~ (Team) is composed of people selected by the service recipient who know and work with the service recipient or whose participation is necessary to achieve ~~the outcomes desired by the service recipient~~ recipient's desired outcomes.

(1) To respect the service recipient's dignity and privacy ~~of the service recipient~~, the Team is no larger than is necessary to plan ~~for~~ and implement the services needed to achieve the service recipient's desired outcomes. The Team is large enough to possess the expertise and capacity necessary to address the service recipient's needs, but not so large as to intimidate the service recipient or to stifle the service recipient's participation ~~on the part of the service recipient or that of his or her representatives~~.

(2) ~~At its~~ The core, ~~the~~ Team includes the service recipient, his or her case manager, the legal guardian, and advocate(s), ~~if there is one~~ when applicable and, who may be a parent, a family member, a friend, or another individual who knows the service recipient well. The service recipient is assured ~~the~~ of his or her opportunity to select an individual to serve as an advocate.

(3) Depending on the service recipient's needs ~~of the service recipient~~ and the issues ~~to be~~ addressed, the Team may include others. The selection of these additional Team members reflects the service recipient's choices ~~of the service recipient~~.

(b) The Team role ~~of the Team~~ is ~~explained~~ detailed in this subsection.

(1) Team members implement responsibilities identified in the Individual Plan (Plan) or in the Oklahoma Department of Human Services (~~OKDHS~~) (DHS) or Oklahoma Health Care Authority (OHCA) rules. Implementation of the Plan may only be delegated to persons who are appropriately qualified and trained.

(2) The Team develops the Plan and reviews and approves strategies, ~~plans protocols~~, and guidelines developed to implement services or supports.

(3) The service recipient or his or her guardian participate in the development of the Plan and provide written, informed consent for the Plan's implementation.

(~~34~~) The Team implements the Plan upon approval of the Plan of Care, and inclusion of service providers' signatures on the Plan signature sheet.

(~~45~~) A copy of the Plan is maintained per Oklahoma Administrative Code (OAC) 340:100-3-40. All staff implementing the Plan must be knowledgeable about its contents and have access to a copy of the Plan.

(~~56~~) Each Team member responsible for services identified in the Plan sends a quarterly summary of progress on assigned outcomes and action steps to the case manager.

(A) The quarterly summary of progress is due by the ~~tenth~~ 10th of:

(i) April for services rendered in January, February, and March;

(ii) July for services rendered in April, May, and June;

(iii) October for services rendered in July, August, and September; and

(iv) January for services rendered in October, November, and December, unless an alternative schedule is specified in the Plan.

(B) The quarterly summary of progress includes:

Among the questions explored are whether the service recipient is satisfied with the results of the Plan and whether outcomes need to be revised, based on the progress achieved, or on changing circumstances in the service recipient's life. This review provides a clear agenda for the Team meeting and ~~assures~~ ensures the service recipient's input and participation.

(2) The case manager identifies available service providers for selection by the service recipient or legal guardian.

(3) The case manager ensures ~~that~~ the size and composition of the Team support the person-centered planning process.

(A) The case manager plans for the participation of people whom the service recipient ~~desires to have~~ wants on the Team, people whose services are needed to achieve identified outcomes, and people who know the service recipient best. The case manager sends ~~written notice of the annual meeting to all Team members~~ written notice of the meeting, at least two weeks in advance of the annual Team meeting.

(B) Planning may occur in Team meetings or through individual or small group consultation according to the ~~desire~~ service recipient's wants and needs ~~of the service recipient~~.

(C) The case manager notifies a Team member by letter ~~that~~ when his or her services on the Team are no longer required:

(i) at the request of the service recipient or the legal guardian; or

340:100-5-57. Protective intervention ~~plan~~protocol

(a) **Purpose.** The purpose of protective intervention protocol is to ensure the service recipient's safety, ~~if~~when physical, emotional, medical, financial, legal, or community participation issues place the service recipient at risk.

(b) **Elements of the protective intervention ~~plan~~protocol.** The protective intervention ~~plan~~protocol is part of the Individual Plan (Plan) developed with the participation of the service recipient and Personal Support Team (Team).

(1) The protective intervention ~~plan~~protocol:

(A) ~~addresses all the elements of the risk assessment~~uses the least restrictive approaches necessary to address safety risks identified in the safety risk assessment, per Oklahoma Administrative Code (OAC) 340:100-5-56;

(B) identifies the early signs, clues, or other indicators of potential safety risks;

~~(C)~~ describes preventative supports, services, and actions to be taken~~take in order~~ to reduce or eliminate safety risks;as needed, including:

~~(G)~~ is revised when circumstances change or the ~~plan~~protective intervention protocol is no longer effective;

~~(H)~~ treats the service recipient with dignity and is reasonable, humane, practical, not controlling, and the least restrictive alternative; and

~~(I)~~ is submitted to the ~~positive support field specialist and Human Rights Committee (HRC)~~ for review at least annually, ~~if~~ when the plan imposes a restrictive or intrusive procedure; and

(4) ~~Staff meets all training and in-service requirements set forth in OAC 340:100-3-38.~~

(c) **Serious risk or dangerous behavior.** ~~If~~When a protective intervention ~~plan~~protocol addresses challenging behaviors that create serious risk of physical injury or harm to the service recipient or others, ~~creates~~ a risk of involvement in the civil or criminal processes, or places at serious risk the service recipient's physical safety, environment, relationships, or community participation, the protective intervention ~~plan~~protocol must be developed and overseen by the Team and an appropriately licensed professional or a family trainer approved by Developmental Disabilities Services ~~Division (DDSD)~~(DDS) with the assistance of the positive support field specialist.

(d) **Restrictive or intrusive procedures.** ~~If~~When the Team determines restrictive or intrusive procedures, per OAC 340:100-1-2, are essential for safety, the Team must develop

a protective intervention ~~plan~~protocol with the assistance of a ~~DDS~~DDS positive support field specialist.

~~(1)~~ In addition to ~~the~~ requirements ~~of~~in OAC 340:100-5-57 (b) of this Section, each ~~protective intervention plan containing a restrictive or intrusive procedure~~the Team must:

~~(5E)~~ include a ~~description of~~describe methods to help the service recipient develop skills that serve the same function as, or reduce or eliminate the possibility of, the dangerous behavior or serious risk. These methods must be individualized and provide clear direction to provider agency support staff to develop the service recipient's pro-social and coping skills.

~~(2) The Team must submit each protective intervention plan containing a restrictive or intrusive procedure to the HRC and Statewide Behavior Review Committee (SBRC).~~

(e) **Physical management.** Physical management ~~or restraint~~, per OAC 340:100-1-2, is ~~used~~ used to prevent physical injury. Prompting that does not restrict the service recipient's movement or choice is not considered physical management or restraint. Any protective intervention ~~plan~~protocol that includes a physical management ~~component~~ requires the Team to:

- (1) identify ~~whether~~if the service recipient has any health concerns related to the use of physical management, ~~or restraint, or~~ any other intrusive method proposed;

- ~~(A) to proceed with implementation of the protective intervention plan; or~~
- ~~(B) when the physical management component is not approved and must be redrafted or removed pursuant to recommendations.~~

(f) **Emergency intervention.** Emergency intervention is the use of a restrictive or intrusive procedure not included in a protective intervention ~~plan~~protocol, in response to an unanticipated and unpredictable situation or event or the sudden occurrence of an event so severe and dangerous ~~that~~ urgent action precludes less restrictive measures. Physical management, per OAC 340:100-1-2, is only used ~~only~~ during emergencies to ensure physical safety and prevent injury.

(1) Emergency intervention:

- (A) cannot be used as a substitute for positive approaches or a protective intervention ~~plan~~protocol; and
- (B) is used for no longer than necessary to eliminate the clear and present danger of serious physical harm to the service recipient or others.

(2) Physical management must be terminated as soon as the service recipient is calm or the threat ~~has ended~~ and must not exceed two minutes at a time with attempts to release every two minutes to ensure the safety of the service recipient.

(3) When responding to an emergency, no one may authorize or use an amount of force that exceeds ~~that~~ which ~~what~~ is reasonable and necessary under the circumstances to protect the service recipient or others.

(1) The ~~DDS~~ **DDS** case manager contacts the positive support field specialist to request ~~expedited~~ **temporary** approval of restrictive or intrusive procedures to protect the service recipient or others from serious physical harm.

(2) The positive support field specialist approves or denies the request for use of emergency interventions using Form 06MP042E, Request for ~~Expedited~~ **Temporary** Approval of Restrictive Procedures.

(A) If the ~~expedited~~ **temporary** request is approved, the positive support field specialist assists the Team in ensuring needed structure and training are in place for safe and proper implementation of the emergency interventions.

(B) ~~Expedited~~ **Temporary** approval of use of emergency interventions lasts no longer than ~~45~~ **60**-calendar days.

(3) Form 06MP042E must be ~~completed~~ **and** provide sufficient information to demonstrate positive supports were attempted, and the danger of severe harm still exists. ~~At a minimum, required information includes all incident reports from the last three months, with details on the harm caused and other indications of severity, as well as a description of existing positive supports and services.~~

(4) A ~~DDS~~ **DDS** trainer of ~~DDS~~ approved physical management procedures provides training regarding the authorized intrusive procedure.

(5) To continue using the temporarily approved restrictive or intrusive procedure, the Team must submit, within ~~25~~ **60**-calendar days following approval, a protective intervention ~~plan~~ **protocol** that incorporates the requested procedures. ~~If~~ When the submitted protective intervention ~~plan~~ **protocol** does not receive ~~SBRCSHRBRC~~ approval, ~~SBRCSHRBRC~~ may extend the ~~expedited~~ **temporary** approval ~~if~~ when ~~SBRCSHRBRC~~ determines conditions warrant extension, for a maximum of ~~45~~ **an** additional ~~60~~ **60**-calendar days.

(h) **Review and revision of the Individual Plan (Plan).** The Plan is reviewed and, as necessary, revised when an unexpected high risk event occurs and is likely to reoccur.

(1) Review and revision to the Plan is appropriate when the:

(A) service recipient was recently seen in a hospital emergency room due to a behavioral crisis;

(B) service recipient was recently admitted to a psychiatric facility for stabilization;

(C) police were called to intervene because the service recipient is displaying challenging behavior; and

(D) service recipient was placed in police custody as the result of his or her challenging behavior.

(2) Team planning shall include, at a minimum:

(A) consultation with the positive support field specialist;

(B) a review of recent events, including challenging behaviors;

(C) identification of the signs or behaviors indicating the event may reoccur;

(D) assisting the service recipient to develop an individualized safety plan;

(E) detailed action steps for provider agency support staff to follow, when the predicted situation occurs; and

(F) consultation with other professional services, when appropriate.

(i) **Mechanical restraint in a medical context.** Restraints and mechanical supports used in a medical context are exempt from (d) of this Section requirements. These exemptions include, but are not limited to:

ANALYSIS:
The amendments to 365:1-9-2 and 365:1-9-18 both reflect a legislative change made by SB 1319 in 2014. Company deposits are no longer held at the State Treasurer's office, but are held at the Oklahoma Insurance Department. These amendments simply remove the references to the State Treasurer's office. 365:1-9-18 is also amended to include multicounty agent bondsmen, which is a license created by new law in 2014.

ANALYSIS:

365:10-1-8 is revoked because it is based on statutory language which is no longer in effect.

365:10-1-17 is a new proposed rule that would specify the procedures for submitting life, accident, and health form filings to the Oklahoma Insurance Department. The rule requires form filings to be made through the System for Electronic Rate and Form Filing (SERFF) pursuant to the SERFF General

Instructions. These rules are based on the requirements for property and casualty form filings.

365:10-31-6 and 7 are amended to align with new law passed in 2015, which prohibits the transmittal of reports from navigators and navigator entities which contain personally identifiable information.

ANALYSIS:
365:15-1-3.1 is amended to provide greater clarity to the form required by Title 85A, Section 95.

365:15-1-3.2 is a proposed new rule setting out the requirements for insurance companies issuing certain mega deductible workers' compensation policies. The requirements include full collateralization of the aggregate outstanding deductible reimbursement obligations of the policyholder. The rule outlines what "collateral" can be used, and sets forth the financial requirements for insurers issuing these policies. The rule exempts an insurer that has an A.M. Best Company rating of A- or above, or a comparable rating accepted by the Commissioner, and either has at least \$200,000,000.00 in policyholder surplus or upon application to the Commissioner has been exempted by the Commissioner for good cause shown.

365:15-1-25 is a new rule that clarifies the information that must be included on loss runs provided by insurers.

Appendix B is revoked and re-passed to reflect a change to the authorizing statute and the updates to OAC 365:15-1-3.1.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 15, 2016:

SUBCHAPTER 1. GENERAL PROVISIONS

365:15-1-3.1. Workers' compensation optional deductible form

The offer of an optional deductible on all Oklahoma Workers' Compensation policies required pursuant to 85A O.S. § 95, shall be in the form set forth in Appendix B of this Chapter which shall be filed with and approved by the Insurance Commissioner. The form shall be provided to the proposed insured in writing separately from the application and shall read as set forth in Appendix B of this Chapter.

(a) The Administrative Workers' Compensation Act, 85A O.S. § 95 ("AWCA"), requires insurers issuing policies of workers' compensation insurance to offer, as a part of the policy or as an endorsement to the policy, deductibles, optional to the policyholder, for benefits payable under the AWCA. Each policy of workers' compensation that is issued, delivered, issued for delivery, or renewed under the AWCA shall include such optional deductible. The mandatory optional deductible required by the AWCA will be satisfied by the offer of a "Small Deductible" as defined in this Section. If an applicant and insurer mutually agree to a Large or Mega Deductible, such agreement shall satisfy the requirement of the AWCA that insurers offer optional deductibles. The selection of a Small, Large, or Mega Deductible shall be evidenced by signature of the applicant employer on the Commissioner's designated Acceptance/Rejection Form as contained in Appendix "B" to this Chapter. As used in this Section:

(1) "Deductible" means a policy provision or endorsement that, while requiring the insurer to pay 100% of each covered claim, creates a corresponding obligation of the insured employer to reimburse the insurance company for any portion of that claim that is part of the deductible.

(2) "Small Deductible" means a combined medical benefits and indemnity claims deductible of \$1,000.00; \$2,000.00; \$3,000.00; \$4,000.00, or \$5,000.00 per claim.

(3) "Large Deductible" means a combined medical benefits and indemnity claims deductible greater than \$5,000.00 but not more than \$100,000.00 per claim. A Large Deductible may be offered to applicants, on negotiated terms, based upon the applicant's financial condition, industry, claims experience, and collateral.

(4) "Mega Deductible" means a combined medical benefits and indemnity claims deductible greater than \$100,000.00 per claim. Mega Deductibles are subject to OAC 365:15-1-3.2.

(b) Insurers may offer a contractual limit on the employer's aggregate reimbursement liability.

(c) Obligations If Deductible Option Is Selected

(1) If the policyholder chooses a deductible, the insured employer shall be liable for the amount of the deductible for benefits paid for each compensable claim of work injury suffered by an employee.

(2) The insurer shall pay all or part of the deductible amount, whichever is applicable to a compensable claim, to the person or medical providers entitled to the benefits conferred by the AWCA, and seek reimbursement from the insured employer for the applicable deductible amount.

(3) The insured employer must reimburse the insurer within sixty (60) days of a written demand. If the insured employer fails to reimburse the insurer within sixty (60) days, the insurer may seek to recover the full amount of such claim from the insured employer. In addition, the non-payment of deductible amounts shall be treated in the same manner as non-payment of premiums for purposes of cancellation.

(d) Experience Modification for Small Deductibles. Premium reduction for deductibles shall be determined after the application of any experience modification, premium surcharge, or premium discounts. Benefits paid by the insured employer in connection with a small deductible shall not constitute benefits paid and shall not be charged against the experience of the employer.

(e) Experience Modification for Large or Mega Deductibles. Premium reduction for deductibles shall be determined after the application of any experience modification, premium surcharge, or premium discounts. Benefits paid by the insured employer in connection with a large or mega deductible shall constitute benefits paid and shall be charged against the experience of the employer.

365:15-1-3.2. **Financial requirements - mega deductible workers' compensation policies**

(a) Every insurer issuing mega deductible workers' compensation policies ("MDWC"), as defined in subsection c of this Section, shall comply with the following requirements:

(1) The MDWC policy shall require collateralization, as provided herein, of the outstanding deductible reimbursement obligations of the policyholder for any prospective period of coverage. "Collateralization" means deposit by the policyholder with the insurance company of assets to serve as security in the event that a policyholder fails to reimburse the insurer for losses within the deductible.

(2) For purposes of this section, only the following assets shall qualify as "collateral":

(A) Assets admissible pursuant to Article 16 of Title 36 of the Oklahoma Statutes;

(B) A surety bond issued by a surety insurer authorized to transact business by the Commissioner and whose financial strength and size ratings from A.M. Best Company are not less than "A" and "V", respectively;

(C) An irrevocable letter of credit, utilizing a form designated by the Commissioner, issued by a financial institution whose deposits are federally insured. Letters of credit meeting applicable standards of issuer acceptability as of the dates of their issuance or confirmation shall, notwithstanding the issuing or confirming institution's subsequent failure to meet applicable standards of issuer acceptability, continue to be acceptable as security until their expiration, extension, renewal, modification, or amendment, whichever first occurs; provided however, that a letter of credit must be replaced within three months after the date of the institution's failure to meet applicable standards of issuer acceptability;

(D) Guaranty of a solvent parent or affiliated entity that has:

(i) been continuously engaged in business for not less than three (3) years immediately preceding the application for the MDWC policy;

(ii) at least one hundred (100) employees (all states included); and

(iii) at least One Million Dollars (\$1,000,000.00) in net assets, as shown in its immediately preceding year-end GAAP audited financial statements. For purposes of this subparagraph, "affiliated" shall have the meaning ascribed in 36 O.S. § 1651; or

(E) Any combination of the foregoing.

(3) When a policy is written with an aggregate deductible option, the amount of the collateral may not exceed the aggregate deductible.

(4) Collateral held pursuant to this subsection shall be under the direct control of the insurer. Collateral shall be held for the express and sole purpose of securing the policyholder's obligations under the mega deductible workers' compensation policy. Collateral shall not be commingled with the assets of the insurer. Insurers shall not permit policyholders or agents or affiliates of policyholders, or any third party with any contractual or other relationship to the policyholder, directly or indirectly, to access such collateral.

(5) Claims information for each mega deductible insured employer and co-employer shall be maintained in the possession of the insurer for at least six years.

(6) Insurers shall not permit policyholders or agents or affiliates of policyholders, or any third party with any contractual or other relationship to the policyholder, directly or indirectly, to administer claims under a mega deductible workers' compensation policy.

(7) All agreements between insurers and policyholders relating to handling of claims by third parties shall be maintained by the insurer and made available to the Commissioner upon request.

(8) Notwithstanding any other limitation on the insurer's right to cancel the insurance, the policy shall provide that the policyholder's failure to post collateral as required by the policy or pay deductible reimbursements

when due, are grounds for policy cancellation, upon 10 days prior notice.

(9) Before issuing or renewing a mega deductible workers' compensation policy, the insurer shall obtain an audited financial statement for the policyholder, or a financially strong parent or affiliate that has issued an unconditional financial guaranty of the policyholder's deductible obligations. The amount of the policyholder's aggregate deductible obligation is limited to no more than 20% of the total net worth of the policyholder and guarantor, at each policy inception and renewal. Net worth shall be determined as of the fiscal year-end GAAP audited financial statements next preceding such inception or renewal. The Commissioner may request and consider more recent unaudited GAAP financial statements.

(10) If the policy covers employers, co-employers, sub-contractors, or other employers in addition to the policyholder, the policy shall provide that deductible reimbursements are the sole obligation of the policyholder, unless such additional covered employer has given informed written consent to be jointly obligated and the employer's maximum reimbursement obligation is limited to an amount consistent with paragraph 9 of this subsection.

(11) No insurer shall issue a mega deductible workers' compensation policy to a professional employer organization as defined by 40 O.S. § 600.2, which is affiliated with such insurer.

(b) An insurer is exempt from the requirements of this Section, with the exception of paragraph 7 of subsection a, if the insurer, at the time of issuance or renewal of the policy, has an A.M. Best Company rating of A- or above, or a comparable rating accepted by the Commissioner, and either:

(1) has at least \$200,000,000.00 in policyholder surplus, or

(2) upon application to the Commissioner, has been exempted by the Commissioner for good cause shown.

(c) The term "MDWC policy" means any workers' compensation insurance policy that is subject to endorsements or other direct or indirect agreements between the insurer and the policyholder or others that have the effect, singly or in combination, of requiring the policyholder to bear a combined risk of loss of greater than \$100,000.00 per covered employee. For purposes of this Section, entering into an agreement with an existing policyholder that has the effect of making its policy a mega deductible workers' compensation policy is considered to be the issuance of a mega deductible workers' compensation policy.

(d) An insurer found to be in a financially hazardous condition pursuant to the applicable Sections of Title 36 of the Oklahoma Statutes, or subject to an equivalent regulatory determination in any other state, may not issue or renew a MDWC policy.

(e) In addition to the provisions of Title 36 of the Oklahoma Statutes, an insurer issuing MDWC policies may be found to be in hazardous financial condition when one or more of the following conditions are found to exist:

(1) the insurer fails to perform a quarterly review of the sufficiency of the collateral maintained by the insurer

Permanent Final Adoptions

to secure the policyholder's obligations to reimburse the insurer for claims paid and credit taken against reserves for each policy up to the negotiated deductible amount;

(2) the insurer issues a MDWC policy that does not state a specific dollar amount of deductible per claim and, if applicable, in the aggregate;

(3) the insurer issues a MDWC policy and fails to include an actuarially supported calculation of the total amounts owed by the policyholder through ultimate loss development;

(4) from the inception of the policy through ultimate loss development, the insurer fails to maintain collateral for 100% of the policyholder's liability for each MDWC policy; or

(5) the insurer fails to maintain or produce, upon the Department's request, gross and net premium data and first-dollar loss data for each workers' compensation policy with a mega deductible. Such data must be maintained on a quarterly basis in accordance with, or in a substantially similar format as, the Oklahoma Mega Deductible Workers' Compensation Experience Reporting Form created by the Commissioner.

(f) Insurers shall provide to the MDWC policyholder, documentation separate from the MDWC policy, explaining the financial responsibility of both the insurer to pay all covered

claims and the policyholder's obligation to reimburse the insurer for any deductible amounts paid by the insurer.

(g) The insurer shall report statistics under each MDWC policy to a statistical agency designated by the Commissioner. Statistics shall be reported separately for each insured and each coinsured employer. For statistical and ratemaking purposes, all claims paid by the insurer within the deductible amount shall be reported gross of payments under the deductible. Subject to applicable law, the instructions for statistical reporting shall be as required by that statistical agency.

(h) This Section applies to MDWC policies issued, delivered, issued for delivery, or renewed on and after the effective date of this Section.

365:15-1-25. Loss runs and claims history

Section 1204.1 of Title 36 of the Oklahoma Statutes requires property and casualty insurers and advisory boards or advisory organizations to make loss runs or claims history available to current and former policyholders within thirty (30) days upon a written request by the policyholder. Any such loss runs or claims history which cover multiple years shall indicate the insurer, policy number, effective date, and date of expiration or cancellation of such coverage.

**APPENDIX B. OKLAHOMA WORKERS' COMPENSATION OPTIONAL DEDUCTIBLE
ACCEPTANCE/REJECTION FORM [REVOKED]**

**APPENDIX B. OKLAHOMA WORKERS' COMPENSATION MANDATORY OPTIONAL DEDUCTIBLE
ACCEPTANCE/REJECTION FORM [NEW]**

Oklahoma law requires insurers issuing a policy under the Administrative Workers' Compensation Act ("AWCA") to offer deductibles, optional to the policyholder, for benefits payable under the AWCA.

This form is applicable to the optional deductibles required by 85A O.S. § 95 and OAC 365:15-1-3.1 only. For larger negotiated deductibles, see OAC 365:15-1-3.1 and 365:15-1-3.2.

All five deductible options set forth below shall be fully disclosed to the prospective policyholder in writing. The policyholder is not required to select a deductible option, but if the policyholder chooses a deductible, the policyholder may choose only one combined deductible amount. The maximum combined deductible, including medical benefits and indemnity claims, shall be \$5,000.00 per claim. Please carefully review the requirements for the deductible options outlined below.

DEDUCTIBLE OPTIONS

Combined optional deductible amounts are \$1,000.00; \$2,000.00; \$3,000.00; \$4,000.00; and \$5,000.00.

EMPLOYER OBLIGATIONS IF DEDUCTIBLE OPTION IS SELECTED

If the applicant employer chooses a deductible, the insurer shall pay compensable claims to the person or medical providers entitled to the benefits conferred by the AWCA, and obtain reimbursement from the insured employer for the applicable deductible amount.

WARNING: The insured employer must reimburse the insurer within sixty (60) days of a written demand. If the insured employer fails to reimburse the insurer within sixty (60) days, the insurer may seek to recover the full amount of such claim from the insured employer. In addition, the non-payment of deductible amounts shall be treated in the same manner as non-payment of premiums.

EXPERIENCE MODIFICATION

Benefits paid by the insured employer under a deductible as provided herein may not be treated as benefits paid so as to harm the experience rating of the employer.

ANALYSIS:

The amendment to 365:25-3-1 sets out the types of courses that can be offered for continuing education to licensed producers. The amendment to 365:25-3-14 sets out the types of courses that can be offered for continuing education to licensed adjusters.

The amendment to 365:3-20.2 conforms the rule more closely to its authorizing statute.

The amendment to 365:25-5-34 includes multicounty agent bondsmen, which is a new license type created by statute in 2014. 365:25-5-36 is amended to clarify when a bondsman must continue to submit reports after their appointing authority is no longer conducting business or the bondsman no longer has an appointment from that surety. The amendment to 365:25-5-37 clarifies how long a bondsman must keep records, specifically setting forth the trigger for the retention. The amendments to 365:25-5-40, 42, and 47 include multicounty agent bondsmen, which is a new license type created by statute

in 2014. 365:25-5-48 is amended to include a section symbol in paragraph 11 that was erroneously omitted in the rule's initial publication in 2015.

The amendments to 365:25-7-23, 24, 26, and the new rule 365:25-7-29.2, include the required Form F filing, the contents of which are set forth in the new Appendix AA.

The rule revisions conform to and interprets statute 10A O.S., Section 2-7-305, as it relates to one or more counties or municipalities may establish a Community Intervention Center (CIC), and provides clarification that a CIC receiving and holding a juvenile that is pending transportation to a detention center is not considered admitting the juvenile into the CIC. The rule revisions conform to statute 70 O.S., Section 5-149, regarding frequency and timing of tornado drills in schools, as well as the Oklahoma State Department of Education's requirements for schools, as per 10A O.S., Section 2-7-616. The rule revisions provide for minor grammar and formatting changes.

- ANALYSIS:**
- The Oklahoma Department of Labor has adopted permanent rules to supersede emergency rules previously adopted governing the licensing of alternative fuels conversion technicians, alternative fuels compression technicians, alternative fuels conversion companies, and alternative fuels compression companies and the enforcement of standards. The rules previously in effect in OAC 580:55, later adopted as emergency rules at OAC

Permanent Final Adoptions

380:80, served as the foundation for these adopted permanent rules. The rules also govern inspection of compressed natural gas compression, storage, and dispensing systems. The rules: address the certification requirements applicable to the qualification and certification of alternative fuel vehicle conversion technicians, electric vehicle conversion technicians, and alternative fuel compression technicians; provide for the certification of trainees; provide for the certification of alternative fuel companies; provide for the inspection of alternative fuel fill stations; identify national standards applicable to alternative fuel vehicle conversions; provide definitions; establish program administrative procedures; and provide for program enforcement. Emergency rules were adopted which are effective through September 14, 2016. Additionally, the Department of Labor has been tasked with inspecting compressed natural gas fill stations. These rules are authorized by 40 O.S. § 142.1 and 40 O.S. § 142.2. The intended effect of the rules is to provide a uniform program for testing, licensing, and enforcement related to alternative fuels technicians and companies and to provide clear standards for the inspection of compressed natural gas fill stations.

380:80-1-5 requires submission of a new form, form AF-1, an Alternative Fuels Permit Application, for stationary compressed natural gas installation permits. Form AF-1 is available on the Department of Labor website at www.labor.ok.gov.

380:80-1-4. Applicability and severability

(a) The provisions of this chapter apply to pressurized components of a compressed natural gas (CNG) system, and are applicable to both engine fuel systems and compression, storage, and dispensing systems.

(b) If any item, clause, or provision of these rules is for any reason declared invalid, the remainder of the provisions shall remain in full force and effect and shall in no way be affected, impaired, or invalidated.

(c) Nothing in these rules shall be construed as requiring, allowing, or approving the unlicensed practice of engineering or any other professional occupation requiring licensure.

380:80-1-5. Filings required for stationary CNG installations

(a) No CNG container shall be placed into CNG service or an installation operated or used in CNG service until the requirements of this section, as applicable, are met and the facility is in compliance with the rules in this chapter and all applicable statutes, in addition to any applicable requirements of the municipality or the county where an installation is or will be located.

(b) The licensee shall submit the following to the Department of Labor at least 30 days prior to construction:

- (1) Form AF-1;
- (2) a plat drawing from the appropriate appraisal district identifying the facility's property boundaries;
- (3) a site plan of sufficient scale that identifies:
 - (A) the location, types, and sizes of all containers already on site or proposed to be on site;

Permanent Final Adoptions

chapter and the statutes of the State of Oklahoma, and does not constitute a danger to the public health, safety, and welfare, the Department of Labor shall issue an interim approval order. The construction of the installation and the setting of the container shall not proceed until the applicant has received written notification of the interim approval order. Any interim approval order shall include a provision that such approval may be suspended or revoked if:

- (1) the applicant has introduced CNG into the system prior to final approval; or
 - (2) a physical inspection of the installation indicates that it is not installed in compliance with the submitted plat drawing for the installation, the rules in this chapter, or the statutes of the State of Oklahoma; or
 - (3) the installation constitutes a danger to the public health, safety, and welfare.
- (e) If a CNG stationary installation, equipment, or appurtenances not specifically covered by the rules in this chapter has been or will be installed, the Department of Labor shall apply and require any reasonable safety provisions to ensure the CNG installation is safe for CNG service. If the affected entity disagrees with the Department of Labor's determination, the entity may request a hearing. The installation shall not be placed in CNG operation until the Department of Labor has determined the installation is safe for CNG service.
- (f) The Department of Labor shall review all applications within 21 business days of receipt of all required information and shall notify the applicant in writing of any deficiencies or whether the installation has been approved.
- (g) Applications shall expire and be renewed as follows:
- (1) When the Department of Labor notifies an applicant of an incomplete CNG Form AF-1, the applicant has 120 calendar days from the date of the notification letter to resubmit the corrected application or the application will expire. After 120 days, a new application shall be filed should the applicant wish to reactivate Department of Labor review of the proposed installation.
 - (2) If the applicant requests an extension of the 120-day time period in writing, postmarked or physically delivered to the Department of Labor before the expiration date, the application may be renewed for up to 90 days as determined by the Department of Labor.
 - (3) If the subject installation is not commenced, with permits pulled, within one year from the date of the Department of Labor's completed review, the applicant shall resubmit the application for the Department of Labor's review.
- (h) The applicant shall notify the Department of Labor in writing when the installation is ready for inspection. If the Department of Labor does not physically inspect the facility within 30 calendar days of receipt of notice that the facility is ready for inspection, the applicant may operate the facility conditionally until the initial complete inspection is made. If any safety rule violations exist at the time of the initial inspection, the applicant may be required to cease CNG operation until the applicant corrects the violations.

(i) If the Department of Labor determines the completed installation varies materially from the application originally accepted, the applicant shall correct the variance and notify the Department of Labor of the correction of the variance or re-submit the application. The Department of Labor's review of such resubmitted application shall comply with the procedure described in this section.

- (a) A vehicle fueling connection shall provide for the reliable and secure connection of the fuel system cylinders to a source of compressed natural gas (CNG).
- (b) The fueling connection shall be suitable for the pressure expected under normal conditions and corrosive conditions which might be encountered.
- (c) The fueling connection shall prevent escape of gas when the connector is not properly engaged or becomes separated.
- (d) The refueling connection on an engine fuel system shall be firmly supported, and shall:
 - (1) receive the fueling connector and accommodate the service pressure of the vehicle fuel system;
 - (2) incorporate a means to prevent the entry of dust, water, and other foreign material. If the means used is capable of sealing system pressure, it shall be capable of being depressurized before removal;
 - (3) have a different fueling connection for each pressure based vehicle fuel system.
- (e) Any vehicle that will be fueled by an automatic dispenser shall be equipped with a fueling connection that complies with ANSI/AGA NGV1, Requirements for Natural Gas Vehicles (NGV) Refueling Connection Devices, Requirement 1-90.

- (1) The applicant shall send a copy of the written application and supporting documents by certified mail, return receipt requested, to all affected entities as specified in paragraphs (2), (3), and (4) of this subsection on the same date on which the form is filed with or sent to the Department of Labor. The applicant shall include a notice to the affected entities that any objection shall be filed with the Department of Labor within 30 calendar days of the date of postmark. The applicant shall file all return receipts with the Department of Labor as proof of notice.
 - (2) If an exception is requested on a stationary site, the affected entities to whom the applicant shall give notice shall include but not be limited to:
 - (A) persons and businesses owning or occupying property within a radius of 600 feet of the site;

- (d) Objections to the requested exception shall be in writing, filed with the Department of Labor within 30 calendar days of the postmark of the application, and shall be based on facts that tend to demonstrate that, as proposed, the exception would have an adverse effect on public health, safety, or welfare. The Department of Labor may decline to consider objections based solely on claims of diminished property or aesthetic values in the area.
- (e) The Department of Labor shall review the application within 21 business days of receipt of the application. If the Department of Labor does not receive any objections from any affected entities as defined in subsection (c) of this section, the Commissioner of Labor may administratively grant the exception if the Commissioner of Labor determines that the installation, as proposed, does not adversely affect the health or safety of the public. The Department of Labor shall notify the applicant in writing after the end of the 30-day objection period and, if approved, the installation shall be commenced, with permits pulled, within one year from the date of approval and installed within two years from the date of approval. The Department of Labor shall also advise the applicant at the end of the objection period as to whether any objections were received and whether the applicant may proceed. If the Commissioner of Labor denies the exception, the Department of Labor shall notify the applicant in writing, outlining the reasons and any specific deficiencies. The applicant may modify the application to correct the deficiencies and resubmit the application or may request a hearing on the matter. To be granted a hearing, the applicant shall file a written request for hearing within 14 calendar days of receiving notice of the administrative denial.
- (f) A hearing shall be held when the Department of Labor receives an objection as set out in subsection (d) of this section from any affected entity, or when the applicant requests one following an administrative denial. The Department of Labor shall mail the notice of hearing to the applicant and all objecting entities by certified mail, return receipt requested, at least 21 calendar days prior to the date of the hearing. Hearings will be held in accordance with the Administrative Procedures Act and this chapter.
- (g) After hearing, exceptions to this chapter may be granted by the Department of Labor if the Department of Labor finds that granting the exception for the installation, as proposed, will not adversely affect the safety of the public.
- (h) A request for an exception shall expire if it is inactive for 90 calendar days after the date of the letter in which the applicant was notified by the Department of Labor of an incomplete request. The applicant may resubmit an exception request.

380:80-1-9. Report of CNG incident/accident

- (a) In case of an incident involving single release of compressed natural gas (CNG) during or following CNG transfer or during container transportation, or an accident at any location where CNG is the cause or is suspected to be the cause, the licensee owning, operating, or servicing the equipment or the installation shall notify the Department of Labor by telephone immediately after the licensee has knowledge of the incident or accident. Any loss of CNG which is less than 1.0% of the

Permanent Final Adoptions

gross amount delivered, stored, or withdrawn need not be reported. Any individual reporting shall leave his or her name and telephone number where he or she can be reached for further information.

(b) The telephone notification required by this section shall be made to the Department of Labor's main telephone line and shall include the following information:

- (1) date and time of the incident or accident;
- (2) type of structure or equipment involved;

380:80-1-10. Removal from CNG service

(a) If the Department of Labor determines that any compressed natural gas (CNG) cylinder constitutes an immediate danger to the public health, safety, and welfare, the Department of Labor shall require the immediate removal of the CNG by a properly licensed company to the extent necessary to eliminate the danger. If the Department of Labor determines that any CNG appliance, equipment, or system constitutes an immediate danger to the public health, safety, and welfare, the Department of Labor shall require the immediate disconnection by a properly licensed company of such appliance, equipment, or system from the CNG cylinder it services.

(b) If the affected entity disagrees with the placement of a warning tag, or with the Department of Labor's findings in subsection (a) of this section, the entity may request an investigation into the matter. The Department of Labor shall notify such entity of its finding. If the entity disagrees, the entity may request or the Department of Labor on its own motion may call a hearing. Such installation shall be brought into compliance or removed from service until such time as the final decision is rendered. All hearings and deadlines shall comply with the Administrative Procedures Act.

380:80-1-11. Filling unapproved containers prohibited

No licensee shall introduce compressed natural gas (CNG) into any container if he has knowledge or notice that such CNG container or system was not installed in accordance with the statutes of the State of Oklahoma, and with the rules and regulations in effect at the time of installation. Exception: This section does not apply to motor fuel or mobile fuel containers and systems installed on vehicles licensed in states other than Oklahoma, provided, however, that no licensee shall be required to introduce CNG into any container and/or system that the licensee reasonably believes to be unsafe.

SUBCHAPTER 3. DISPENSING SYSTEMS

380:80-3-1. Applicability

This subchapter applies to the design, construction, installation, and operation of cylinders, pressure vessels, compression equipment, and associated equipment used for storage and dispensing of compressed natural gas (CNG) as an engine fuel in fleet and automatic dispensing operations.

Permanent Final Adoptions

FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2016:

395:10-1-9.1. Purchase price payments/transfer of credited service

(a) An active member of the System may elect the payment of the actuarial purchase price, repayment of a previous withdrawal or any other purchase or repayment permitted and authorized by the statutes governing the System, to be amortized in monthly installments to the extent allowed by law.

(1) A payment schedule may be established allowing the member to make monthly payments through payroll deductions by the member's employer if the employer agrees to make the deductions and remit payment to the System. Payments remitted by an employer for its employees must be kept separate from employer's regular retirement contributions or any other payments to the System. Such payments do not qualify as "pre-tax" contributions under "employer pick-up" provisions of Section 414(h) of the Internal Revenue Code.

(2) The installment payment schedule provided for in this section must be in monthly increments. The minimum total monthly payment is \$25.00. The member shall be responsible for maintaining the payment schedule. The payment due date will be based on the payroll schedule set by the member's employer. Any installment not paid within sixty (60) days of the due date will result in termination of the installment payment schedule with the member given the option of paying the balance of the actuarial purchase price with interest due through date of payment or receiving partial credit for payments made under the installment schedule as provided for in subsection (4) of this section.

(3) The monthly payment will be determined by amortizing the total amount due for the service to be purchased over the period of the installment schedule using an interest rate equal to the actuarially assumed interest rate adopted by the Board of Trustees for investment earnings for the year in which the payment schedule is commenced.

(4) If the installment payment is terminated for any reason, including termination of employment, death of the member or by cessation of payments, the member or his beneficiary will have the option of paying the remaining balance within the original contract period. In the event the actuarial purchase price is paid prior to the end of the contract period, the amount to be paid shall be the balance of the actuarial purchase price with interest due through the date of payment. If the balance is not paid, the member will receive credit for service prorated for only the actuarial purchase price paid and rounded to the last full month paid for. No refunds will be paid to the member.

(5) Credit for service purchased on an installment schedule will not be added to the member's account until the entire balance is paid, except as provided for in subsection (4) of this section. All payments must be completed in the month prior to the effective retirement date of the

member. If any member or beneficiary elects to pay the balance, during the original contract period provided for in subsection (4) of this section, no benefits will be payable until the completion of the original contract period, or receipt of a signed waiver. In no event will retroactive benefit payments be made, and the effective retirement date will be adjusted to the first day of the month following the completion of payments or receipt of waiver.

(6) Payments may be made directly to the System by the member, or beneficiary of the member who is in an unpaid leave status, in the following circumstances:

(A) if payroll is insufficient to handle the entire payment,

(B) in the event of payroll error where employer fails to withhold the proper amount, or

(C) during the original contract period referred to in subsection (4) of this section.

(7) If the purchase is terminated for any reason, the purchase cannot be made at anytime in the future, following the original contract period referred to in subsection (4) of this section. By failing to complete this purchase, the member or beneficiary forfeits the right to the purchase at any other time.

(b) In lieu of installment payments (for a purchase where installment payments are otherwise allowed by Oklahoma state statutes), an active member may elect to make the payment of the actuarial purchase price, repayment of a previous withdrawal, purchase of previous non-participating service, or any other eligible purchase or repayment permitted and authorized by the statutes governing the System by use of a direct trustee-to-trustee transfer of non-Roth funds from a qualified plan described in Section 401(a) of the Internal Revenue Code of 1986, as amended.

(c) ~~Effective January 1, 2002,~~ In lieu of installment payments (for a purchase where installment payments are otherwise allowed by Oklahoma state statutes), an active member may elect to make the payment of the actuarial purchase price, repayment of a previous withdrawal, purchase of previous non-participating service, or any other eligible purchase or repayment permitted and authorized by the statutes governing OLERS by use of a direct trustee-to-trustee transfer of non-Roth funds from an eligible 457(b) plan and/or a 403(b) tax sheltered annuity program.

(d) Notwithstanding (b) and (c) of this subsection above, purchases may be made by a cash lump sum payment of the actuarial purchase price with interest due through the date of payment, installment payments (where otherwise allowed by Oklahoma state statutes), and/or by trustee-to-trustee transfer of non-Roth funds as described in (b) and (c) above.

(e) OLERS will transfer credited service to another state retirement system upon request of a former member. Upon transfer, the former member will have forfeited all rights in OLERS.

(f) The purchase of service or transfer of credited service shall be completed in the time and manner prescribed by the Board.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF OCTOBER 9, 2016:

429:10-1-10. Settlement and retailer invoicing

(a) The accounting period for purposes of preparing retailer invoices shall be weekly from Saturday at 12:00 midnight through the following Saturday at 11:59:59 p.m.

(b) All packs of instant tickets activated in an accounting period and for which the prize validation requirements specified in (c) of this Section have occurred, and all sales of online game tickets occurring within the accounting period will be invoiced to the retailer, less any retailer commissions and/or OLC authorized adjustments. The retailer invoice will be available through the OLC lottery sales terminal after 4:00 a.m. on Monday, immediately following the end of the accounting period.

(c) For instant games, retailers may select one of the following three (3) settlement options. Retailers may select a settlement option during the initial contract process and may change the option only on their annual renewal date and only if they advise the OLC of their desire to change the option no later than two (2) weeks prior to their annual renewal date.

(1) Settlement Option 1: all ticket packs activated by the retailer or by the OLC on behalf of the retailer for which eighty percent (80%) of the winning low-tier tickets contained in the pack have been validated by the end of the previous accounting period will be included in the current retailer weekly invoice. Any pack which has been activated for a period of thirty (30) days will be invoiced to the retailer, even if eighty percent (80%) of the pack's winning low-tier tickets have not been validated. In the event a retailer activates concurrently two or more instant game packs from the same game, the first pack activated will be included in the current retailer weekly invoice regardless of how many low-tier tickets have been validated from the first, except in situations where the retailer has two or more selling locations within the same retail business, in which case the first pack activated will be included in the current retailer weekly invoice when the third or subsequent pack of that game is activated, regardless of how many low-tier tickets have been validated from the first pack.

(2) Settlement Option 2: all ticket packs will be settled 21 days after activation, at which time such settled packs will be included on the weekly invoice for the week in which they were settled. In the event a retailer activates concurrently two or more instant game packs from the same game, the first pack activated will be included in the current retailer weekly invoice, except in situations where the retailer has two or more selling locations within the same retail business, in which case the first pack activated will be included in the current retailer weekly invoice when the third or subsequent pack of that game is activated.

(3) Settlement Option 3: all ticket packs will be settled immediately on activation, at which time such settled packs will be included on the weekly invoice for the week in which they were settled.

(d) The retailer invoice will provide a calculation of the proceeds due the OLC. The proceeds will be equal to the retail value of instant game ticket packs, plus the retail value of on-line ticket sales, less applicable sales or cashing commissions, less any winning tickets paid by the retailer during the accounting period, plus or minus any adjustments to the retailer account authorized by OLC.

(e) For purposes of calculating the retailer invoice, free ticket prizes validated by the retailer shall have the same value as the applicable retail value of free ticket(s) provided to the claimant.

A presiding official shall have the authority to alter the order of procedure. This order of procedure also applies to appeals heard through the Alternative Dispute Resolution Program.

ANALYSIS:

The rule amends an existing rule to increase the number of hours of continuing medical education required for relicensure to 25 hours per year, specifies certain topics that must be covered in such education, and limits the number of hours of remote learning. The amendment also updates the list of continuing education providers that are approved by the Board to provide continuing medical education. The amendment simplifies the process of gaining approval for continuing medical education provided by organizations not on the list of approved providers. In addition, the amendment allows those seeking annual relicensure to satisfy the cardiopulmonary resuscitation requirement by providing an American Red Cross card or evidence of equivalent training. 59 O.S. § 604 is related and deals with attendance at educational or post graduate programs.

In addition to the application form, each candidate must also provide the following materials:

ANALYSIS:

The revision in 535:10-3-4 (a) adds 'January-December' to improve the rule clarity. In 535:10-3-4 (c) the revision adds '(2)' for consistency. In 535:10-3-4 (o) it adds that the Board may specify a topic for three (3) of the 15 hours of continuing education required of pharmacists each year. If such 'specific topic' is required, the Board must provide adequate notice.

In 535:10-5-1-3 (a) (3) - (4) the revision allows the Board to review, approve or disapprove intern hours worked in an ACPE approved school or college of pharmacy program out of state where such state Board of Pharmacy does not track or report college or school of pharmacy earned intern hours.

In 535:10-7-6 (d) the rule that Oklahoma reciprocity is only allowed on an active original license by examination is clarified. This is needed because NABP changed their rule and now allows reciprocity on a variety of license types.

ANALYSIS:

The definition revisions in 535:20-3-1.2, 535:20-5-2.1, 535:20-6-2, 535:20-7-2, and 535:20-8-2 remove the "incorporated by reference", because registrants must comply with these federal laws and rules, there is no need to incorporate by reference. In 535:20-7-2 the revision removes the section symbol following the word "Section".

The revision in section 535:20-7-3 adds "located in Oklahoma" to the requirements that wholesalers be separate from a pharmacy. This requirement is because in Oklahoma when they were located together many years ago, neither had accurate inventory records. This rule is to prevent diversion. However, other states allow wholesalers and pharmacies to be located together. In 535:20-7-5 "have" is changed to "has" and "licensee" is changed to "license".

Many medical gas suppliers and medical gas distributors no longer "fill", in such case they are not required FDA licensure, consequently the revisions in 535:20-9-3 (c) and 535:20-9-4 (c) add the words "if required" and both have cleanup on the language to make the rule more clear. The revision in 535:20-9-3 (h) clarifies a medical gas supplier provides medical gas only on a drug order. The revision in 535:20-9-6 removes the reference to "the Drug Supply Chain Security Act of 2013 and rules promulgated thereunder" since they do not apply to medical gases. The change in 535:20-9-3-(b) adds a subsection tagline to make the section consistent.

ANALYSIS:

The change in 535:25-3-3 (c) improves rule clarity. The revision in 535:25-3-5 (a) changes to pharmacies "located in Oklahoma" shall not be licensed in the same location. The revision in 535:25-7-3 removes "or" so that legally prescribed controlled drug substance (CDS) use is not a violation of this rule.

ANALYSIS:

As a part of the minimum standards to issue a license of State Authorization to a private vocational school under Title 70 O.S. §21-102.1(6) and data collection under Title 70 O.S. §21-102.1(13), the proposed amendments add detail to the process by which a student may submit a complaint to the OBPVS. Details include requiring a school's internal process to be completed prior to the OBPVS submission, allowing the OBPVS to follow-up on a school response, setting a deadline for the school's response, and establishing a deadline for a student to initially submit a complaint to the OBPVS. The deadline for initial complaint submissions is one-year after the conclusion of the school's process, unless there are extenuating circumstances. The one year deadline attempts to ensure that the records or witnesses necessary for the OBPVS to investigate the complaint may reasonably be made available to the Agency.

ANALYSIS:

Throughout all Subchapters a few minor typographical errors and uses of inconsistent phrasing are corrected as an extension of last year's massive Rule clean-up effort. Doing so aids Rule comprehension and clarity. Two antiquated provisions are deleted from Subchapters 3 and 11. The deletion in 565:10-3-1(1) recognizes that requiring a live signature for an electronic submission is impractical and illogical. The deletion of the existing

565:10-11-7(c) eliminates a provision that could subject a licensed school to a discrimination law suit.

Revisions in 565:10-3-1, a new 565:10-3-2, and a new 565:10-29-1 align the Rules with changes to the Enabling Statute that became effective on August 22, 2014 in the areas of relicensing application completion and data collection. Clearer application completion Rules facilitate school compliance and enable a School to avoid the assessment of a statutory late fee. The data collection language serves to implement the statutory authority to collect data, especially for workforce development efforts.

Both 565:10-7-1(d) and (f) on student health and safety are modified to detail the information necessary to be filed for approval in advance of license issuance or before changing a school's location. In 565:10-11-1(j)(6) a provision is added to require a school representative to watch a recording of a webinar to ensure that the knowledge is not missed due to a failure to attend a scheduled mandatory annual training event.

In a new 565:10-15-1(4) a school becomes accountable for using an unlicensed Solicitor. In 565:10-27-2 a new school applicant has tougher financial standards imposed that would, after two additional years, also apply to existing, licensed schools. Doing so is meant to protect students financially in a compressing market with some school failures occurring. New applicants are also encouraged to create financial projections before following a potential passion and seeking a license for a business that may not be sustainable.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2016:

575:1-1-3. Investigation of requests for inquiry

(a) **Choice of investigative mode when unlicensed individuals are involved.** When violations of the law by unlicensed individuals are brought to the attention of the Board, the Board may conduct an investigation in its own behalf, request investigation by appropriate state agencies, and/or refer the matter to the Office of the Attorney General. The choice of an investigative mode shall depend on the circumstances of the case and shall be made at the discretion of the Board.

(b) **Investigative procedure.** The following is the procedure for investigation of requests for inquiry against licensed psychologists:

(1) **Requirements for requests for inquiry.** The investigation of a request for inquiry about a licensed

Permanent Final Adoptions

psychologist may be initiated only when the request for inquiry is in writing, signed, notarized, and filed with the Board. The notarized request for inquiry must contain a brief statement setting forth the allegations of fact and naming the licensee or licensees about whom the request for inquiry is filed. The request for inquiry provides the basis for the chairperson and/or vice chairperson of the Board to request an informal meeting with the licensee, whose participation is voluntary, and/or for appointment of an investigator for the case. The Board may receive, accept, process, investigate, act upon, and otherwise dispose of written requests for inquiry which are not in substantial compliance with this subsection if the Board, in its discretion, determines that the request for inquiry otherwise contains sufficient indicia of reliability and/or the allegations can be independently verified by the Board.

(2) **Independently verified allegations - written request for inquiry may not be required.** In all inquiries, the Board shall require the request for inquiry to be in writing, signed, and notarized. However, alleged violations of the Psychologists Licensing Act which can be independently verified by the Board may not require written request for inquiry.

(3) **Selection of investigator.** The Board shall select a member or other qualified individual to investigate any request for inquiry regarding any psychologist. This selection may be by majority vote of the Board or by appointment by the chairperson, ~~or~~ vice chairperson, ~~or~~ executive officer.

(4) **Compensation for expenses.** The investigator shall be compensated by the Board for necessary and prudent expenses which are properly documented and approved by the Board.

(5) **Investigator's gathering of information.** The Board member or other individual authorized to receive and investigate requests for inquiry shall gather all information necessary to adequately apprise a Probable Cause Committee. The investigation may include interviews with the requesting party, the licensee named in the request for inquiry, and others as appropriate. The licensee will have the opportunity during the investigator's interview to show compliance with all lawful requirements for the retention of the license. The gathering of information to assist the Board in its disposition of requests for inquiry is the only designated function of the investigator during the conduct of the investigation. Any investigative reports prepared and submitted to the Board's Probable Cause Committee, the prosecutorial arm of the Board, are to be used solely to determine whether or not to recommend the pursuit of disciplinary action, and thus constitute confidential and privileged work product material, not subject to disclosure. The investigator shall not offer his/her opinions to the requesting party and/or to the licensee. Such opinions shall include but not be limited to the merits of the request for inquiry and/or whether an ethical violation has occurred.

(6) **Subpoenas Investigative.** The Board may issue subpoenas for the purpose of investigating a request

for inquiry following the same procedure as set forth at 575:1-1-4.

(7) **Presentation of Probable Cause Committee's summary and recommendation.** The Probable Cause Committee, comprised of the investigator, counsel to the Board and other appropriate individuals, is an advisory body whose function is to summarize the requests for inquiry and to make an informed recommendation regarding disposition of the requests for inquiry to the Board. The Probable Cause Committee's recommendation will be presented at an open meeting of the Board. The requesting party and the licensee will be given prior written notification of the date, time, and place of that meeting. During the Probable Cause Committee's presentation, no questions will be posed by or to the licensee or the complaining witness pertaining to the substance of the case. Such questions may be submitted in writing to the representative of the Attorney General's office following the Board meeting.

(8) **Dismissal of request for inquiry by majority vote.** Upon consideration of the recommendation of the Probable Cause Committee, the Board may decide not to pursue further the allegations, and may dismiss the request for inquiry by an approving vote of a majority of the members present in open meeting.

(9) **Informal disposition of certain requests for inquiry.** In some situations including, but not limited to, cases where the inquiry does not allege conduct as described in the Psychologists Licensing Act in Section 1370 or conduct punishable by suspension or revocation of a license, probation, or formal reprimand, the matter may be handled informally. However, no matter can be considered closed until so voted by a majority of the Board in open meeting.

(10) **Recusal of Board member.** A Board member, acting as the appointed investigator or Probable Cause Committee member, shall be recused from all Board decisions relating to the request for inquiry.

(c) **Notification of the disposition of requests for inquiry against licensed psychologists and investigations of them.**

At the point at which any request for inquiry and/or investigation is resolved, the Board shall inform the requesting party and the psychologist in writing of the disposition of the matter as well as the supporting rationale based on known facts and applicable laws or rules. The Board shall also notify the Attorney General's Office.

ANALYSIS:

The amendments to 575:10-1-2 Requirements to become licensed as a psychologist will provide foreign applicants an avenue to become licensed in Oklahoma since the Designation Committee of the National Register of Health Service Providers in Psychology and the Association of State and Provincial Psychology Board no longer approves programs. Other changes to this section include clarification of the statute and also adds rules for post-military applicants. Revisions to the Private Practice Under Supervision is to initiate permanent rule changes to strike rule 575:10-1-3(i) which prohibits board members to serve as supervisors. This change was approved by the Governor as an Emergency Rule Change and became effective October 26, 2015. The proposed rule changes to 575:10-1-7 Hiring of psychological technicians will change the limitation on activities of psychological technicians. The revisions allow a psychologist to supervise physically onsite or through telemedicine or direct telecommunications; will change the requirements from requiring a certification as a Board Certified Behavior Analyst (BCBA) to also allow those that have completed the DDS Certification program the ability to provide services to individuals served by the Department of Human Services, Developmental Disabilities Services (DDS). Another change in this section will allow a psychologist to hire up to four psychological technicians. Last, given that the oral examination is no longer required for licensure, a revision to update the language for kinds of educational activities for which credit may be received will strike oral examination committee member as a way for which continuing education may be received.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2016:

575:10-1-2. Requirements to become licensed as a psychologist

(a) **Application.** Persons desiring licensure as a psychologist may obtain official application information from either the Board office or the Official Board Website. Applicants are required to submit a non-refundable four hundred dollar (\$400.00) application fee in the form of a personal or certified check or acceptable money order. A minimum of three references from licensed psychologists shall be required for each applicant. Board members shall not serve as references for applicants except to verify portions of completed training or experience.

(b) **Consideration of application.** The Board may appoint a committee to consider and approve, the request of each applicant to take the examination for licensure as a psychologist under 59 O.S., Section 1362(1). In instances where the applicant fails to complete the requirements for licensure within five years of the date of approval, the Board may destroy the application and all related documents.

(c) **Doctoral programs.** ~~All applicants for licensure as a psychologist shall have a doctoral degree based upon a curriculum from an institution regionally accredited by an organization recognized by the U.S. Department of Education consisting of at least three academic years, which shall be defined as 90 semester hours (excluding internship credit), leading to said degree. The applicant's doctoral degree must be from a program accredited by the American Psychological Association or meet all of the following criteria. By January 1, 1997, applicants~~ Applicants for licensure shall have completed a doctoral program in psychology that is accredited by the American Psychological Association, (APA) ~~or the Canadian Psychological Association, or designated as a psychology program by the Designation Committee of the National Register of Health Service Providers in Psychology and the Association of State and Provincial Psychology Board, and meet all of the following criteria; unless the doctoral program meets any of the following exceptions:~~

(1) Areas where no accreditation exists. This exception applies to doctoral programs, within the United States, that are in specialty areas of professional psychology that are not accredited by the APA.

(2) New specialty areas of professional psychology. When a new specialty of professional psychology is recognized as being within the accreditation scope of the APA, doctoral programs within that specialty will be afforded a maximum transition period of eight (8) years from the first class of students to the time of accreditation. To be eligible for this exception the program must have a pending application for accreditation with the APA at the time of the applicant's application for licensure.

(3) New doctoral programs in specialty areas currently within the scope of APA accreditation. This exception is available to new doctoral programs developed in APA accredited specialty areas of professional psychology. A doctoral program is only eligible for this exception during a maximum transition period of eight (8) years from the first class of students to the time of accreditation. To be

Permanent Final Adoptions

eligible for this exception the program must have a pending application for accreditation with the APA at the time of the applicant's application for licensure.

(4) Applicants trained in institutions outside the United States shall have completed a doctoral program in psychology that is accredited by the Canadian Psychological Association or that is deemed the equivalent of a program accredited by the APA by the Board in its sole discretion. The Board shall consider, but is not limited to, determinations made by a foreign credential evaluation service that is a member of the National Association of Credential Evaluation Services or from a recognized foreign credential evaluation service approved by the Board.

(d) All doctoral programs in 575:10-1-2(c) shall meet all of the following criteria:

(1) The doctoral program, wherever it may be administratively housed, must be clearly identified and labeled as a psychology program. Such a program must specify in pertinent institutional catalogs and brochures its intent to educate and train psychologists.

(2) The psychology program must stand as a recognizable coherent organizational entity within the institution.

(3) There must be clear authority and primary responsibility for the core and specialty areas whether or not the program cuts across administrative lines.

(4) The program must be an integrated, organized sequence of study.

(5) The program must have an identifiable psychology faculty and a psychologist responsible for the program.

(6) The program must have an identifiable body of students who are matriculated in that program for a degree.

(e) **Practica and internship required.** The assessment of mental, emotional, or behavioral disorders and/or the treatment of individuals, couples, families, or groups with such disorders, by psychologists, requires a doctoral degree from an academic program designed to train psychologists to provide these services which integrates coursework and other experiences toward the goal of training psychologist practitioners. Practica and an internship experience are required.

(f) **Evaluating doctoral programs.** The doctoral program shall be documented in writing to the Board. The institution is to document the name of the department granting the degree, the date of completion of the degree requirements, and the major program of study such as, but not limited to, clinical, counseling, developmental, educational, experimental, industrial-personnel, psychometrics, school, or social-personality, unless this information is indicated on the applicant's official transcript. A certified letter from the Registrar may be submitted as documentation of the date of completion of the degree requirements. Applicants trained in institutions outside the United States, besides those accredited by the Canadian Psychological Association, shall submit an evaluation of their doctoral program as described in 575:10-1-2(c)(4). All doctoral programs submitted for review under this subsection will be evaluated by the following criteria: This academic program will then be evaluated by the following criteria:

(1) Except in school psychology, the three academic years leading to the doctoral degree must include a minimum of two years of full-time, on campus, graduate study (excluding internship). In school psychology, the three academic years leading to the doctoral degree must include a minimum of one year of full-time postmaster's graduate study as defined by the institution (excluding internship).

(2) At least forty-two (42) hours of the specified course work must be primarily psychological in content. The applicant must have a minimum of three (3) or more graduate semester hours in each of the following substantive content areas, for a total of twenty-one (21) hours:

(A) scientific and professional ethics and standards,

(B) research design and methodology,

(C) statistics and psychometrics,

(D) biological bases of behavior [e.g. physiological psychology, comparative psychology, neuropsychology, sensation, psychopharmacology].

(E) cognitive-affective bases of behavior [e.g. learning, memory, perception, cognition, thinking, motivation, emotion].

(F) social bases of behavior [e.g. social psychology, cultural, ethnic, and group processes, sex roles, organization and systems theory], and

(G) individual behavior [e.g. personality theory, human development, individual differences, abnormal psychology].

(3) The remaining twenty-one (21) hours of specified course work may be in the foregoing basic areas or in courses pertaining to the specific program of study.

(g) **Doctoral degree in area related to psychology not sufficient.** The possession of a doctoral degree from an area related to psychology does not qualify one for licensure as a psychologist. This includes, but is not limited to, applicants with degrees in special education, pastoral psychology (or counseling), counseling and guidance, speech and hearing, and counselor education.

(h) **Supervised experience.** An applicant for licensure as a psychologist must have two years of supervised experience satisfactory to the Board. Supervisors may not be members of the psychologist's immediate family or other individuals with whom the necessary level of objectivity cannot be maintained. This will include, but is not limited to, spouses, children, siblings, and parents or anyone with whom the psychologist has an emotionally or sexually intimate relationship. Any experience gained under such supervision will be disallowed. This two years of experience must be as a psychologist and in line with the applicant's major program of study for the doctoral degree as determined according to the procedure stated in 575:10-1-2(e). Applicants in the areas of clinical, counseling, and school psychology must have an internship experience. Applicants from psychology programs other than clinical, counseling, or school psychology, who assert the program's purpose to be the training of individuals to provide professional psychological services to the public, must have

an internship experience. Internships of applicants from psychology programs with titles other than clinical, counseling, or school psychology programs will be evaluated using the same rules as those used to evaluate applicants with degrees from either clinical, counseling, or school psychology programs, depending upon which the Board deems is the most appropriate corollary based upon the program's training goals and objectives. A predoctoral internship may be used to partially fulfill the two-year experience requirement for licensure. Under no circumstances may more than one year of predoctoral experience as an intern be accepted. The internship must be consistent with the major program of study in the doctoral program which was documented in writing to the Board by the accredited institution [see 575:10-1-2(e)]. Internships in clinical psychology require a full-time experience (40 hours per week) either for one calendar year, or for two years of half-time experience. Counseling and school psychology internships require either a full-time experience (40 hours per week) for one calendar year or one academic contract year or a half-time experience for two calendar years or two academic contract years. An academic contract year means the school year of the elementary or secondary school setting in which an intern is fulfilling the internship requirement. If the counseling or school psychology internship is completed in other than an elementary or secondary school setting, the one calendar year requirement shall apply.

(j†) General requirements for internships. Internships must be designed to provide a planned, programmed sequence of training experience. The primary focus and purpose of the internship must assure breadth and quality of training. An internship is an organized program of planned experiences in contrast to simply supervised experience or on-the-job training. The internship must provide training in a range of assessment and treatment activities conducted directly with patients or clients seeking psychological services. At least 25 percent of the trainee's time must be in direct patient or client contact. Internship training is at the post-coursework, post candidacy, post-clerkship, post-practicum, post-externship level. A written statement or brochure must be available which describes the goals and content of the internship, states clear expectations for the quantity and quality of trainee's work, and is furnished to prospective interns.

(j†) Supervision in internships. A clinical or counseling psychology internship agency must have a clearly designated staff psychologist, who is responsible for the integrity and quality of the training program and who is licensed. In a counseling or clinical psychology internship, the basic supervision must be conducted by a staff psychologist who is trained in the applicant's major program of doctoral study, or a closely related program, and who is licensed. While additional experience with professionals in other disciplines is highly desirable, it is required that clinical and counseling psychology interns have experience with multiple (three or more) supervisors who are licensed as psychologists. Supervision of counseling and clinical psychology interns shall consist of an average of at least 10 percent of the full-time or half-time intern's week. At least half of the supervision of clinical and counseling psychology interns must be regularly scheduled, formal,

face-to-face, individual supervision by one or more licensed psychologists with the intent of dealing with psychological services rendered directly by the intern. The remaining half of the supervision may be conducted individually or in a group by licensed psychologists or by other licensed professionals as appropriate to the internship experience. The counseling or clinical psychology internship agency should ordinarily have a minimum of two interns at the internship level of training during the applicant's training period.

(k†) School psychology internships. School psychology internships must have a clearly designated psychologist who is responsible for the integrity and quality of the training program and who is licensed. In a school psychology internship, the basic supervision must be conducted by a psychologist who is trained in the applicant's major program of doctoral study, or a closely related program, who is licensed, and who may be employed in a setting other than the school district in which the internship is situated. While additional experience with professionals in other disciplines is highly desirable, it is required that school psychology interns have experience with multiple (two or more) supervisors who are licensed as psychologists. Supervision of school psychology interns shall consist of an average of at least 10 percent of the full-time or half-time intern's week. At least half of the supervision of school psychology interns must be regularly scheduled, formal, face-to-face, individual supervision by one or more licensed psychologists with the intent of dealing with psychological services rendered directly by the intern. The remaining half of the supervision may be conducted individually or in a group by licensed psychologists or by other licensed professionals as appropriate to the internship experience.

(l†) Postdoctoral experience. At least one year of the two-year experience requirement must be postdoctoral experience as a psychologist and in line with the applicant's major program of doctoral study as determined according to the procedure stated in 575:10-1-2(e). The postdoctoral experience must be a full time (40 hours per week) for at least one calendar year (50 weeks), or a total of 2000 hours of appropriate experience, or equivalent, for a period not to exceed three years, except in school psychology. The postdoctoral experience in school psychology must be full time (40 hours per week) for at least one calendar year (50 weeks) or one academic contract year, or a total of 2000 hours (or the number of hours in an academic contract year) of appropriate experience, or equivalent, for a period not to exceed three years. The postdoctoral experience must be under the supervision of a licensed psychologist(s) who was trained in the applicant's major program of doctoral study, or a closely related program, and who is currently engaged in rendering psychological services relevant to that training. The applicant must have received and accumulated 75 hours of regularly scheduled, formal, face-to-face, individual supervision from his/her supervisor(s) reasonably distributed throughout each 12 months of the postdoctoral experience. The postdoctoral experience does not have to be in a private setting.

(m†) Examination process. The full examination for licensure shall consist of two component examinations:

Permanent Final Adoptions

(1) **Objective examination.** An objective examination in basic psychology, known as the Examination for Professional Practice in Psychology ("EPPP").

(2) **Jurisprudence examination.** A jurisprudence examination based on the Rules of the Board, Psychologists Licensing Act, Code of Ethics and applicable Oklahoma Mental Health Law.

~~(nñ)~~ **Passing scores on examinations.** An applicant is deemed to have passed the objective examination if he/she has obtained at least the minimum pass point designated by the developer of the examination. An applicant is deemed to have passed the jurisprudence examination if he/she has 70 percent of the total items correct.

~~(on)~~ **Notification of results.** All applicants will be notified by mail of the results of each component examination within 30 days of the examination date. At the request of the applicant, specific information about his/her performance on any component examination will be provided to the extent the integrity of the exam is not violated.

~~(pø)~~ **Re-examination.** If either of the two component examinations is failed a total of four times, the application process shall cease. The former applicant may reapply for licensure by submitting a new application for consideration by the Board in accordance with the requirements to become licensed as a psychologist.

~~(qp)~~ **Waiver of portion of examination or re-examination.** Failure on either portion of the licensing examination will be considered failure of the entire examination for purposes of licensing; however, satisfactory performance on the objective examination or jurisprudence examination will be grounds for waiver of that portion of the examination for future re-examination.

~~(rø)~~ **Licensing by reciprocity.** Applicants for licensure under the reciprocity provisions of this act may only be licensed if they meet the requirements in 59 O.S. Section 1366(2).

~~(s)~~ **Post-Military Service Applicants.**

(1) The Board shall consider the equivalent education, training and experience completed by an applicant while the applicant was a member of the United States Armed Forces or Reserves, National Guard of any state, the Military Reserves of any state, or the Naval militias of any state, and apply it in the manner most favorable toward satisfying the qualifications for licensure.

(2) While examining the education, training and experience completed by an applicant while the applicant was a member of the military as described in the preceding paragraph, the Board may consider, but is not limited to, determinations made by institutions of higher education based on the Guide to the Evaluation of Educational Experiences in the Armed Services, published by the American Council on Education.

575:10-1-3. Private Practice Under Supervision

(a) **Purpose.** The purpose of this provision is to provide an opportunity for individuals to fulfill the experience requirements for licensure in psychology in other than academic, governmental, or institutional settings. The applicant for such

approval is considered to be requesting entrance into the established practice of a licensed psychologist for the purpose of gaining supervised experience.

(b) **Not an independent practitioner.** The applicant, if approved to conduct Private Practice Under Supervision, is not authorized to represent him/herself as an independent practitioner of psychology to the public.

(c) **Application; eligibility; approval.** Application for approval to Practice Psychology Under Supervision shall be made in the same manner, and on the same forms that are used to apply for licensure. A statement, signed by both the applicant and proposed supervisor, must be submitted with the application. The statement shall contain an explicit statement indicating that the supervisor agrees to supervise the practice of psychology of the applicant, and that the supervisor has read, understands and agrees to the provisions of the law with respect to practice under supervision, 59 O.S., Section 1353(d) to wit, that the supervisor accepts complete and full responsibility for the psychological activities and services of the applicant. Permission to practice under supervision will be granted only after the applicant has completed all requirements for the doctorate and the Board has been so notified by the university awarding the degree. Approval will be extended only to those whose training and experience would qualify them for licensure after completion of the experience requirements of the law, except for the second year of supervised experience as required in 575:10-1-2(g), and has been approved by the Board or a committee selected by the Board to sit for examination. Approval for practice under this provision shall be for a period of one calendar year dating from the date of approval by the Board of the application for Private Practice Under Supervision or until date of licensure. Extension of this approval shall be considered only upon written request of the supervisee and such request must be received prior to the end of the one-year period of previous approval.

(d) **Written agreement between applicant and supervisor.** Applications for approval to engage in Private Practice Under Supervision shall include a written agreement, co-signed by the applicant and his/her supervisor, describing the terms of the supervisory arrangement. Said terms must include supervision time amounting to at least 90 minutes weekly and a statement of fees charged for supervisory time, the extent of the applicant's services rendered to the public while practicing under supervision, and an evaluation of the quality of the applicant's professional and interpersonal skills for rendering services to the public.

(e) **Notice of decision.** The individual applicant for approval for Private Practice Under Supervision shall be notified in writing as to the decision of the Board or committee with respect to said application.

(f) **Preparation and distribution of certain announcements forbidden.** Persons approved for the private practice under supervision are not authorized to represent themselves as independent practitioners of psychology. Preparation or distribution of announcements of practice, independent telephone listings, or other such notices shall be in violation of the authorization to practice under supervision and will lead

to automatic revocation of the approval for practice under supervision.

(g) **Terminate responsibilities and obligations.** Any individual practicing psychology under supervision must take the Examination for Professional Practice in Psychology (EPPP) and Jurisprudence Examination no later than one calendar year after the day permission to practice under supervision is granted. Failure to take the examination within the designated time period shall result in automatic revocation of the approval to practice under supervision. An individual approved for Private Practice Under Supervision who fails all or part of the examination for licensure, may be granted an extension of the approval for Private Practice Under Supervision; however, such approval shall be automatically revoked if the individual does not attempt re-examination within one calendar year from the date of the completion of the last part of the examination which was previously attempted. Under unusual circumstance, such as military service or major illness, an applicant may be granted an extension of the approval to practice until the next examination which the supervisee might reasonably be expected to attempt. If the applicant fails any of the three portions of the licensing examination three times then approval for practice under supervision will automatically be revoked.

(h) **Requirements for supervisors.** Permission to practice psychology under supervision shall be granted to applicants who otherwise qualify, only if the supervisor for their practice is:

- (1) A psychologist who has been licensed for two years and in good standing.
- (2) Trained in the same major program of study as the applicant's doctoral training and who will supervise the candidate in work consistent with that major program of study.
- (3) Currently engaged in a private practice rendering psychological services to the public on at least a 10-hour weekly basis.
- (4) Is not a member of the psychologist's immediate family nor an individual with whom the necessary level of objectivity can be maintained. This will include, but is not limited to, a spouse, children, siblings, and parents or anyone with whom the psychologist has an emotionally or sexually intimate relationship.

~~(i) **Board members not eligible.** Board members shall not be authorized as supervisors under this provision.~~

(i) **Supervisor's responsibility.** As per 59 O.S., Section 1353(6), the supervising psychologist accepts full and complete responsibility for all professional conduct of the supervisee; all professional responsibility resides with the supervisor, not with the supervisee. The supervisee will be considered to have joined the practice of the supervisor. The supervisory psychologist will normally be expected to accept no more than three supervisees under the provision of this section. Exceptions to this limit may be approved by the Board if the Board determines that adequate supervision will be provided by the proposed relationship.

575:10-1-7. Hiring of psychological technicians by psychologists

(a) **Application to hire a psychological technician.**

(1) A licensed psychologist may apply for approval to employ a technician by submitting the following information in writing to the Board of Examiners:

- (A) the name and address of the proposed technician, and
- (B) the qualifying academic training and work experience of the technician, and
- (C) the specific activities and services to be perform by the technician, and
- (D) the arrangements and extent of continuing supervision to be provided.

(2) The information in (1) of this subsection must be supplied by submitting:

- (A) an agreement form
- (B) a vita, and
- (C) complete academic transcripts for the technician.

(3) The licensed psychologist must also pay the one hundred and fifty dollar (\$150.00) fee for hiring the technician and the one hundred dollar (\$100.00) renewal fee.

(b) **Non-exempt hospital or clinic settings.** Psychologists working in settings other than state agencies must also provide the Board with a written statement from the appropriate administrator(s) acknowledging the psychologist's authority to hire and, if necessary, to terminate the technician's employment, and to regulate the activities and services of the technician. The written statement must also indicate that hospital or clinic policies will not prevent the licensed psychologist from abiding by all of the conditions specified in this section.

(c) **Use of certain individuals as psychological technicians forbidden.** Psychologists may not hire or continue to use as psychological technicians, members of their immediate families or any other person whose employment might affect detrimentally the psychologist's objectivity. This will include, but is not limited to, spouses, children, siblings, parents, or anyone with whom the psychologist is having an intimate emotional or sexual relationship.

(d) **Limitation on activities of psychological technicians.**

(1) All activities and services performed by a psychological technician must be under the direct and continuing professional supervision of the licensed psychologist. The licensed psychologist must notify the Board and all concerned parties in writing should conditions change so that the licensed psychologist is no longer assuming the role of supervisor. In such case, the status of the individual who was a psychological technician and the psychological activities performed by that individual must cease since the condition of the agreement are no longer being met.

(2) Activities performed by the technician are not to be used to fulfill postdoctoral requirements for licensure.

(3) Activities performed by the technician are not to be used to develop a private practice for the technician.

(4) Activities and services exempt from licensure are limited to those activities of the technician that provide

Permanent Final Adoptions

assistance to the licensed psychologist in the conduct of that psychologist's practice.

(5) Work assignments shall be commensurate with the skills of the technician and procedures shall under all circumstances be planned in consultation with the supervisor.

(6) Technicians shall work under the direction of ~~in the same physical setting as~~ the supervisor and provide services only at those times when the licensed psychologist is on the premises and available physically onsite or through telemedicine or direct telecommunications ~~available for~~ emergency consultations.

(7) ~~Psychological technicians who hold a master's degree in psychology or behavior analysis and who have achieved and maintain certification as a Board-Certified Behavior Analyst (BCBA) as approved by the Behavior Analyst Certification Board (BACB), may be exempted from the requirement that they shall work in the same physical setting as the supervising psychologist. All other limitations on activities and services performed by a BCBA-qualified psychological technician remain in force, and this exemption is limited to services provided for clients of the Developmental Disabilities Services (DDS), Oklahoma Department of Human Services. A copy of the BCBA certificate should be included annually with the application to renew the employment of the psychological technician with BCBA certification. At least one hour of supervision by the Licensed Psychologist is required for each ten hours of billed service by the BCBA Psychological Technician. This supervision must include face to face contact with all clients sufficient to plan effective and appropriate services and to define procedures. As appropriate, supervision may also include:~~

~~(A) Observing the BCBA Psychological Technician providing direct services to clients.~~

~~(B) Observing the BCBA Psychological Technician training direct contact staff.~~

~~(C) Observing direct contact staff implementing the services trained by the BCBA Psychological Technician.~~

~~(D) Reviewing client records and data that reflect the services of the BCBA Psychological Technician.~~

~~(E) Reviewing materials developed and written by the BCBA Psychological Technician.~~

~~(F) Face to face and phone discussion of client cases with the Psychological Technician.~~

~~(G) Phone, face to face, and onsite contact during behavioral emergencies.~~

~~(H) Co-attendance at inter-disciplinary team meetings.~~

(8) ~~The following are exceptions to rule 575:10-1-7(d)(7)~~

~~(A) The board will not require the BCBA certification for psychological technicians that have been continuously employed by a DDS contracted psychologist, and who were previously reviewed/approved by the board under the previously named QMRP exemption, on or before January 15, 2010. The date of approval by the Board must be January 15, 2010~~

~~or before. The psychologist must apply for this exception by November 1, 2015. This exception is applied to the psychologist, not the technician. Once the technician is no longer in the psychologist's employment, he or she will have to meet the requirement of 575:10-1-7(d)(7) to be approved to work for a different licensed psychologist.~~

~~(B) Any current psychological technician reviewed/approved by the Board on or after January 16, 2010, and any new psychological technicians hired on or before January 15, 2016, must be a BCBA as approved by the BACB by January 15, 2018. The psychologist must apply for this exception on or before January 15, 2016. If the psychologist that hired a psychological technician that was approved under this exemption does not submit their psychological technician's BCBA certificate to the Board by January 15, 2018 his or her previous approval under this exemption is no longer valid and he or she is no longer Board approved to work as a psychological technician.~~

~~(C) At least three hours of supervision by the Licensed Psychologist is required for each ten hours of billed service by the psychological technician with off site exemption approved under 575:10-1-7(d)(8)(A) or 575:10-1-7(d)(8)(B). This supervision must include face to face contact with all clients sufficient to plan effective and appropriate services and to define procedures. As appropriate, supervision may also include:~~

~~(i) Observing the Psychological Technician providing direct services to clients.~~

~~(ii) Observing the Psychological Technician training direct contact staff.~~

~~(iii) Observing direct contact staff implementing the services trained by the Psychological Technician.~~

~~(iv) Reviewing materials developed and written by the Psychological Technician.~~

~~(v) Face to face and phone discussion of client cases with the Psychological Technician.~~

~~(vi) Phone, face to face, and on site contact during behavioral emergencies.~~

~~(vii) Co-attendance at inter-disciplinary team meetings.~~

(7) A psychological technician shall be under the direction and supervision of a licensed psychologist who is employed by the same organization/company/private practice in which the psychological technician is employed. Supervision of the psychological technician may not be delegated to another licensed psychologist not approved by the Board, regardless if the psychologist is employed in the same organization/company/private practice as the supervisor.

(A) Every supervisor of a psychological technician shall be responsible for supervising the psychological functions performed by the psychological technician and ensuring that the extent, type, and quality of the

psychological functions performed by the technician are consistent with the supervisor's training and experience, and that the technician complies with the provisions of the code, the Board's regulations, and the standards established by the American Psychological Association.

(B) The supervisor shall inform each client or patient prior to the rendering of services by the psychological technician that the technician is under the direction and supervision of the supervisor as an employee and that the supervisor shall have access to the patient's chart in fulfilling his/her supervision duties.

(C) The supervisor will have personal contact with all clients and patients in order to plan effective and appropriate service and define procedures that the psychological technician will perform.

(D) The psychological technician will only perform specific activities and services consistent with the technician's skills and training as approved by the Board. Technicians without a Master's level degree in the field of mental health will be limited to performing psychological or neuropsychological tests (administration and scoring) defined ahead of time by the supervisor. Technicians with Master level degrees in the field of mental health can perform psychological procedures outside of test administration and scoring that has been previously approved by the Board on record, while under supervision. The supervisor shall be solely responsible for interpretations of psychological assessments. Psychological technicians who have achieved and maintain certification as a Board Certified Behavior Analyst (BCBA) or who have completed the DDS Certification Program are able to provide services to individuals served by the Department of Human Services, Developmental Disabilities Services (DDS).

(E) The supervisor will plan all procedures to be used by the psychological technician and inform the technician of those plans.

(F) The supervisor will make all public announcements of fees and services. In addition to the supervisor, the psychological technician may consult with other professionals as part of the multidisciplinary process in the provision of services.

(G) The supervisor shall be responsible for all psychological services performed by the technician.

(H) The supervisor shall be available to the technician during the time the technician is performing psychological functions. The availability can be in-person, by telephone, or by other appropriate telecommunication technology.

(I) The supervisor shall ensure that the supervisee thoroughly understands the plan in the event of a crisis or emergency.

(J) The supervisor shall provide a minimum of one (1) hour of individual supervision for each 10 hours of billed services to the psychological technician.

(98) The Board can approve or deny any application for psychological technician at the Board's discretion.

(e) Supervisory responsibility of licensed psychologist; maximum number of technicians allowed.

(1) The licensed psychologist is accountable for the planning, course, and outcome of the work of a psychological technician. The conduct of the supervision shall insure the professional, ethical, and legal protection of the client and the technician.

(2) The supervisor shall have competence in the specific area of practice in which supervision is being given.

(3) The supervisor shall have sufficient face-to-face contact with all clients to plan effective and appropriate services and to define procedures.

(4) The progress of the work shall be sufficiently monitored to insure that full professional responsibility can be accepted by the supervisor for services rendered.

(5) The supervisor shall establish and maintain a level of supervisory contact consistent with professional standards, and be fully accountable in the event that ethical or legal issues are raised.

(6) The maximum number of psychological technicians that a psychologist may hire is ~~two~~ ~~four~~, ~~except as provided below: A psychologist may hire a third or fourth psychological technician that is a Board-Certified Behavior Analyst (BCBA) if all of the following conditions are met.~~

(A) All technicians employed by the psychologist hold a BCBA certification. No psychological technician can currently be under the approval granted in 575:10-1-7(d)(8)(A) or 575:10-1-7(d)(8)(B);

(B) The psychologist currently has two psychological technicians that both hold BCBA certifications as approved by the Behavior Analyst Certification Board (BACB) as defined in 575:10-1-7(d)(7);

(C) The psychologist has five or more years of experience supervising psychological technicians serving the Developmental Disabilities (DDS) population (previously approved through the QMRP exemption); and

(D) The psychologist currently holds certification as a BCBA approved by the BACB. However, psychologists with ten (10) years of experience supervising psychological technicians working with the DDS population (previously QMRP psychological technicians) are exempt from this requirement.

(7) The licensed psychologist assumes full responsibility for the activities and services of the psychological technician.

(8) The technician must have the background, training, and experience appropriate to the functions performed. The supervisor is responsible for determining the adequacy of the technician's preparation and must be adequately trained to supervise any function performed by the technician.

(9) An ongoing record of supervision shall be maintained which details the types of activities in which the

Permanent Final Adoptions

~~assistant is engaged, the level of competence in each, and the type and outcome of all procedures.~~

(f) **Representation to the public.**

- (1) Public announcement of services and fees, and contact with the lay or professional community shall be offered only by or in the name of the licensed psychologist.
- (2) The technician's name is not to appear on any announcements, telephone listings, or other such notices.
- (3) Users of the technician's services shall be informed as to the technician's qualifications and functions.
- (4) The supervisor shall not permit the technician to represent him/herself as an independent practitioner to the public.

(g) **Psychologist's responsibility for financial arrangements.**

- (1) The licensed psychologist assumes responsibility for all financial arrangements relating to the supervision of a psychological technician.
- (2) Setting and collecting of fees shall remain the sole domain of the supervisor except in non-governmental, non-charitable hospitals or clinics in which fees are determined by administrative policy. Under no circumstances, however, shall the technician be responsible for setting or collecting fees.
- (3) Employment of a technician on a fee-for-service or a fee-splitting basis is not acceptable.
- (4) Technicians shall be employed on a salaried or hourly basis, i.e., a predetermined, set, weekly or monthly rate.

575:10-1-8. Continuing professional education for psychologists

(a) **Purpose.** The purpose of continuing professional education requirements for psychologists is to assure that licensees update and advance their skills such that the public shall benefit from the most current and effective standards of professional practice. To further the goal of public benefit, all psychologists are encouraged to fulfill a portion of their continuing professional education requirements in the areas of ethics, professional conduct, and related legal issues. A minimum of three (3) of the twenty (20) continuing professional education credits required for yearly licensure renewal shall be earned by licensees with HSP certification in activities that are specific to ethics, relevant laws and legal issues, and/or applicable professional practice guidelines and standards.

(b) **Credits required for annual license renewal.** The minimum of twenty (20) credits of acceptable continuing professional education will be required for renewal of a license to practice psychology for the following year (one clock hour equals one credit). The continuing professional education year is a calendar year and all continuing professional education hours must be submitted online on the Board's official website by the close of business on December 31. For licenses issued after January 1 of a given year, the required credits of continuing professional education will be adjusted for the initial continuing professional education year only, to require 1.5 credits of continuing professional education per full month of licensure for the initial renewal of the license. Continuing

professional education hours attained in a calendar year in excess of the minimum annual requirements may be carried forward for credit in the succeeding year up to twelve (12) hours of credit.

(c) **Preapproval of continuing professional education activities required.**

- (1) Continuing professional education credits may be granted for acceptable educational activities at the graduate level which are preapproved by the Board, or by a committee appointed by the Board. No credits will be granted for any activities or categories of activities that have not been preapproved.
- (2) A provider of educational activities may apply to the Board for preapproval of an activity. The provider shall be responsible for compliance with the standards for approval of the activity, verification of participation, and for the provision of the necessary verification of attendance forms to all participants. This verification of attendance form shall include:
 - (A) The participant's name.
 - (B) The presenter's name, academic degree, profession, and whether licensed.
 - (C) The presentation topic.
 - (D) The program sponsor agency.
 - (E) The location of the presentation.
 - (F) The dates of presentation.
 - (G) The total number of clock hours presented.

(d) **Exceptions to the requirements.** Exceptions to the requirements of (c) of this section may be granted at the discretion of the Board for programs presented by recognized sponsors whose programs have been preapproved by the Board. The university academic hour is equal to fifteen (15) credits, and shall be verified by the presentation of an official graduate transcript showing course or audit credits. The licensee is ultimately responsible for providing all information necessary for the Board to make final determination concerning the acceptability of any requested continuing professional education credits.

(e) **Fee for preapproval.** Providers of educational activities may be charged a fee for the review and preapproval of their program. This fee shall be set by the Board.

(f) **Kinds of educational activities for which credit may be received.** Continuing professional education credits may be earned through formal organized learning experiences, scientific publications, attendance at regularly scheduled meetings of international, national, regional, or state professional associations, or through presentations to appropriate groups not related to the psychologist's regular employment. The same kinds of educational activities, when the subject matter is so designated, may be used to fulfill the mandatory three (3) hours of credit in the areas of ethics, relevant laws and legal issues and/or applicable professional practice guidelines and standards. Other acceptable activities include attendance at Board meetings and serving the Board as an appointed investigator, tutor, practice monitor or supervisor, ~~or oral examination committee member.~~

(g) **Credits allowed.** Continuing professional education activities, whether received or presented by the psychologist,

must be targeted toward a professional audience. In those instances when the psychologist is teaching in programs such as institutes, seminars, workshops, and conferences which have been granted preapproval by the Board, three (3) credits will be given for each one (1) hour that is taught, provided that such teaching is not a part of the psychologist's regular employment. Publication of a scientific book or chapter in a book, or publication of a scientific article in a refereed journal, shall be equal to ten (10) credits. Examination by the American Board of Professional Psychology shall be equal to twenty (20) credits.

(h) **List of approved Continuing Professional Education Recognized Sponsors.** This list shall be reviewed and approved by the Board.

(i) **Verification of continuing professional education.** Continuing professional education records shall be maintained in the Board files for two years. Individual psychologists are to keep verification of all continuing professional education credits claimed for a period of two years. In February of each year, the Board will randomly select from two (2) to twenty-five (25) percent of the number of psychologists on active status the previous year for an audit of their claimed continuing professional education credits. These selected psychologists must then provide the Board with verification of all credits claimed on their continuing professional education form within thirty (30) days following receipt of the audit notice.

(j) **Board audit.** The Board may, at its discretion, audit and require verification of any continuing professional education credits claimed which it may consider questionable or fraudulent. In either condition, selected psychologists who do not furnish verification of claimed continuing professional education credits to the Board within thirty (30) days following receipt of the audit notice shall as of December 31 have their licenses invalidated for the practice of psychology, with possible suspension or revocation of the license to practice psychology.

(k) **Late fee for late filing.** A psychologist who has not completed and reported the required twenty (20) credits of continuing professional education by December 31, shall pay a late fee which will be set by the Board.

(l) **Petition for relief for previous years.** Under the extraordinary circumstances of incapacitation or serious illness of the licensed psychologist, or of an immediate family member, and upon the presentation of acceptable evidence thereof, a psychologist who is otherwise in full compliance with all renewal requirements, may petition the Board for partial or complete relief of the previous year's continuing professional education requirement. A petition requested under these circumstances must be filed by November 1. There shall be no fee for a psychologist who petitions the Board for compassionate relief of continuing professional education requirements under this subsection.

(m) **License rendered invalid for failure to comply.** A licensed psychologist who is not in compliance with the required twenty (20) credits (hours) of continuing professional education by December 31 and/or who has not completed and reported his/her continuing professional education hours by December 31, and who has not petitioned the Board for compassionate relief under (l) of this section, shall as of December 31 have his or her license invalidated for the practice of

psychology, with possible suspension of the license to practice psychology.

ANALYSIS:

The proposed revision implements an amendment to the Oklahoma Higher Learning Access Program - Oklahoma's Promise statutes as passed in SB 137 of the 2015 Oklahoma legislative session. The amendment relates to the determination of financial eligibility of students applying for the program in the 8th, 9th or 10th grade. The new statutory language requires the State Regents to review the financial eligibility of the student if the income of the student's parent(s) includes income from either non-taxable military benefits or Social Security benefits due to the death or disability of a parent (Social Security retirement benefits are not included in the review). If the review determines that the total income of the parent(s), excluding non-taxable military benefits and Social Security benefits due to the death or disability of a parent, does not exceed \$50,000, then the student will be eligible to enroll in the program. The change is estimated to have a small fiscal impact on the program, resulting in approximately 25 additional scholarship recipients annually at a cost of about \$110,000.

SUBCHAPTER 23. OKLAHOMA HIGHER LEARNING ACCESS PROGRAM

610:25-23-2. Eligibility of participants

Eligibility to participate in the program must be established by both the student and his/her parent(s), custodial parent(s), or guardian(s). Students enrolled in the eighth, ninth or tenth grade at a public or private school and whose parents' income meets the financial need criteria are eligible to apply to become a program participant. Students educated by other means who are between the ages of thirteen (13) and fifteen (15) are eligible to apply to become a program participant. Eligibility requirements to participate in the program include the following:

- (1) The student must be a resident of the state of Oklahoma or be enrolled in a school district located in this state that serves students who reside in both this state and an adjacent state pursuant to a contract as authorized in Section 5-117.1 of Title 70 of the Oklahoma Statutes; and
- (2) The student's parent(s), custodial parent(s), or guardian(s) must establish financial need.

(A) To meet the program's financial need criteria, the income of the student's parent(s) from taxable and nontaxable sources shall not exceed \$50,000 per year at the time the student applies for participation in the program. A student who was adopted while in the permanent custody of the Department of Human Services, in the court-ordered custody of a licensed private nonprofit child-placing agency, or federally recognized Indian tribe, as defined by the federal Indian Child Welfare Act, shall not be subject to the determination of financial qualification at the time the student applies for participation in the program.

(B) Parents of students making application to the program must use one of the following options to establish financial need eligibility:

(i) Documentation of their most recent calendar (tax) year income. Parents of tenth-grade applicants may use the calendar (tax) year income that coincides with the spring semester of the tenth-grade if the application is submitted by the required deadline; or

(ii) Documentation of current yearly income from an officially approved application for free or reduced price school meals or other state or federal means-tested programs as determined by the State Regents. The State Regents may limit use of this option to pilot projects as determined by the State Regents. If requested by the State Regents, parents may be required to provide additional documentation of income.

(iii) The Oklahoma State Regents for Higher Education shall review the determination of financial need eligibility of the student if the income from taxable and nontaxable sources of the student's parent(s) includes income received from nontaxable military benefits or income received from the federal Social Security Administration due to the death or disability of the student's parent(s). If the income from taxable and nontaxable sources of the student's parent(s), excluding

income received from nontaxable military benefits or income received from the federal Social Security Administration due to the death or disability of the student's parent(s), does not exceed Fifty Thousand Dollars (\$50,000.00) per year, the student shall be determined to have met the financial need eligibility [70 O.S. § 2605(D)(3)]

(C) For students that are subject to court-ordered joint custody arrangements, the OSRHE shall use guidelines consistent with regulations for federal Title IV student financial aid programs to determine which parent(s) shall meet the financial need criteria.

ANALYSIS:

One of the proposed rule revisions is due to an amendment to the Oklahoma Tuition Equalization Grant (OTEG) statutes in Senate Bill 414 of the 2015 Oklahoma legislative session. The amendment was necessary to comply with the United States Department of Education (USDE) "state authorization" regulations that went into effect on July 1, 2015. For a postsecondary institution to be eligible to participate in federal student financial aid programs, the federal regulations require the institution to have certain types of state oversight and approvals. One requirement is that each state must have a process to review and act appropriately upon complaints concerning the institution. To comply with this provision, the rule revision reflects the new statutory language in SB 414 directing OTEG-eligible institutions to adhere to

the complaint process administered by the Oklahoma State Regents for Higher Education.

The second policy revision corrects wording related to the \$50,000 family income limit to be consistent with the existing statutory language.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2016:

SUBCHAPTER 31. OKLAHOMA TUITION EQUALIZATION GRANT PROGRAM

610:25-31-3. Eligibility Requirements

To be eligible for the Oklahoma Tuition Equalization Grant, an applicant shall:

- (1) Be an Oklahoma resident.
- (2) Have enrolled full-time as an undergraduate at an eligible private or independent institution. For regular fall and spring semesters, full-time enrollment shall be considered a minimum of 12 semester credit hours or its equivalent.⁵
- (3) Meet the family income eligibility level of ~~less~~not more than \$50,000 from both taxable and non-taxable sources for the most recently completed calendar/tax year.
- (4) Pay more tuition than is required at a comparable public institution of higher education.
- (5) Maintain the minimum standard of academic performance as required by the enrolling private or independent institution.

610:25-31-5. Refunds, ~~and~~ institutional liability and complaint process

(a) Institutions will report to the Oklahoma State Regents for Higher Education any awards that the institution is aware are based on inaccurate application data. If funds have been disbursed to a student, and the student reported incorrect data unknown to the institution at the time of eligibility certification, the student is responsible for the return of any funds for which he/she is not eligible to receive. All refunds will be coordinated by the institution for return to the Oklahoma State Regents for Higher Education. The institution will place holds as allowed on other financial aid disbursements, future enrollments, release of transcripts, etc. in an effort to collect refunds if necessary. In the event Oklahoma Tuition Equalization Grant funds are disbursed to a student as a result of erroneous action by the institution, the institution is financially liable for the return of the ineligible funds. An institution's failure to submit refunds for which the institution is liable within a reasonable period of time could result in suspension or termination of the institution's eligibility for participation in the Oklahoma Tuition Equalization Grant program. Thirty days is

considered to be a reasonable period of time. The institution may appeal a finding of institutional liability.

(b) Eligible institutions shall adhere to the complaint process policies and procedures administered by the State Regents. The State Regents shall review and take action, as authorized, on complaints concerning eligible institutions.

The amendments will save the OSRC money by reducing the publication frequency while improving actual notice of elections for commissioner-positions by providing for additional, modern, electronic notice. As a result of public comment, one publication in a legal newspaper was retained, along with the electronic notice. Other amendments simplify the election process.

This proposed rulemaking action allows OSRC to deny the use of public access areas based on expected adverse impacts. Additionally, there is a requirement that commercial operators shall track and annually report to the OSRC on a per month basis the number of their customers per commercial float area from May through September.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2016:

SUBCHAPTER 1. GENERAL PROVISIONS AND LICENSING

630:10-1-5. Commercial licensing procedures, requirements, and annual use fees

(a) The statutory annual river use license fee per commercially owned and operated flotation device shall be paid at the time of licensing.

(b) The license required on commercial ~~float~~ operations shall be an annual license covering a calendar year. Licenses shall be properly displayed on each flotation device prior to its use on the river.

(c) Applications for new float licenses, ~~not previously held by a commercial float operator~~, may be filed with the OSRC in January of each year. Commercial float operators shall file applications to renew their existing licenses during the month of September each year.

(1) Any commercial float operator that fails to submit a renewal application in September shall only be entitled to renew 85% of the previous number of licenses, and the other 15% shall be released in January of the following year as new licenses. No renewal application shall be accepted after November.

(2) Any commercial float operator that applies to renew his licenses must pay the statutory annual use fees, and pay or complete any outstanding OSRC obligations, by the last working day of December or the application shall be denied and the number of licenses released as new licenses in January.

(3) Any person may apply in January for new commercial flotation device licenses which may be available, up to the number provided in 630:10-1-7. The OSRC shall process the applications, divide the numbers of licenses among the proper applications and issue them in February.

(4) Except for temporary licenses, new licenses shall not be issued unless the number of licenses renewed in the previous year was below the number authorized in 630:10-1-7.

(5) Use of public access areas owned or controlled by the OSRC may be denied by the Administrator based on expected adverse impacts to the public use areas, on historical usage and regulatory compliance considerations and on the user's cooperation with other users.

(d) Application for such licenses shall be made on the form prescribed by the OSRC which shall include:

(1) The name and address of the commercial float operation;

(2) The name and address of the owner or owners thereof;

(g) The number of flotation devices to be licensed for commercial use shall be limited as provided in 630:10-1-7.

These reports are due by December 31 each year on the forms provided by the OSRC.

ANALYSIS:

This proposed rulemaking action is intended to satisfy the overwhelming public demands that the OSRC act to reduce drunken behavior on the Illinois River. A new Subchapter 3 is to be added in this regard, following a finding by the Commission that drunkenness is a public nuisance, with abatement to occur by limiting the concentration of alcoholic beverages to no greater than one-half of one percent alcohol measured by volume. An additional change would prohibit the possession of "Spirits" as defined by the Oklahoma Alcoholic Beverage Control Act on scenic rivers and public access areas. Finally, there are several amendments intended to clarify rules.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2016:

SUBCHAPTER 1. GENERAL PROVISIONS AND LICENSING

Permanent Final Adoptions

630:10-1-6. Suspend or revoke license or permit

(a) The OSRC retains the right to suspend or revoke the licenses or permits, in whole or in part, of any commercial float operation after the OSRC makes a finding that:

- (1) The operation has engaged in a pattern of willful violation of OSRC rules and regulations;
- (2) The ecosystem of the river section within which the particular flotation device is authorized to float is, or is in danger of being, harmed by the number of flotation devices authorized and it is necessary for the protection of that section of the river to revoke a certain number of licenses;
- (3) The health and safety of individuals floating on the river is threatened by the number of flotation devices currently licensed to float on a particular section of the river; or
- (4) The commercial operator has failed to comply with licensing requirements of rule 630:10-1-5

(b) Except in case of emergency as provided in the Oklahoma Administrative Procedures Act, the OSRC may make such a finding only after the commercial float operation has been given notice and the opportunity for a hearing.

630:10-1-9. Non-commercial fee procedures

(a) Private, non-commercial flotation devices and persons who use them are subject to such statutory fees that are in effect while they are floating on state-designated scenic rivers.

(b) The Administrator shall develop forms and procedures for the collection and administration of non-commercial fees.

(c) Businesses and commercial float operations ("collectors") may, on behalf of the OSRC, collect non-commercial fees and issue receipts or usage indicators when they are approved by the Administrator and use the current forms and procedures of the OSRC. Collectors shall remit the non-commercial fees they collect to the OSRC using the current forms and procedures. Collectors may retain a percentage of statutory non-commercial fees for administering the non-commercial fee process in the amount that is currently designated by the Commission but not more than 10%.

(d) River Rangers and the Administrator may require anyone using a non-commercial flotation device on or leaving the waters of a scenic river, who does not establish that they are exempt from statutory fees, to either show a receipt for or pay the statutory annual non-commercial fee.

SUBCHAPTER 2. PUBLIC ACCESS AREAS

630:10-2-4. Use of public access areas

(a) No person shall camp in a campsite under the jurisdiction of the OSRC without paying the fee established by this section.

(b) Camping fee receipts shall be retained by campers for the duration of their stay and shall be available for review upon request of the Administrator, a Camp Host or a River Ranger.

(c) Camping fees receipts entitle the named holder to use a campsite for the duration indicated on the receipt under the

conditions set forth in this section. All camping fee receipts are non-transferable.

(d) The daily camping fee covers use of campsites from 5:00 p.m. on the day of payment until 5:00 p.m. on the following day. Occupants shall vacate the campsite by removing their personal property from the campsite prior to 5:00 p.m. on the day they are scheduled to leave.

(e) The following activities are prohibited in all public access areas:

- (1) Excavation or leveling of the ground.
- (2) Hanging a propane or gas operated lantern on any tree or plant.
- (3) Leaving refuse or human waste at a campsite after departure.
- (4) Camping within 25 feet of a water hydrant or within 100 feet of a stream, river or body of water, except where otherwise designated.
- (5) Creating or sustaining unreasonable noise at a campsite as determined by the Administrator or a River Ranger considering the nature and purpose of the actor's conduct, the impact on other users, and other factors which would govern the conduct of a reasonably prudent person under the circumstances.
- (6) Constructing permanent camping facilities or dwellings.
- (7) Camping or parking vehicles outside of campsites and parking areas designated by the Administrator.
- (8) Parking a vehicle in, blocking access to, or occupying any designated campsites without having first paid camping fees for that campsite.
- (9) Using the utility services in a campsite or public access area without having first paid campsite or utility fees.
- (10) Connecting more than one water, electrical or sanitary connection per campsite or connecting to a utility which exceeds its manufactured design or capacity.
- (11) The placing or parking of 2 or more vehicles on any site not designed for more than one vehicle.
- (12) Camping longer than duration of stay noted on the camping receipt or exceeding the time limits set forth in this subchapter without prior written approval from the Administrator.
- (13) Entering or remaining in a public access area for any purpose other than camping or authorized day use activities, except fishing.
- (14) Possession or use of fireworks or firearms in public access areas. The Administrator may authorize fireworks on the 4th of July.
- (15) Fires may only be built in fire pits or cookers established by the Commission.

(f) Day use of public access areas for general recreational activities, such as swimming, picnicking, fishing, and boat launching is permissible without charge only during open hours as defined and posted by the Administrator.

(g) Entering or remaining in a day use area during closed hours is prohibited for any purpose, except for lawful fishing.

(h) Possession of an open container, or consumption, of alcohol (including Spirits, wine, beer and light or 3.2 beer) is prohibited in seven public access areas: Round Hollow, Todd,

US 62 Bridge Access on the Illinois River, US 412 Bridge Access on Flint Creek, Lake Francis Frances Dam Public Access Site, US 59 Illinois River Bridge Crossing Access Area, and Carnes Ford Area.

(i) Commercial operators who use a public access area to launch and retrieve flotation devices shall police the area and its gravel bars for litter after each use.

(j) Violations of OSRC regulations or state law may result in the suspension or revocation of camping authorization or day use privileges. Other penalties prescribed by law may also apply.

SUBCHAPTER 3. BOATER SAFETY

630:10-3-1. Life Jackets

All persons in a flotation device on a Scenic river must possess a U.S. Coast Guard-approved personal flotation device that is appropriately-sized and in good working order. All children 12 years of age and younger must wear their personal flotation device at all times while floating on a Scenic river.

630:10-3-2. Alcoholic beverages

The Scenic Rivers Commission has found that drunk and disorderly conduct on the Scenic rivers and in public access areas is a danger to the public and to the rivers, and is therefore a public nuisance for which the public has demanded abatement.

(1) Possession of any beverage defined as "Spirits" in the Oklahoma Alcoholic Beverage Control Act is prohibited on the Scenic rivers and in public access areas at all times. The Oklahoma Alcoholic Beverage Control Act defines "Spirits" to mean, in part, any beverage other than wine, beer or light beer, which contains more than one-half of one percent (1/2 of 1%) alcohol measured by volume and obtained by distillation, whether or not mixed with other substances in solution and includes those products known as whiskey, brandy, rum, gin, vodka, liqueurs, cordials and fortified wines and similar compounds; but shall not include any alcohol liquid completely denatured (2015 Title 37 O.S. Section 506).

(2) Wine, beer and light beer in the original, non-glass packaging may be possessed and consumed by persons 21 years of age or older while floating on scenic rivers and in the Stunkard, Peavine, Edmondson, New Combs Bridge, No Head and Echota public access areas.

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN,
THE FOLLOWING RULES ARE CONSIDERED
FINALLY ADOPTED AS SET FORTH IN 75 O.S.,
SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE
DATE OF NOVEMBER 1, 2016:**

SUBCHAPTER 7. INVESTIGATIONS

660:2-7-3. Investigative processes

(a) **Authority.** Investigations under the statutes administered by the Administrator shall be conducted by representatives designated and duly authorized for this purpose. Such representatives are authorized to exercise and perform the duties of their office in accordance with the statutes of the state of Oklahoma and the regulations of the Administrator, including administration of oaths and affirmations, in any matter under investigation by the Administrator. Nothing in this section shall prohibit the Administrator or his designee from expanding or restricting the scope of any investigation at any time during an investigation.

(b) **Investigative hearings.** Investigative hearings, as distinguished from hearings in individual proceedings, may be conducted in the course of any investigation undertaken by the Administrator, including inquiries initiated for the purpose of determining whether or not a respondent is complying with an order of the Administrator. Investigative hearings may be held before the Administrator, or his designee, for the purpose of hearing the testimony of witnesses and receiving documents and other data relating to any subject under investigation. Such hearings shall be non-public.

(c) **Subpoena to testify or produce records.** While the Administrator encourages voluntary cooperation in investigations, the Administrator, or his designee, at any stage of any investigation, may issue a subpoena ordering the person named therein to appear before a designated representative at a designated time and place, including the offices of the Department, to provide testimony by deposition, sworn statement or affidavit and/or to produce documentary evidence relating to any matter under investigation. Such testimony shall only be reduced to writing or otherwise recorded in any manner by the person taking the testimony, or under his direction.

(d) **Subpoena to grant access.** The Administrator may issue a subpoena to grant access to, to examine, and to copy documents, books or other records of any person being investigated.

(e) **Service.** Subpoenas shall be served in the manner provided by law.

(f) **Written examination.** The Administrator, or his designee, may issue an order requiring persons to file a report or statement, or answers in writing and under oath to specific questions, relating to any matter under investigation.

(g) **Rights of witness.** Any person under investigation, compelled to furnish information or documentary evidence, shall be advised of the purpose and scope of the investigation, subject to the confidentiality requirements provided by law. Any person required to testify shall be entitled to review a copy of the transcript of his own testimony, if transcribed, at the offices of the Department of Securities. Any person required to submit documentary evidence shall be entitled to retain or, on payment of lawfully prescribed cost, to procure a copy of any document produced by such person. Any party compelled to testify or to produce documentary evidence may be accompanied and advised by counsel, provided that such counsel is duly licensed to practice law by the Supreme Court of Oklahoma. Such counsel may question such person briefly at the

conclusion of the examination to clarify any of the answers such person has given.

(h) **Confidentiality.** Information or documents obtained by the Administrator and subpoenas issued in connection with an investigation shall be kept confidential and shall not be made available to the public, unless expressly ordered by the Administrator, disclosed pursuant to the provisions of Subchapter 9 of this Chapter or as otherwise provided by law.

(i) **Duty to Supplement.** Any person who has responded to a subpoena must supplement its response in a timely manner if the person learns that in some material respect the disclosure or response is incomplete.

SUBCHAPTER 9. INDIVIDUAL PROCEEDING PRACTICES AND PROCEDURES

660:2-9-3. Prehearing proceedings and processes

(a) **Scheduling.** As soon as is practicable after the request for hearing is received, but in no event later than thirty (30) days after the request for hearing is received, the Administrator, or the Hearing Officer, shall enter a scheduling order that is intended to expedite the disposition of the action and insure the fair, orderly and efficient conduct of the proceedings. The parties shall confer in person or by telephone and attempt to prepare a single agreed scheduling order to submit to the Administrator or the Hearing Officer. If the proposed scheduling order is acceptable to the Administrator, or the Hearing Officer, no scheduling conference need be held. If the parties are unable to agree, the Administrator, or the Hearing Officer shall issue an appropriate scheduling order or hold a scheduling conference in person or by telephone. The scheduling order ~~should~~ shall establish at least the following:

- (1) a schedule of discovery;
- (2) any limitations to be placed on discovery;
- (3) a preliminary list identifying all witnesses, documents and exhibits intended to be utilized at the hearing;
- (4) identification of any expert witness intended to be called;
- (5) the date for exchanging the documents and exhibits intended to be utilized at the hearing and the final list identifying all witnesses intended to be called at the hearing; and
- (6) such other matters as may aid in the disposition of the matter.

(b) **Discovery.**

(1) Discovery may be obtained by one or ~~both~~ more of the following methods:

(~~A~~) A party may serve a written request on any other party requiring the party to produce, within fifteen (15) days, for inspection and copying, any documents or tangible items that are in the possession, custody or control of the party and relevant to the subject matter of the individual proceeding and are not privileged. The number of requests to produce or permit inspection shall not exceed thirty (30) in number except by agreement of the party being required to

produce or by order of the Administrator, or Hearing Officer; ~~and/or.~~

(~~B~~) A party may serve on any other party a written request to admit, for purposes of the pending action only, the truth of any matters relating to facts, the application of law to fact, or opinions about either; and the genuineness of any documents described in the request. Copies of documents shall be served with the request to admit unless they have been or are otherwise furnished or made available for inspection and copying. The number of requests to admit for each party shall not exceed thirty (30) in number except by agreement of the party being required to respond or by order of the Administrator, or the Hearing Officer. Each matter upon which an admission is requested shall be separately stated. The matter is admitted unless, within fifteen (15) days after service of the request, or within such shorter or longer time as the Administrator, or the Hearing Officer, may allow, the party to whom the request is directed serves upon the party requesting the admission a written answer or objection addressed to the matter and signed by the party. If a matter is not admitted, the answer must specifically deny it or state in detail why the answering party cannot truthfully admit or deny it. A denial shall fairly meet the substance of the requested admission, and when good faith requires that a party qualify his answer or deny only a part of the matter of which an admission is requested, he shall specify so much of it as is true and qualify or deny the remainder. An answering party may not give lack of information or knowledge as a reason for failure to admit or deny unless he states that he has made reasonable inquiry and that the information known or readily obtainable by him is insufficient to enable him to admit or deny. The grounds for an objection must be stated. A party may not object solely on the ground that the request presents a genuine issue for trial.

(C) A party may take the testimony of a witness by oral deposition at the expense of that party. A party desiring to take the deposition of another party, or an employee thereof, shall serve written notice to the witness, or his counsel. The notice shall state the time and place for taking the deposition and shall be served at least three (3) days before the person is required to appear. A party desiring to take the deposition of a non-party witness shall serve the witness with a subpoena in accordance with 660:2-9-4. A copy of the notice or subpoena shall be served on all other parties to the proceeding by means specified in paragraph (h) below. Unless otherwise agreed by the parties or ordered by the Administrator or Hearing Officer, a deposition under this provision shall not last more than six (6) hours, exclusive of breaks, and shall be taken only between the hours of 8:00 a.m. and 5:00 p.m. on a day other than a Saturday or Sunday and on a day other than a legal holiday.

Permanent Final Adoptions

- (2) A party who has responded to a request for production or request to admit must supplement or correct its response:
- (A) in a timely manner if the party learns that in some material respect the disclosure or response is incomplete or incorrect, and if the additional or corrective information has not otherwise been made known to the other parties during the discovery process or in writing; or
- (B) as ordered by the Administrator, or the Hearing Officer.
- (c) **Motions in general.**
- (1) Unless otherwise permitted by these rules or by the Administrator, or the Hearing Officer, motions shall:
- (A) be made in writing and shall not exceed twenty (20) pages;
- (B) state concisely the question to be determined and be accompanied by any necessary supporting documentation; and
- (C) be served on all parties.
- (2) A response to a written motion shall be filed within ~~ten (10)~~ fifteen (15) days after receipt of the motion but no later than one day prior to the date and time of the hearing. A response to a written motion shall not exceed twenty (20) pages. A reply to a response to a written motion may be filed within five (5) days after receipt of the response but no later than the date and time of the hearing. A reply to a response to a written motion shall not exceed five (5) pages.
- (3) The Administrator, or the Hearing Officer, may allow oral argument if it appears necessary to the Administrator, or the Hearing Officer, for a fuller understanding of the issues presented.
- (4) The filing or pendency of a motion does not alter or extend any time period prescribed by this Subchapter or by an order of the Administrator, or the Hearing Officer.
- (d) **Motions for summary decision.** A party may move for summary decision as to any substantive issue in the case. The Administrator, or the Hearing Officer, may issue a summary decision if he finds that there is no genuine issue as to any material fact and that the moving party is entitled to prevail as a matter of law.
- (e) **Prehearing conference.**
- (1) Upon the request of a party or when the Administrator, or the Hearing Officer, believes it necessary or appropriate, a prehearing conference shall be held, as close to the time of hearing as is reasonable under the circumstances, to address the following matters:
- (A) simplification of issues;
- (B) the final list of witnesses and exhibits to be utilized at the hearing;
- (C) admissions and stipulations of fact;
- (D) stipulations regarding admission and authenticity of documents;
- (E) requests for official notice;
- (F) discovery disputes;
- (G) pending motions; and
- (H) other matters that will promote the orderly and prompt conduct of the hearing.
- (2) At the conclusion of the prehearing conference, a ruling or order shall be entered reciting the action taken. The order shall control the subsequent course of the action unless modified by a subsequent order. The order shall be modified only to prevent manifest injustice.
- (f) **Failure to participate, appear, comply or participate/cooperate.** A party's failure to participate in good faith in the preparation of a scheduling order or prehearing conference order; failure to comply with a scheduling order or prehearing conference order; failure to comply with a ~~written request for production or to appear to testify in a deposition under 660:2-9-3(b)~~ or cooperate in discovery; or failure to appear at, substantially prepare for, or participate in good faith in, any hearing or conference, may result in any of the following sanctions:
- (1) striking of any pleading in whole or in part;
- (2) ~~a preclusion~~ an order prohibiting a party from supporting or opposing designated claims or defenses, or from introducing designated matters in evidence;
- (3) an order directing that designated facts be taken as established for purposes of the proceeding;
- (4) staying the proceeding;
- (5) default judgment; or
- (6) such other order as the Administrator, or the Hearing Officer, may deem just and appropriate.
- (g) **Post prehearing conference.** If additional exhibits are discovered after the prehearing conference order is issued or after the date final documents and exhibits are exchanged, the party intending to use them shall immediately notify all other parties and furnish copies of the additional exhibits to such parties. If additional witnesses are discovered, all other parties shall be notified immediately and furnished the nature of the testimony along with the names and addresses of the witnesses. These additional exhibits or the testimony of the additional witnesses shall not be admitted at the hearing without the agreement of all parties or without a showing to the Administrator, or the Hearing Officer, that manifest injustice would be created if the exhibit or witness testimony were not permitted.
- (h) **Service and filing of papers.** Service of papers upon a party shall be made by personal delivery, regular first class mail, facsimile transmission or electronic mail. All papers required to be served by a party shall be filed with the Administrator within the applicable time for service. When a Hearing Officer is appointed, a person making a filing with the Administrator shall promptly provide to the Hearing Officer a copy of such filing. Papers filed with the Administrator shall be accompanied by a certificate stating the name of the person or persons served, the date of service, the method of service and the mailing address, facsimile telephone number or electronic mail address to which service was made, if not made in person.
- (i) **Signature and certification.** Every filing of a party represented by counsel shall be signed by at least one counsel of record and shall state that counsel's business address and telephone number. A party who is not represented by counsel

shall sign his individual name and state his address and telephone number on every filing. The signature of counsel or a party shall constitute a certification that:

- (1) the person signing the filing has read the filing;
- (2) to the best of his knowledge, information, and belief, formed after reasonable inquiry, the filing is well grounded in fact and is warranted by existing law or a good faith argument for the extension, modification, or reversal of existing law; and the filing is not made for any improper purpose, such as to harass or to cause unnecessary delay or needless increase in the cost of adjudication; and
- (3) If a filing is not signed, the Administrator, or the Hearing Officer, shall strike the filing, unless it is signed promptly after the omission is called to the attention of the party making the filing.

(j) **Computation of time.** A paper is filed when it is received by the Administrator. Unless otherwise specifically provided by the Securities Act or this Subchapter, computation of any time period prescribed by this Subchapter, or by an order of the Administrator, or the Hearing Officer, begins with the first day following the act or event that initiates the time period. The last day of the time period so computed is included unless it is a Saturday, Sunday, state holiday, or any other day when the Department's office is not open for public business, in which event the period runs until the end of the next business day. If a notice or other filing is served by mail and the party served is entitled or required to take some action within a prescribed time period after service, the date of mailing is the date of service, and three (3) days shall be added to the prescribed time period.

748:20-5-5. IRC[®] 2009/2015 Chapter 1 Scope and Administration

Chapter 1 of the Oklahoma adopted IRC[®] 2009/2015, with includes the following Preamble at the very beginning of the chapter:

(1) Pursuant to 59 O.S. § 1000.23, the ~~Uniform Building Code Commission~~OUBCC has adopted the ~~2009 International Residential Code~~IRC[®] 2015 as amended and revised by the ~~Commission (IRC 2009)~~OUBCC, as the statewide minimum standards code to be used by all entities for residential building construction in jurisdictions throughout and including the State of Oklahoma. However, the ~~Commission's~~OUBCC's adoption of Chapter 1 "Scope and Administration" of the ~~2009~~IRC[®] 2015 is for continuity purposes and the ~~Commission's~~OUBCC's

adoption of Chapter 1 recognizes the methods of best practice in fully implementing the statewide minimum standards code for residential construction.

(2) All provisions of the adopted IRC[®] 2009/2015, including Chapter 1, as amended and revised by the ~~Commission~~OUBCC, are hereby established and adopted as the statewide minimum standards code for residential building construction for one- and two-family dwellings and townhouses in Oklahoma pursuant to 59 O.S. § 1000.23, which may only be amended or altered pursuant to Oklahoma law and the administrative rules of the ~~Oklahoma Uniform Building Code Commission~~OUBCC as set forth in Title 748, Chapter 15 of the Oklahoma Administrative Code. However, the provisions of Chapter 1 adopted herein are only intended to be in force and effect to the extent that the respective provisions do not conflict with State law or the lawful exercise of code administration and enforcement jurisdiction by entities empowered to do so pursuant to applicable law.

(3) The ~~Commission's~~OUBCC's adoption of Chapter 1 in this manner is made with the recognition that the legal authority granting state and local code administration and enforcement jurisdictions the power and discretion to administer and enforce codes arises from Oklahoma laws governing those jurisdictions. Furthermore, the ~~Commission~~OUBCC also recognizes that many state and local code administration and enforcement jurisdictions have already created, or have the lawful authority to create, departments, offices and administrative policies pursuant to various applicable laws and other adopted model codes with "Scope and Administration" provisions similar to Chapter 1 of the adopted IRC[®] 2009/2015.

(4) This limited adoption of Chapter 1 is made in recognition of the authority and discretion possessed by jurisdictions to administer and enforce building codes. Exercising such authority and jurisdiction in a manner inconsistent with Chapter 1 must be supported by Oklahoma law. Code administration and enforcement jurisdictions shall not use the ~~Commission's~~OUBCC's limited adoption of Chapter 1 to circumvent the remainder of the requirements established by the Oklahoma adopted IRC[®] 2009/2015 and the ~~Commission~~OUBCC will strongly oppose any such practice.

748:20-5-11. IRC_®20092015 Chapter 8 Roof-Ceiling Construction

Chapter 8 of the IRC_® 2015 is adopted with the following modifications as follows:

(1) Section R801.3 Roof drainage. This section has been stricken from the code.

(2) Section R802.3 Framing details. This section has been modified to change the ridge rafter requirements, provide a definition of a brace, and add an exception to the section. ~~It~~—This section has been modified to read: ~~802.3~~R802.3 Framing details.

(A) Rafters shall be framed to ridge board or to each other with a gusset plate as a tie. Ridge board shall be either at least 1-inch (25 mm) nominal thickness and not less in depth than the cut end of the rafter or at least 2-inches (51 mm) nominal thickness and one size greater than the rafters attached to it.

(B) Where a 1-inch (25 mm) nominal thickness ridge is used, all rafters shall be framed not more than 1.5 inches (38 mm) offset from each other at the ridge board or if no ridge is used they should be framed directly opposite from each other with a gusset plate as a tie. When a nominal 2-inch rafter is used they may be offset with no limitations. At all valleys and hips there shall be a valley or hip rafter not less than 2-inch (51 mm) nominal thickness and not less in depth than the cut end of the rafter. Hip and valley rafters shall be supported at the ridge by a brace to a bearing partition or beam or be designed to carry and distribute the specific load at that point.

(C) Definition of brace includes:

- (i) ~~4.~~~~a.~~A triangular configuration of framing members with a horizontal tie and rafter members,
- (ii) ~~2.~~kingKing post or similar. Where the roof pitch is less than three units vertical in 12 units horizontal (25-percent slope), structural members that support rafters and ceiling joists, such as ridge beams, hips and valleys, shall be designed as beams.

(D) Exception: This exception helps address many situations where due to the design, building bracing

is not achievable. This exception shall read: The use of a "Blind Valley", also known as a "Farmers Valley" or "California Valley" will be allowed. In this type of valley the main roof is framed as usual, it may or may not be sheathed, and the intersecting roof is framed on top of the main roof. The two valley plates or sleeps lie on top of the main roof rafters or sheathing and provide a nailing base for the jack rafters and ridge board of the intersecting roof.

(3) Section R802.3.1 Ceiling joist and rafter connections. This section has been modified to reflect current framing practices. This section has been modified to read: R802.3.1 Ceiling joists and rafter connections.

(A) Ceiling joists and rafters shall be nailed to each other every 4 feet (1219 mm) on center in accordance with Table R802.5.1(9), and the rafter shall be nailed to the top wall plate in accordance with Table R602.3(1). Ceiling joists shall be continuously or securely joined in accordance with Table R802.5.1(9) where they meet over interior partitions and are nailed to adjacent rafters to provide a continuous tie across the building where such joists are parallel to the rafters.

(B) Where ceiling joists are not connected to the rafters at the top wall plate, joists connected higher in the attic shall be installed as rafter ties, or rafter ties shall be installed to provide a continuous tie. Where ceiling joists are not parallel to rafters, the rafter ties shall be installed every 4 feet (1219 mm) on center. Rafter ties shall be not less than 2 inches by 4 inches (51 mm by 102 mm) (nominal), installed in accordance with the connection requirements in Table R802.5.1(9), or connections of equivalent capacities shall be provided. Where ceiling joists or rafter ties are not provided, the ridge formed by these rafters shall be supported by a wall, beam, or girder constructed in accordance with this code.

(C) Collar ties or ridge straps to resist wind uplift shall be connected in the upper third of the attic space in accordance with Table R602.3(1).

(D) Collar ties shall be not less than 1 inch by 4 inches (25 mm by 102 mm) (nominal), spaced not more than 4 feet (1219 mm) on center.

(4) Section R802.5 Allowable rafter spans. This section has been modified to provide guidance for builders framing rafters above the top sill of the wall system and provide an exception to require collar ties to be sized not less than the required size of the rafters they are connected to. This section has been modified to read: R802.5 Allowable rafter spans. Spans for rafters shall be in accordance with Tables R802.5.1(1) through R802.5.1(8). For other grades and species and for other loading conditions, refer to the AWC STJR. The span of each rafter shall be measured along the horizontal projection of the rafter. The tabulated rafter spans in Tables R802.5.1(1) through R802.5.1(8) assume ceiling joists are located at the bottom of the attic space or some other method of resisting the outward push of the rafters on the bearing walls, such

Permanent Final Adoptions

as rafter ties is provided at that location. Where ceiling joists or rafter ties are located higher in the attic space, the rafter spans in these tables shall be multiplied by the following rafter reduction factors: Where ceiling joists or rafter ties are located at one third the span of the rafter the adjustment factor is 0.67, at one quarter of the span of the rafter the adjustment factor is 0.76, at one fifth of the span of the rafter the adjustment factor is 0.83, at one sixth of the span of the rafter, the adjustment factor is 0.90 and at two fifteenths of the rafter or less, there is no need for adjusting the rafter capacity. Exception: Collar Ties. Installation of collar ties to reduce the span of the rafters is permitted as shown in Figure R802.5.1. Collar ties shall be sized not less than the required size of the rafters they are connected to.

(35) Section R802.5.1 Purlins. This section has been modified to include the following an exception for spacing the braces at not more than 6 feet (1829 mm) when certain conditions are met. Purlins shall be sized not less than the required size of the rafters that they support. Purlins shall be continuous and shall be supported by 2-inch by 4-inch (51 mm by 102 mm) braces installed to bearing walls at a slope not less than 45 degrees (0.79 rad) from the horizontal. The braces shall be spaced not more than 4 feet (1219 mm) on center and the unbraced length of the braces shall not exceed 8 feet (2438 mm). Exception: Braces may be spaced not more than 6 feet (1829 mm) on center if: 1. the purlin brace is 2-inch by 6-inch (51 mm by 153 mm), 2. Purlins shall be sized one nominal size larger than the rafter they support, and 3. unbraced length of braces shall not exceed 8 feet (2438 mm).

(6) Section R802.7.1.2 Ceiling joist taper cut. This section has been modified to include an exception to the section requirements for ceiling joists not carrying more than a 25 pound tributary load for limited attic storage. This section has been modified to read: R802.7.1.2 Ceiling joists taper cut. Taper cuts at the ends of the ceiling joists shall not exceed one-fourth the depth of the member in accordance with Figure R802.7.1.2. Exception: For ceiling joists not carrying more than 25 pounds of tributary load (limited attic storage) then taper cut at end of joint may be able to be increased to D/2.

ANALYSIS:

777:1-1-4: is being amended to remove language requiring the State Department of Education to provide staff support for the Board. Subject to the availability of funding, the proposed rule change would permit the Board to fund its staff. Additionally, the proposed rule removes language that requires the Board's principal office at the Oliver Hodge Education Building. Elimination of this language would permit the Board to move its principal office if necessary.

777:1-1-6 is being amended to remove language regarding open-records requests. This language is unnecessary in lieu of the Oklahoma Open-Records Act. Amendments to this section also eliminate language requiring the Board's principal office be located at the Oliver Hodge Education Building.

777: 1-1-7, 777:1-1-8, and 777:1-1-9 are being amended to remove language that requires all outside submissions and filings be received by the Board's Secretary. The current rule may delay the processes of the Board unnecessarily if its secretary were unavailable. The new proposed rule permits the Board itself to receive outside filings and submissions.

777:1-1-9 is being amended to address hearings conducted by the Board. The proposed rule change would grant the Chairman of the Board or a hearing examiner authority to issue subpoenas. The subpoenas would be authenticated

by the Executive Director's Signature. Further revisions correct a mistake in the rules that refers to the State Department of Education rather than the Statewide Virtual Charter School Board taking judicial notice of facts within the specialized knowledge of the Board. Additional amendments to this subchapter corrects the timeline for requesting the Board to rehear, reopen, or reconsidering hearings to within 10 days of entry of an order, consistent with § 317 of the Administrative Procedures Act. The last proposed revision to this subchapter corrects a mistaken reference to the State Department of Education rather than the Statewide Virtual Charter School Board.

ANALYSIS:

777:10-3-3 is being amended to address the application and filing requirements for virtual charter schools seeking sponsorship of the Board. These revisions provide notice of the Board's expectations to virtual charter schools seeking Board sponsorship. A third proposed revision to this subchapter eliminates language requiring the forwarding of new applications to the State Department of Education Director of School Choice for review and adds language that establishes a review panel that recommends new applicants to the Board. Revisions to this chapter further requires the Board to submit written notification regarding denial of new applicants as required by 70 O.S. Supp. 2011, § 3-134(E). Additionally, the proposed amendments remove language that requires all outside submissions and filings be received by the Board's Secretary. The new proposed rule permits the Board itself to receive outside filings and submissions. The proposed rule change provides efficiency for the review, acceptance, and denial of new applicants seeking the Board's sponsorship.

777:10-3-5 is being amended to address the requirements and expectations for renewal of sponsorship contracts with the Board. The proposed revisions add language which addresses the filing and formatting requirements of applications seeking renewal contracts with the Board. The revisions also include the necessary information an applicant must include in a renewal application. The proposed rule change also adds language stating that performance reports and site visits will be required and considered in the Board's evaluation of a renewal request. The proposed revisions also address the action of the Board upon denial of a renewal application as required by 70 O.S. Supp. 2011, § 3-134(E).

ANALYSIS:

The Oklahoma Department of Career and Technology Education (ODCTE) has reorganized and realigned the technology center services division is no longer an appropriate term. To comply with a statutory change, proposed language eliminates the requirement for a local education plan to be prepared. This proposed rule consists of adding "programs(s)" to the words "career major(s)" where referenced in this section. The instructional framework is

the new method for technology centers to identify what areas of instruction they are providing to their students. A Non-renewable Provisional Technology Center Administrator's Credential will be issued to candidates who meet the criteria. They will have five years from the date of issuance to complete their requirements to move to a standard credential. The proposed rule would also add Non-renewable to the heading of the Provisional Technology Center Administrator Credential. The proposed rule would allow applicants to complete college coursework; ODCTE approved professional development hours or a combination of both to meet the requirements to advance to a standard credential. The current rule requires applicants to complete an approved ODCTE administrator development program. The completion of an approved ODCTE administrator development program is being removed from the rules as a requirement to advance to a standard credential.

Enrollment in a technology center or to specific career majors shall not be contingent upon any single measure but upon a combination of factors including but not limited to achievement levels, aptitude, interest, work history, and ability to benefit in terms of employment.

(E) **Seven-member board districts; annexation.** Any technology center district that consisted of a seven (7) member school board on July 1, 1987, and later has added or will add more geographical territory by annexation, shall continue to have a seven (7) member school board whose terms of office shall be the same as previously served.

(b) **Annexations.**

(1) **Proposed annexations.**

(A) **Annexation, as proposed by a board of education.** Boards of education of a public school district desiring their district or a part of their district to annex to an existing technology center district shall submit a resolution to the State Board requesting an election be called for that purpose. Territory shall not be annexed to a technology center district without the approval of the State Board. No territory may be included in a petition for annexation within one (1) year from the date of an unsuccessful election for annexation where that territory was a part of the territory seeking to annex. A study of the proposed annexation will be conducted by the Department to ascertain whether the annexation would unlawfully exclude students on the basis of race, color, national origin, or disability. If the board of education of the technology center district approves the annexation resolution, the State Board after counseling with the local school district board will set the election date and shall request the county election board to conduct the aforementioned annexation election. If a majority of the electors voting at such election vote in favor of the proposition, as certified by the county election board, the State Board shall declare the public school district, or that portion designated, annexed to the local technology center.

(B) **Annexation, as proposed by patrons/electors.** In the event the patrons of any designated territory comprising all or part of a local public school district desire to have such designated territory annexed to a technology center district, a petition may be submitted to the State Board calling for an election on the desired annexation. The petition shall be signed by at least 50 percent of the number of school district electors who voted in the last school board election in the territory proposed to be annexed, as determined by the secretary of the county election board, who shall certify the adequacy of the number of signatures on the petition. The State Board, after obtaining approval of the technology center district to which the territory is sought for annexation, shall request the county election board to conduct the requested annexation election-provided the period of time from which the petition was initiated to its time of filing with the State Board did not exceed 90 days. All qualified voters within the local school district shall be entitled to vote at such election. If a majority of the electors voting at such election vote in favor of the proposition, as certified by the county election board, the designated territory shall thereupon be declared by the State Board to be annexed to the respective technology center districts.

(C) **Petition.** A petition form shall be developed by the Oklahoma Department of Career and Technology Education. Any petition to be circulated must be on that form or must incorporate the exact language of the form. To effect the annexing of territory, a petition requesting the annexation must be:

- (ii) filed with the State Board.

(D) **Petition content.** The petition shall be signed by at least 50 percent of the number of school district electors who voted in the last school board election in the territory proposed to be annexed, as determined by the secretary of the county election board, who shall certify the adequacy of the number of signatures on the petition. Each page of the petition shall contain the exact language except for signatures and addresses of school district electors. Electors must personally sign their own name to any petition and must swear or affirm that they have read the contents of the petition and are signing the document as a free and voluntary act.

(E) **Annexation, as proposed by a board of county commissioners.** When a large area such as a county, or portions thereof, desires to be annexed to an established technology center district, the board of county commissioners may submit a resolution to the State Board requesting the State Board to call an annexation election for the area so designated. If a majority of the electors voting at such election vote in favor of the proposition, as certified by the county election board, the State Board shall declare the area annexed.

(F) **Annexations or transfers of independent and elementary school districts, or portions thereof.** Technology center district membership resulting from annexation or transfers of territory shall be determined by the following:

(i) When an elementary or independent school district, whose territory is a part of a technology center district, is annexed to another elementary or independent school district whose territory is not a part of a technology center district, the annexation shall not affect the status of the annexing district with respect to the technology center district.

(ii) When an elementary or independent school district, or a portion thereof, whose territory is not a part of a technology center district, is annexed or transferred to another elementary or independent school district whose territory is a part of a technology center district, the territory of the annexed or transferred elementary or independent school district shall become a part of the technology center district.

(iii) When an elementary or independent school district or a portion thereof, whose territory is already a part of a technology center district is annexed or transferred to another elementary or independent school district whose territory is a part of a second technology center district, the territory of the annexed or transferred elementary or independent school district shall become a part of the second technology center district.

(2) **Liability of annexed territory for bonded indebtedness of technology center district.** If the territory is annexed to a technology center district, the assessed valuation of property in the territory will be subject to taxes thereafter levied to pay existing bonded indebtedness that was incurred by the technology center district before the territory was annexed.

(3) **Benefits of annexed territory.** When a public school district or a part of a public school district is annexed to a technology center district, the people residing in the newly annexed district or part of a district shall immediately become eligible to all the rights and privileges as those residing in the technology center district and shall be subject to the tax levies of the technology center district provided by Section 9B Article 10 of the Oklahoma Constitution except as outlined in section (4) below.

(c) **Deannexation.**

(1) **Proposed deannexation.**

(A) **Approval of State Board.** Territory shall not be deannexed from a technology center district without the approval of the State Board. No territory may be included in a petition for deannexation within one (1) year from the date of an unsuccessful election for deannexation where that territory was a part of the territory seeking to deannex. A study of the proposed deannexation will be conducted by the Department to ascertain whether deannexation would unlawfully exclude students on the basis of race, color, national origin, or disability. All deannexations shall become effective December 31 of the calendar year in which the deannexation was approved by the voters. Annexations for territory deannexed from a technology center district shall not become effective until the deannexation shall have been effective.

(B) **Petition.** A petition form shall be developed by the Oklahoma Department of Career and Technology Education. Any petition to be circulated must be on that form or must incorporate the exact language of the form, in addition to the reason for deannexing. To effect the deannexing of territory, a petition requesting the deannexation must be:

- (i) submitted to the technology center board of education, and
- (ii) filed with the State Board.

(C) **Petition content.** The petition shall state the reason for deannexing and shall be signed by at least 50 percent of the number of school district electors who voted in the last school board election in the territory proposed to be deannexed. Each page of the petition shall contain the same information except for signatures of school district electors. Electors must personally sign their own name to any petition and must swear or affirm that they have read the contents of the petition and are signing the document as a free and voluntary act.

(D) **Order and Notice of Election.** If the State Board determines that there is a valid reason for the deannexation, it will issue an "Order and Notice of Election," and the election will be held and conducted by the County Election Board at some public place in the technology center district. Copies of the "Order and Notice of Election" will be published in one issue of a newspaper of general circulation in the technology center district.

(E) **Eligible electors.** If, prior to the issuance of the "Order and Notice of Election," the board of education of the technology center district shall have given written notice of approval of the deannexation to the State Board, only those school district electors who reside in the territory proposed to be deannexed shall be eligible to vote at the election. In the event the board of education of the technology center district will not give written approval of the deannexation, then school district electors of the entire technology center district shall be eligible to vote on the deannexation question.

(F) **Exceptions.** In situations where the reason for deannexation is because an approved consolidation has resulted in a sending school district with membership in two or more technology center districts, approval from the local technology center board is not necessary and upon approval from the State Board, only those school district electors who reside in the territory proposed to be deannexed shall be eligible to vote at the election.

(G) **Deannexation approval.** If a majority of the eligible school district electors voting at the election approve the deannexation, the State Board shall issue an order deannexing the territory from the technology center district and will transmit copies thereof to the county clerk, county assessor, and county treasurer of each county in which any of the deannexed area lies.

(H) **Property valuation; taxation.** If the territory is deannexed from a technology center district, the assessed valuation of property in the deannexed territory will be subject to taxes thereafter levied to pay bonded indebtedness that was incurred by the technology center district while the deannexed territory was a part of the technology center district.

(I) For all successful deannexation elections occurring after January 1, 2005, the ad valorem tax rate shall be set by the technology center school district.

(d) **School consolidation.**

(1) **Nondiscrimination study.** When consolidation of school districts is being considered, the Oklahoma Department of Career and Technology Education will conduct a study to ascertain whether or not consolidation would unlawfully exclude students on the basis of race, color, national origin, or disability.

(2) **Consolidation of technology center member district and nonmember district.** When two common school districts consolidate to form a new district and one of the school districts has a majority of its territory located

in a technology center district, then the State Board shall call a separate election to be held on the same day as the consolidation election, in that part of the new district that is not already a part of the technology center district, for membership in the technology center district.

(3) **Consolidation of districts with membership in different technology center districts.** When two or more common school districts consolidate to form a new district and each district already is included in a different technology center district, the location of the high school shall determine the technology center membership for the entire consolidated district. When more than one high school will be located within the new consolidated district, a feasibility study will be performed by the State Board. After consideration of the feasibility study and such other information as may be deemed relevant, the State Board shall determine the technology center membership for the entire consolidated district.

(4) **Consolidation of three or more districts.** When three or more common school districts consolidate to form a new district and at least one of the school districts has a majority of its territory located in a technology center district and one or more of the other districts to be merged is not a part of any technology center district, a feasibility study performed by the State Board shall include a recommendation for membership in a technology center district and, on the same date as the consolidation election, the State Board shall call a separate election in that part of the newly formed district, that is not already a part of a technology center district, for membership in the recommended technology center district.

780:15-3-6. Technology center students

(a) **Student eligibility.**

(1) **High school students.** For students currently enrolled in high school, the technology center is an extension of the student's high school and shall be subject to the regulations thereof. The student's home high school shall transcript the units of instruction earned by high school students attending the technology center. High school students who successfully complete their career plans of study shall be awarded a competency/completion certificate by the technology center. The technology center is a separate entity in that it also serves adult students.

(2) **Enrollment procedures.** High school students shall meet the enrollment criteria established by the technology center for the specific career major plan of study in which they wish to enroll, regardless of lawful immigration status. All high school students shall be enrolled through a cooperative effort of the sending comprehensive high school and the technology center, except in cases where the student's parent or guardian has provided sufficient evidence that he/she is participating in a home-schooled education plan in accordance with 70 O.S.2001, §10-105, as amended.

(3) **Approval to withdraw and withdrawal procedures.** Students from a sending comprehensive school who wish to withdraw from a technology center must have

Permanent Final Adoptions

approval of both the technology center and the comprehensive school. Specific procedures for withdrawal are established cooperatively by the technology center and the sending comprehensive school.

(4) **Student discipline.** High school students' discipline and control shall be a cooperative effort between the comprehensive school and the technology center. Each institution shall enforce rules and regulations in accordance with their board-approved policies. Both institutions shall recognize the students' rights to "due process."

(A) **Qualified Students with Disabilities under IDEA.** Discipline for students with disabilities who have an IEP shall be in accordance with current federal and state legislation and rule of law.

(B) **Qualified Students with Disabilities under Section 504/ADA.** Qualified students with disabilities under Section 504 of the Rehabilitation Act of 1973 as amended or the Americans with Disabilities Act of 1990 as amended who are disabled by drug addiction or alcoholism may be disciplined to the same extent as other students. However, a student who is disabled by some other condition in addition to drug addiction or alcoholism must be evaluated and afforded due process prior to disciplinary action that would constitute a significant change in placement. Denial of access, and/or a significant change in placement, should not occur when there is a definable relationship between the misconduct and the disability. The student's 504/ADA team should meet and make this determination. There is no requirement in Section 504 or the ADA for the continuation of educational services following the expulsion of a student for behavior unrelated to the student's disability.

(5) **Certified coursework.** Units of coursework earned by a student in a technology center in Oklahoma shall be certified by the technology center to the sending school in which the student is regularly enrolled. These units of coursework shall be counted toward meeting local and state requirements for graduation. The technology center is considered to be an extension of the sending school curriculum and shall be subject to the regulations thereof.

(6) **Hours of attendance.** High school students may attend a technology center up to one-half day pursuing a high school diploma or ~~GED~~high school equivalency and up to one-half day completing a CareerTech Career Major in the technology center. The students are counted as attending a full day at the sending school.

(7) **Secondary Students.** Career Majors in the technology centers may be offered to secondary students. Students who are on an Individualized Education Program may attend a technology center up to four years.

(8) **Postsecondary/adult students.** The technology center functions as a separate postsecondary-level educational institution for adult students who are beyond the age of compulsory school attendance and/or are not enrolled in high school. Postsecondary/adult students may attend courses at the technology center which may be held

any time during the day or night on or off campus. Postsecondary/adult students are subject to the policies and procedures established for adult students by the technology center and shall be afforded all benefits and services for which they qualify, regardless of lawful immigration status. Units of coursework completed at a technology center by a postsecondary/adult student are transcribed by the technology center as postsecondary level credit. Postsecondary/adult students who successfully complete their plan of study shall be awarded a competency/completion certification by the technology center. Units of instruction and/or credits earned by postsecondary/adult students may also be applied toward a college degree, in accordance with the cooperative agreements and cooperative alliance agreements developed by each technology center with a higher education institution.

(9) **Residency.** Students that meet the residency requirements of 70 O.S.~~Supp.~~—2002, Section 1-113, as amended, shall have the same opportunity to access technology center courses, regardless of lawful immigration status, as any other in-district student. These students may enroll in an appropriate Career Major following the same admission and enrollment procedures as other students.

(10) **Cooperative Alliances Between Higher Education Institutions and Technology Centers.**

(A) **Purpose.** The purpose of Cooperative Alliances is to expand student access to Oklahoma's educational opportunities with resource-sharing partnerships between institutions of the State System and CareerTech technology centers for the benefit of Oklahoma citizens, business, industry, and students. Cooperative Alliances are student-centered partnerships organized to encourage and facilitate progress toward college graduation and designed to ensure that students obtain the technical and academic skills that will allow them to succeed in today's dynamic knowledge-based, technology-driven global economy.

(B) **Formation and Operation.** Cooperative Alliances may be formed and operated between Oklahoma technology center school district(s), and public colleges or universities that offer the Associate in Applied Science (AAS) degree.

~~(i) Cooperative Alliances are formed with Oklahoma public colleges or universities that offer the Associate in Applied Science (AAS) as Cooperative Agreement Programs (CAP) with an Oklahoma public technology center. Students enrolled in CAPs are treated as members of the higher education community. These students benefit from college support services including academic advising and counseling, convenient admission and enrollment processes, financial aid, career advisement and job placement assistance.~~

(B) **Definitions.** ~~The following words and terms, when used in the Chapter, shall have the following meaning, unless the context clearly indicates otherwise:~~

(i) "Associate in Applied Science (AAS) degree" is typically a credential requiring two years of full-time equivalent college work (at least 60 credit hours) that emphasizes a technical or occupational specialty and is designed to lead the student directly to employment. Unlike the Associate in Arts (AA) or Associate in Science (AS) degrees, the AAS is not designed to transfer all courses to a Bachelor of Arts (BA) or Bachelor of Science (BS); however, the courses may transfer to a technical baccalaureate degree program.

(ii) "Cooperative Agreement Program (CAP)" is a formal, academic program offered by institutions in the Oklahoma State System for Higher Education that includes approved courses taught by a CareerTech technology center and leads to an Associate in Applied Science (AAS) degree or a college-level certificate in a technical or occupational field.

(iii) "Cooperative Alliance" is an agreement between one or more institutions in the Oklahoma State System for Higher Education and one technology center as a joint vision of a collaborative partnership designed to benefit students and enhance the technical workforce in that part of Oklahoma. A Cooperative Alliance is voluntary and agreed upon by all partners and their governing boards. The State Regents for Higher Education and the State Board of Career and Technology Education review and approve the agreement for each Cooperative Alliance. The approved Cooperative Alliance agreement remains in force until the governing boards of the Cooperative Alliance partners dissolve the agreement.

(iv) "Institution" refers to any college or university of the Oklahoma State System of Higher Education listed in the State Regents' Governance policy (1.7) and that offers AAS degrees.

(v) "Partners" are institutions and technology centers that enter into a Cooperative Alliance agreement. The agreement delineates the roles of each partner in providing the academic program and support services to the students enrolled in CAPs.

(vi) "Technology center" refers to a center established by criteria and procedures for the establishment prescribed for governance of technology center school districts by the State Board of Career and Technology Education as provided by Section 9B, Article X, Oklahoma Constitution, and such districts so established shall be operated in accordance with rules of the State Board of Career and Technology Education, except as otherwise provided in this title.

(C) **Principles and Goals.** The driving principle of the Cooperative Alliance is to build a student-centered, rather than institution-centered approach to the

us of CAPs. The four goals of the Cooperative Alliance are:

- (i) To enroll more high school students in college;
- (ii) To encourage more adults to continue their education or begin college;
- (iii) To expand access to postsecondary (college and career/technical) education; and
- (iv) to efficiently use federal, state and local resources.

(I) The mission of the Cooperative Alliance is to offer AAS degrees and college-level certificates that benefit students, employers, and the public.

(II) By fulfilling the mission, the Cooperative Alliance significantly impacts the economy and quality of life in the areas served by the partners.

(D) **Conceptual Basis.**

(i) The Cooperative Alliance is student-centered, focusing on an integrated learning experience for each student which has as its goal the completion of the AAS degree or college-level certificate program.

(ii) The Cooperative Alliance offers AAS degrees and college-level certificate programs that focus on technical knowledge and skills in addition to general academic knowledge and skills that are useful in the workplace and for a higher quality of life and lifelong learning.

(iii) A higher education institution partner will maintain an official college transcript for each student who enrolls in an approved course taught at the technology center and who chooses to take the course for college credit as part of a CAP.

(iv) All higher education partners and technology centers will participate in a statewide transfer equivalency matrix of technical courses maintained by State Regents for all approved courses in CAPs.

(v) The Cooperative Alliance will focus on student success, including the completion of the AAS degree or college-level certificate program.

(vi) Each student at the technology center admitted to a higher education institution is a member of the collegiate community and receives services including academic advising, admission and enrollment, financial aid, career advisement, and job placement assistance. The provision of these services will be coordinated among partners in the Cooperative Alliance to insure consistency and to minimize duplication.

(vii) The Cooperative Alliance provides for student assessment consistent with State Regents' Assessment policy (3.19) and accreditation standards.

(viii) The Cooperative Alliance provides for tracking of students in a seamless manner from

Permanent Final Adoptions

first time enrollment through graduation and initial employment, or transfer within the Oklahoma State System for Higher Education.

(E) Scope.

(i) The Cooperative Alliance agreement supersedes all CAPs approved under the previous State Regents' Guidelines for Approval of Cooperative Agreements between Technology Centers and Colleges (3.6). All prior approved CAP's will be grandfathered under this agreement.

(ii) Through the Cooperative Alliance, the higher education institutions will offer AAS degrees and college level certificate programs in disciplines in cooperation with technology centers where effectiveness and efficiency can be enhanced and where a student centered, competency based approach can be maintained.

(iii) Consistent with the State Regents' Electronically Delivered and Traditional Off Campus Courses and Programs policy, CAPs offered at technology centers are meeting the educational needs of the community.

(iv) With the approval of the Cooperative Alliance partners, CAPs may be added to the agreement. If the partners cannot agree, the Chancellor for State System and the State Director for CareerTech will arbitrate.

(v) The Cooperative Alliance partners will jointly plan and implement appropriate faculty and staff development activities to benefit the CAPs.

(vi) The Cooperative Alliance partners will jointly plan and implement a sharing of physical and human resources to support the Alliance, its programs, and related activities.

(F) Curriculum. The Cooperative Alliance partners will offer high quality, AAS degree and college level certificate programs as CAPs, conferred by a higher education institution, that comply with applicable policies of the State Regents, CareerTech, and the local governing boards and that meet the certification and training standards of business and industry.

(i) All CAPs in place when the Cooperative Alliance agreement is approved are included and will be listed.

(ii) All continuing and future CAPs included in the Cooperative Alliance shall be subject to the State Regents' Academic Program Approval and Academic Program Review policies. The Criteria for Evaluation (3.4.6) include centrality to the mission, curriculum, academic standards, faculty, support resources, demand for the program, and complement to existing programs, unnecessary duplication, cost, and review.

(iii) An advisory committee composed of faculty, staff, employers, and practitioners assists in

developing curriculum content, in keeping the curriculum current, and in maintaining contact with the occupational community.

(G) Quality Assurance. Faculty.

(i) All technology center faculty teaching CAP courses must adhere to established higher education institutional adjunct faculty qualifications appropriate to faculty teaching in occupational and technical fields. Credentials must be a degree at the level at which the faculty member is teaching, e.g., at the Certificate level, the faculty must have a certificate in that field; at the Associate Degree level, the faculty must have an Associate Degree. The appropriate academic dean reviews all faculty credentials, and recommends all faculty for approval. Once approved, technology center faculty in approved CAPs becomes listed as adjunct instructors for the higher education institution. Any exception to the foregoing must be approved by the appropriate designee for Academic Affairs at the higher education institution.

(ii) An annual faculty assessment, including student evaluation of instruction, will be conducted in accordance with established guidelines and procedures of the higher education institution.

(vi) When the higher education institution does not employ full-time faculty in an Associate in Applied Science degree which is not taught at the institution, but is active at the technology center, the institution will thoroughly assess the need for it to offer such a program, especially if the program is available at another state system institution. If determined to better meet the needs of the institution's service area if offered through the institution, the institution will designate a full-time faculty member with a minimal level of content expertise to oversee the program. If no internal faculty expertise is available, the institution will engage the expertise of faculty at a higher education institution that employs full-time faculty with expertise in the content area to ensure program quality and the designated faculty liaison as referenced in 3.6.4.D.2.c, will oversee the program, utilizing the outside expertise on a regular basis.

(vii) The higher education institution may look to established national accreditations and course-specific certifications standards for quality control. For example, programs accredited by CAAHP, FAA or computer industry certifications through CompTIA, Microsoft, ORACLE and CISCO, provide guidelines and competencies to ensure quality content.

(J) Advisory Committees.

(i) Advisory committees will be representative of industry appropriate to the program, and ensure relevant curricula for job readiness.

(ii) Full-time institutional faculty will serve on advisory committees, in addition to the technology center faculty.

These recommendations are reviewed and approved by the higher education institution's internal curriculum review process and then provided to the OSRHE for final approval.

780:15-3-7. Special provisions

or activity receiving federal financial assistance [Public Law 92-318, Title IX, Sec. 901 (A)]. Any reference to discriminatory language or practices relative to race, creed, or national origin should be deleted.

(b) **Basic education.** No technology center district shall be required to provide any training or instruction that is independent of career and/or technology education. However, foundational, academic and contextual academic education should be provided to persons in order to bring them up to a level at which they may successfully complete the course or Career Major in which they are enrolled.

(c) **Education and Services in other districts.** No technology center district shall offer *CareerTech* education and/or services to any entities inside another technology center district without prior approval of that district. If there is a Reciprocity Agreement between technology center districts, the provisions of the Reciprocity Agreement shall be followed. Territory not presently a part of any technology center district may be served by a technology center district in accordance with the policy and procedures approved by the State Board.

(d) **Live Work Policy.** The live work policy adopted by the State Board of Career and Technology Education in February 2004 shall be incorporated into all technology center policies and procedures. Live work is work performed by students in a laboratory, classroom, shop, or in a field setting under written contract and under the direction of the instructor. The process by which all live work projects will be approved should be outlined in the live work policy. Live work projects should be chosen on the basis of merit in relation to the instructional objectives as well as the determined value of the project to allow students to achieve a desired level of competency. Superintendents, Deputy Superintendents, Assistant Superintendents and local board members shall be ineligible from utilizing live work services. These projects are not to replace other learning activities, nor to compete with other organizations within the district, but are to complement them. These projects will allow students to experience situations not easily duplicated in a lab or classroom, and at little or no cost to the school. Documentation for each live work project will be maintained by the technology center and will contain pre-numbered live work tickets, authorization signatures, signature of the project owner, estimated amount, amount paid or deposited, scope of the work, estimated completion date, and record of all materials and parts purchased. Live work accounts shall be paid in full upon the completion of the project. The list of live work projects may be reviewed at any time by the ODCTE audit/review staff or others as designated by the State Director of Career and Technology Education. All records of live work projects will be maintained by the technology center for at least three (3) fiscal years following the most recent technology center financial audit. The following policy should be incorporated into all technology center policies and procedures. The policies developed by the technology centers will become items for review during all standard accreditation visits or audit/reviews conducted by the Oklahoma Department of Career and Technology Education.

(e) **Technology Center Code of Ethics Guidelines.** Each technology center will ensure that its district policies and

procedures comply with the guidelines for the Technology Center Code of Ethics approved by the State Board of Career and Technology Education in April 2004. Technology center district boards may add any other provisions to these guidelines with discretion. Policies and procedures shall be developed by each technology center board for reporting and resolving alleged violations. The policies developed by the technology centers will become items for review during all standard accreditation visits or audit/reviews conducted by the Oklahoma Department of Career and Technology Education. The guidelines for the Technology Center Code of Ethics are:

(A) **Focus on the success of students and clients as the fundamental value upon which all decisions are made.** Provide a safe, supportive environment to include up-to-date facilities, equipment, instructional materials, and methods, as well as other appropriate student services to enhance the educational experience and enable all students to achieve their full potential for success. Ensure that all instructors are appropriately qualified to provide a high level of instruction to enable students to obtain realistic training and education for successful career and workplace readiness.

(B) **Acknowledge that the System is accountable to the taxpayers and patrons of the local district and the State of Oklahoma.** The district will compile and make available an annual report or profile that identifies the standards by which the district measures success. A copy of this report will also be published on the district website. The annual report or profile may measure standards such as teacher qualifications, revenue, expenditures, cost per student, economic impact of education and services, completion rates, sending school service rate, placement of completers, percentage of completers who attain an industry-recognized state or national licensure or certification, etc.

(C) **Understand that the role of the board of education is to set policy and direction for the school district, and the role of the administration and staff is to implement the policies of the board in a fair and consistent manner.** The district will maintain and enforce an up-to-date manual of Policies and Procedures. The district will utilize a strategic planning process that will include, at a minimum, the following components: core values and beliefs, vision statement, mission statement, and strategic goals. Adoption of policies not in conformity with the administrator's recommendations or beliefs is not just cause for refusal by the administration to support and implement those policies. Administration must be impartial in the execution of the school policies and the enforcement of rules and regulations. It is a breach of ethics to give preferential consideration to any individual or group because of special status or position in the school system or the community.

(D) **Not use position or influence for any personal gain; and will avoid actions that create a**

Permanent Final Adoptions

conflict of interest and strive to avoid actions that might appear to create a conflict of interest. The term "conflict of interest" describes any circumstance that could cast doubt on a person's ability to act with total objectivity with regard to the district's interest. Conflicts of interest are prohibited. It is improper for a board member or school administrator to profit financially from interest in any business which publishes, sells, manufactures, or in any way deals in goods or services which are, or may be expected to be, purchased by the school system they serve. It is a breach of public trust for a board member or administrator to use confidential information concerning schools affairs (such as the knowledge of the selection of specific school sites) for personal profit or to divulge such information to others who might profit. Although it is impossible to list all potential conflict of interest situations, the following examples represent situations where a conflict of interest could arise: A direct or indirect financial interest in any business or organization that is a district vendor or competitor, if the employee or board of education member can influence decisions with respect to the district's business. Use of any district asset for the employee's personal business advantage (examples of such assets include not only equipment, tools, and supplies, but also valuable ideas, technical data, and other confidential information). Relationships, including business, financial, personal, and family may give rise to conflicts of interest or the appearance of a conflict. Employees should carefully evaluate relationships as they relate to district business to avoid conflict or the appearance of a conflict.

(E) **Fulfill professional responsibilities with honesty and integrity.** The Board of Education, superintendent, administration, faculty, and staff will fulfill their duties and responsibilities with honesty and integrity and improve their professional effectiveness through continuing professional development. Board members will be diligent and well informed of issues surrounding Board decisions and regularly attend Board meetings.

(F) **Support the Constitutions of the State of Oklahoma and the United States of America and obey all federal, state, and local laws.** Board members will uphold the Oath of Office. Professional development will be held annually for board members, superintendent, administration, faculty, and staff to learn about new laws.

(G) **Encourage effective communication between the Board, the students, the staff, and all elements of the community.** A communication plan will be developed to address internal and external audiences.

(H) **Improve professional effectiveness through continuing professional development.** In addition

to meeting the minimum requirements for continuing education mandated by state law, board members, administration and staff have a professional obligation to attend conferences, seminars, and other learning activities that hold promise of contributing to their professional growth and development.

(f) **Rules; regulations.** In the absence or omission of specific rules and regulations pertaining to the technology center districts, the state statutes and the rules and regulations governing independent school districts will prevail.

(g) **Review of the Rules for Career and Technology Education.** The **Rules for Career and Technology Education** approved by the State Board should be reviewed in connection with developing *CareerTech* courses, Career Majors and services.

(h) **Technology Centers That Work.** The ~~Technology Center Services Division~~Department will coordinate the Technology Centers That Work initiative to help technology centers embed college-and career-readiness academic standards into instruction and produce graduates who can succeed in post-secondary studies and careers in high-demand, high-skill, high-wage fields. The ~~Department Technology Center Services Division~~ will coordinate with the Southern Regional Educational Board and other entities to organize professional development sessions on topics such as numeracy, literacy and using data for continuous school improvement.

(i) **Comprehensive Local Education Plan.** ~~As a part of the requirements for receiving accreditation and funding from the Oklahoma Department of Career and Technology Education, each technology center board of education shall adopt a Comprehensive Local Education Plan once every six (6) years as provided in 70 O.S. Supp. 2006 §3-104.2, as amended. The Comprehensive Local Education Plan that is developed once every six (6) years will be submitted to the appropriate Technology Center Services Coordinator at the Department. The six year Comprehensive Local Education Plan and the annual updates will be available at the technology center for review annually by the State Department of Education Regional Accreditation Officers as provided for in 70 O.S. Supp. 2001 §3-154, as amended. The plan at minimum shall contain the following:~~

(1) ~~A strategic plan shall include stated goals that clearly delineate education expectations. Input from teachers and parents will be solicited and one public hearing will be held prior to the technology center board approving the strategic plan as provided for in 70 O.S. Supp. 2002 §5-117.4, as amended. The strategic plan shall be monitored annually and updated as necessary.~~

(2) ~~A four year (4) capital improvement plan as provided for in 70 O.S. Supp. 2007 §18-153, as amended. The capital improvement plan shall be monitored annually and updated as necessary.~~

ANALYSIS:

Several amendments have been adopted to add new language associated with the creation of a new antidegradation classification, known as Sensitive Water Supply-Reuse (SWS-R). The amendments include adding a definition for SWS-R and modifying the definition of "Existing Point Source Discharge" in OAC 785:45-1-2. To account for SWS-R as a part of Oklahoma's antidegradation policy, the term "SWS-R" is added to OAC 785:45-3-2(c); OAC 785:45-5-10(7); OAC 785:45-5-25(a)(2) and (6); OAC 785:45, Appendix A part (c)(2); and Appendix E, part G. Additionally, a new subsection (8) of OAC 785:45-5-25(c) was created to describe the SWS-R classification. This rulemaking does not reclassify any waterbody as an SWS-R. The intended effect of this language is to create a new antidegradation classification.

Appendix A, "The Designated Beneficial Uses of Surface Waters", is being revoked and reenacted with deletions, modifications and additions of new uses and other waterbody specific information. These changes include amending the introductory material in paragraph (d) Remarks, and to remove remark (2) and renumber the remaining remarks. In Table A.1 (Middle Arkansas River Basin), the limitation "HQW" is added to Saline Creek and Little Saline Creek. For the Arkansas River from the mouth of the Verdigris River to Keystone Dam, the recreation use is changed to "PBCR", and the remark (2) is removed. In Table A.6 (Upper Arkansas River Basin), Hefner Lake and its designated and existing uses are added, and an additional "waterbody ID number" is added to Great Salt Plains Reservoir. The intended effect of these changes to Appendix A is to update waterbody information, uses, and antidegradation classifications.

Appendix B, "Areas with Waters of Recreational and/or Ecological Significance", is being revoked and reenacted with deletions, modifications and additions of new areas/waters. Modifications to Table 1 include the deletion of certain areas that no longer exist or were incorrectly named, the addition of several new wildlife management areas and state parks including the water quality management segment, and the modification of certain names. Modifications to Table 2 include revisions to some existing descriptive language of "protected area/water and the addition of new "protected area/water", including the Verdigris, Illinois, and Elk Rivers. Additionally, a new column is added to Table 2 to clarify endangered or threatened species that are protected in the area/water. The intended effect of this language is to update areas and waters protected under the Appendix B antidegradation classification.

Appendix G, "Numerical Criteria to Protect Beneficial Uses", is being revoked and reenacted with modifications to introductory material and Tables 2 and 3. Changes in the introduction include the addition of frequency and duration language to paragraph (a) and the deletion of subsection (3) in paragraph (b). Also, these amendments are proposed to: 1) speciate arsenic 3 and trivalent and hexavalent chromium; 2) delete parameters MBAS and 2-4-5-TP silvex and associated criteria; and, 3) revise numeric criteria for certain parameters contained under the "Fish and Wildlife Propagation" headings for Table 2. "Numerical Criteria to Protect Beneficial Uses and All Subcategories Thereof". The changes also add new footnotes under Table 2 to describe alternative applications of the frequency and duration components of certain criteria, as generalized in the Appendix G introduction. Additionally, new conversion factors are added to Table 3. Conversion Factors for Total to Dissolved Fractions. The intended effect of these amendments is to update aquatic life criteria in order to fully protect the Fish and Wildlife Propagation beneficial use and to be consistent with criteria currently recommended by the United States Environmental Protection Agency.

Appendix E, "Requirements For Development of Site-Specific Criteria For Certain Parameters", is being revoked and reenacted with revisions to some of the calculated site specific criteria options for certain dischargers. These include the City of Broken Bow (zinc), the City of Blackwell (cadmium), the City of Idabel (nickel and zinc), and City of Poteau (zinc). The circumstance which created the need for this amendment was revisions to aquatic life criteria in Appendix G, Table 2, as described in the preceding paragraph. The intended effect of this amendment is to provide updated calculated information for the implementation of the various options related to site-specific criteria for these municipalities.

SUMMARY:

The newly adopted rules revise several parts of Oklahoma's Water Quality Standards. Revised or new aquatic life criteria were adopted for a variety of contaminants, with revisions occurring in both Appendix G, "Numerical Criteria to Protect Beneficial Uses", and for site specific criteria in Appendix E, "Requirements For Development of Site-Specific Criteria For Certain Parameters". Several revisions and additions were made to both Appendix A, "The Designated Beneficial Uses of Surface Waters", and Appendix B, "Areas with Waters of Recreational and/or Ecological Significance". Finally, a new antidegradation classification, known as Sensitive Water Supply-Reuse (SWS-R), was adopted.

ANALYSIS:

Several amendments are proposed to add new language associated with the creation of a new antidegradation classification, known as Sensitive Water Supply-Reuse (SWS-R). The amendments proposed include modifying various parts of Chapter 46, including adding a definition for SWS-R and modifying the definition of "Increased Load" in OAC 785:46-1-2. To account for SWS-R as a part of Oklahoma's antidegradation policy, the terms "Sensitive Water Supply-Reuse" or "SWS-R" are added to OAC 785:46-13-1(a)(2) and (e), and the OAC 785:46-13-4 title, as well as subsections (c) and (d). Additionally, to reserve a place for future rulemaking for SWS-R, a new subsection (e) is added to OAC 785:46-13-4. The intended effect of this language is to create a new antidegradation classification.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2016:

SUBCHAPTER 1. GENERAL PROVISIONS

785:46-1-2. Definitions

In addition to definitions of terms found in OAC 785:45-1-2, which are incorporated herein by reference, the following words, terms and notations, when used in this Chapter, shall have the following meanings unless the context clearly indicates otherwise:

"7T2" means the seven-day maximum temperature likely to occur with a 50% probability each year. The 7T2 is calculated using a moving average of seven consecutive days for each year in a given record. These seven day receiving stream temperature values are ranked in descending order. An order number, m, is calculated based on the number of years of

"**A**" means mean annual average flow.

"**ACR**" means acute to chronic ratio.

"**Acute to chronic ratio**" means LC50/NOEC. The NOEC is the highest concentration at which no effect on test organisms is observed over a relatively long period. If the ACR is unknown, a default value of 10 may be used for implementation purposes.

"**Background**" means the ambient condition upstream or upgradient from a facility, practice or activity which has not been affected by that facility, practice or activity.

785:46-13-1. Applicability and scope

(a) The rules in this Subchapter provide a framework for implementing the antidegradation policy stated in OAC 785:45-3-2 for all waters of the state. This policy and framework includes three tiers, or levels, of protection.

(b) The three tiers of protection are as follows:

(1) Tier 1. Attainment or maintenance of an existing or designated beneficial use.

(2) Tier 2. Maintenance or protection of High Quality Waters, ~~and Sensitive Public and Private Water Supply waters,~~ and Sensitive Water Supply-Reuse waterbodies.

(3) Tier 3. No degradation of water quality allowed in Outstanding Resource Waters.

(c) In addition to the three tiers of protection, this Subchapter provides rules to implement the protection of waters in areas listed in Appendix B of OAC 785:45. Although Appendix B areas are not mentioned in OAC 785:45-3-2, the framework for protection of Appendix B areas is similar to the implementation framework for the antidegradation policy.

(d) In circumstances where more than one beneficial use limitation exists for a waterbody, the most protective limitation shall apply. For example, all antidegradation policy implementation rules applicable to Tier 1 waterbodies shall be applicable also to Tier 2 and Tier 3 waterbodies or areas, and implementation rules applicable to Tier 2 waterbodies shall be applicable also to Tier 3 waterbodies.

(e) Publicly owned treatment works may use design flow, mass loadings or concentration, as appropriate, to calculate compliance with the increased loading requirements of this section if those flows, loadings or concentrations were approved by the Oklahoma Department of Environmental Quality as a portion of Oklahoma's Water Quality Management Plan prior to the application of the ORW, HQW, ~~or SWS,~~ or SWS-R limitation.

785:46-13-4. Tier 2 protection; maintenance and protection of High Quality Waters, ~~and Sensitive Water Supplies,~~ and Sensitive Water Supply-Reuse waterbodies

(a) **General rules for High Quality Waters.** New point source discharges of any pollutant after June 11, 1989, and increased load or concentration of any specified pollutant from any point source discharge existing as of June 11, 1989, shall be prohibited in any waterbody or watershed designated in Appendix A of OAC 785:45 with the limitation "HQW". Any discharge of any pollutant to a waterbody designated "HQW" which would, if it occurred, lower existing water quality shall be prohibited. Provided however, new point source discharges or increased load or concentration of any specified pollutant from a discharge existing as of June 11, 1989, may be approved by the permitting authority in circumstances where the discharger demonstrates to the satisfaction of the permitting authority that such new discharge or increased load or concentration would result in maintaining or improving the level of water quality which exceeds that necessary to support recreation and propagation of fishes, shellfishes, and wildlife in the receiving water.

SUBCHAPTER 13. IMPLEMENTATION OF ANTIDEGRADATION POLICY

Permanent Final Adoptions

(b) **General rules for Sensitive Public and Private Water Supplies.** New point source discharges of any pollutant after June 11, 1989, and increased load of any specified pollutant from any point source discharge existing as of June 11, 1989, shall be prohibited in any waterbody or watershed designated in Appendix A of OAC 785:45 with the limitation "SWS". Any discharge of any pollutant to a waterbody designated "SWS" which would, if it occurred, lower existing water quality shall be prohibited. Provided however, new point source discharges or increased load of any specified pollutant from a discharge existing as of June 11, 1989, may be approved by the permitting authority in circumstances where the discharger demonstrates to the satisfaction of the permitting authority that such new discharge or increased load will result in maintaining or improving the water quality in both the direct receiving water, if designated SWS, and any downstream waterbodies designated SWS.

(c) **Stormwater discharges.** Regardless of subsections (a) and (b) of this Section, point source discharges of stormwater to waterbodies and watersheds designated "HQW", "SWS-R" and "SWS" may be approved by the permitting authority.

(d) **Nonpoint source discharges or runoff.** Best management practices for control of nonpoint source discharges or runoff should be implemented in watersheds of waterbodies designated "HQW", "SWS-R" or "SWS" in Appendix A of OAC 785:45.

SUBCHAPTER 7. WATER AND SEWER PROGRAM (BOND PROCEED LOANS AND EMERGENCY GRANTS) REQUIREMENTS AND PROCEDURES

785:50-7-5. Emergency grant priority point system

(a) **Basis of priority system and formula.**

(1) **General description.** The priority system consists of a mathematical equation rating the applicants and the proposed project in accordance with the requirements of the statutes by means of a formula awarding points for each criteria used in the evaluation. The maximum point total under the system is one hundred twenty (120). The Board may consider each month, and in order from the highest rating, those applications awarded point ratings of 60 or more priority points. If the Board determines that the applicant with the highest point rating cannot promptly proceed with the project due to delays, including but not limited to those caused by legal problems, engineering problems, feasibility problems or availability of other funding sources, the Board may pass over consideration of such application then proceed to consider in order the next highest rated application. Applications which are bypassed shall retain their ratings and thus remain eligible for further consideration. Applications preliminarily determined by Board staff to have point ratings of 59 or fewer shall be deemed denied; provided, such applications may be reevaluated if the applicant submits additional information showing changed circumstances within 120 days after the date of staff's determination, and such information improves the applicant's preliminary point rating.

(2) **Statutory criteria.** The basis of the priority formula has been developed from the enacting legislation.

The two primary statutory criteria are:

(A) The emergency situation of the applicant.

(B) Whether or not the applicant can reasonably finance the project without assistance from the state.

(3) **Total priority points.** Total priority points will be calculated and awarded for individual projects; ~~therefore~~ ~~Therefore~~, eligible entities will be required to complete separate applications for each project for which grant funds are requested. Priority lists compiled and published by other Oklahoma State agencies and/or seniority dates of applications submitted shall be utilized to decide ties in point totals among applicants.

(b) **Priority formula for eligible entities other than school districts.**

(1) **Formula.** The following formula has been devised to rank grant applications: $P = E + WR + I + L + MHI + FP + AR + BP - AN$, Where:

(A) P = Priority ranking

(B) E = Emergency ranking

(C) WR = Water and sewer rate structure

(D) I = Indebtedness per customer

(E) L = Amount of local contribution toward project

(F) MHI = Median household income

(G) FP = Applicant's ability to finance project

- (H) AR = Amount of grant requested
 - (I) BP = Benefit of project to other systems
 - (J) AN = Application number
- (2) **Explanation.** Each of these criteria are explained below:

(A) **Emergency rankings (E).** Emergencies are ranked by severity with Category 1 being the most severe and Category 3 being the least severe. Points awarded range from a maximum of 50 points for Category 1 and a minimum of 30 points for Category 3. If an applicant requests funds to correct more than one emergency category need, only the amount of assistance needed to correct the most severe need will be considered in the calculation for the application ranking. The applicant will be informed that separate and additional applications must be filed for other needs and projects. An applicant who receives funding for a project under any of the listed emergencies may not reapply under the same emergency. The three (3) emergency ranking categories are as follows:

- (i) **Category 1.** Total loss of a water supply or sewage system or loss of a major component of a system due to a natural or unforeseen disaster which could not have been prevented by the exercise of reasonable care by the applicant. Examples of such disasters may include but are not necessarily limited to: tornado; flood; fire; severe weather; landslide; sudden loss of a water supply system; sudden collapse of a major structural portion of a system; signs of imminent failure of a public water supply lake dam, spillway or outlet structure such as settlement or slumping of the crest, excessive seepage, slides, cracks or sloughs along the upstream and downstream slopes of the dam. Also included under this category is the construction of a new water system to serve areas where residents are supplied by domestic sources or domestic systems whose quantity does not supply the basic needs of the residents. In such cases where new or extended systems are proposed, the Board shall consider and determine whether an adequate population density is available to utilize the proposed system. Notwithstanding any other provisions of this Chapter, if the density is preliminarily determined by Board staff to be inadequate for the applicant to feasibly provide operation and maintenance of the new or extended system, then the application will not be recommended for approval until the proper density, which will make the extension feasible, is achieved. Category 1 emergencies receive 50 points.
- (ii) **Category 2.** Water or sewer emergencies which could not have been prevented by the exercise of reasonable care by the applicant and which cause immediate danger or an imminent health hazard to the community or other nearby citizens. Such emergencies may include but are not necessarily limited to: users or systems whose water

supply is deemed to be dangerous or unhealthy; systems whose supply source becomes contaminated by man-made pollution caused by a person other than the applicant; overflow of raw sewage into homes or streets due to structural failure in the collection mains and/or structural, mechanical, or electrical failure at a lift station due to disasters which could not have been prevented by the exercise of reasonable care by the applicant, including but not limited to tornado, flooding, fire, or landslides; sewage treatment systems which discharge raw or inadequately treated sewage effluent whose quality and/or quantity causes an immediate and imminent health or safety danger to a public water supply due to a structural, mechanical or electrical failure of a process unit(s) caused by disasters which could not have been prevented by the exercise of reasonable care by the applicant, including but not limited to tornado, flooding, fire, or landslides. Also included under this category is the construction of a new water system to serve areas where residents are supplied by domestic sources or domestic systems whose quality is dangerous or unhealthy as a consequence of circumstances that could not have been prevented by the exercise of reasonable care by the applicant. In such cases where new or extended systems are proposed, the Board shall consider and determine whether an adequate population density is available to utilize the proposed system. Notwithstanding any other provision of this Chapter, if the density is preliminarily determined by Board staff to be inadequate for the applicant to feasibly provide operation and maintenance of the new or extended system, then the application will not be recommended for approval until the proper density, which will make the extension feasible, is achieved. Category 2 emergencies receive 40 points.

(iii) **Category 3.** Water system improvements needed to meet the average and/or maximum daily demands of a system's customers caused by a large increase in the number of customers. The increase could result from annexation or the sale of treated water to another entity(ies) based on an engineering study that indicates purchasing to be the most cost effective alternative. Also included under this category is the construction of a new or extended water or sewer system to serve areas where residents are without sewer system service or without water. In such cases where new or extended systems are proposed, the Board shall consider and determine whether an adequate population density is available to utilize the proposed system. Notwithstanding any other provision of this Chapter, if the density is preliminarily determined by Board staff to be inadequate for the applicant to feasibly provide operation and maintenance of the new or extended system, then the application will

Permanent Final Adoptions

not be recommended for approval until the proper density, which will make the extension feasible, is achieved. Category 3 emergencies receive 30 points.

(iv) The Board will deduct 3 points from the total of the Water and Sewer Rate Structure ranking for any system which charges a flat water or sewer rate (unmetered) without regard to the amount of water or sewer used, and 2 points for a decreasing block rate which lowers the cost per 1000 gallons

for customers using larger amounts of water. No points will be added or subtracted for systems using a fixed rate per 1,000 gallons above the minimum. Two points will be added for systems using an increasing block rate. Entities who dedicate sales tax for water and/or sewer improvements will be awarded 1 additional point. Under the category the maximum number of points is 13 and the minimum is -3 points.

(C) **Indebtedness per customer (I).** The indebtedness per customer ranking is calculated by taking the applicant's monthly requirements for debt service on debt incurred for water and/or sewer system purposes and dividing it by the number of customers served.

(i) If the indebtedness per customer is \$20.00 or greater, the applicant shall be given 10 points.

(ii) If the indebtedness per customer is \$17.50 to \$19.99, the applicant shall be given 9 points

(vii) If the indebtedness per customer is \$10.00 to \$11.49, the applicant shall be given 4 points.

(viii) If the indebtedness per customer is \$8.50 to \$9.99, the applicant shall be given 3 points.

(ix) If the indebtedness per customer is \$7.00 to \$8.49, the applicant shall be given 2 points.

(x) If the indebtedness per customer is \$5.50 to \$6.99, the applicant shall be given 1 point.

(xi) If the indebtedness per customer is less than \$5.50, the applicant shall be given 0 points.

(D) **Local participation (L).**

(i) The Board will not approve nor fund any grant application unless the applicant contributes at least fifteen percent (15%) of the total cost of the proposed project.

(ii) The local participation ranking is based on the percent of the total project cost which is locally funded through cash contributions, or incurrence of additional debt through a loan. Grant funds received through other agencies will not be counted as local funding. Points awarded for participation are as follows:

(I) If the percentage of the project cost locally funded is 90% or greater, the applicant shall be given 10 points.

(II) If the percentage of the project cost locally funded is at least 80% but less than 90%, the applicant shall be given 9 points.

(III) If the percentage of the project cost locally funded is at least 70% but less than 80%, the applicant shall be given 8 points.

Permanent Final Adoptions

- (IV) If the percentage of the project cost locally funded is at least 60% but less than 70%, the applicant shall be given 7 points.
- (V) If the percentage of the project cost locally funded is at least 50% but less than 60%, the applicant shall be given 6 points.
- (VI) If the percentage of the project cost locally funded is at least 40% but less than 50%, the applicant shall be given 5 points.
- (VII) If the percentage of the project cost locally funded is at least 30% but less than 40%, the applicant shall be given 4 points.
- (VIII) If the percentage of the project cost locally funded is at least 25% but less than 30%, the applicant shall be given 3 points.
- (IX) If the percentage of the project cost locally funded is at least 20% but less than 25%, the applicant shall be given 2 points.
- (X) If the percentage of the project cost locally funded is at least 15% but less than 20%, the applicant shall be given 1 point.
- (XI) If the percentage of the project cost locally funded is less than 15%, the application shall not be approved nor funded.
- (E) **Median household income (MHI).** The median household income is calculated according to the most current United States Decennial Census or American Community Survey data available.
- (i) The county median figure for median household income will be used in cases where data for the applicant's service area is not available.
- (ii) Points are awarded as follows:
- (I) If the median household income is less than \$17,000, the applicant shall be given 10 points.
- (II) If the median household income is \$17,000 to \$20,999, the applicant shall be given 9 points.
- (III) If the median household income is \$21,000 to \$23,999, the applicant shall be given 8 points.
- (IV) If the median household income is \$24,000 to \$28,999, the applicant shall be given 7 points.
- (V) If the median household income is \$29,000 to \$31,999, the applicant shall be given 6 points.
- (VI) If the median household income is \$32,000 to \$36,999, the applicant shall be given 5 points.
- (VII) If the median household income is \$37,000 to \$39,999, the applicant shall be given 4 points.
- (VIII) If the median household income is \$40,000 to \$44,999, the applicant shall be given 3 points.
- (IX) If the median household income is \$45,000 to \$47,999, the applicant shall be given 2 points.
- (X) If the median household income is \$48,000 to \$51,999, the applicant shall be given 1 point.
- (XI) If the median household income is \$52,000 or greater, the applicant shall be given 0 points.
- (F) **Ability to finance project (FP).**
- (i) The maximum points possible under this criterion for the ability of the applicant to finance the project without assistance from the state is 12.
- (ii) The FP ranking gives a standardized account of the amount the existing water/sewer rates would have to be raised in order for the applicant to finance the project through a loan. A standard interest rate and term of ~~5.10%~~ for 25 years is assumed. The cost per customer per month is calculated using the following formula: FP equals the product of AR multiplied by ~~(0.0710 - 0.1102)~~, divided by the product of (12) multiplied by (C), Where:
- (I) FP = Estimate of the amount monthly water/sewer rates would have to be raised to finance the amount of grant request for the project.
- (II) AR = Amount of grant request. For this calculation, the amount of available reserve not dedicated to the project will be deducted from the amount requested.
- (III) ~~0.0710 - 0.1102~~ = Annual rate factor for a 25 year loan at ~~5.10%~~.
- (IV) 12 = Number of months per year. (V) (C) = Number of customers
- (iii) In cases where the applicant's current revenues exceed expenses by a large margin, the Board will appropriately adjust the (AR) figure to accurately represent the applicant's ability to finance the project.
- (iv) Points in the FP ranking are awarded as follows:
- (I) If the ability to finance the project is \$10.00 or greater, the applicant shall be given 12 points.
- (II) If the ability to finance the project is \$8.00 to \$9.99, the applicant shall be given 11 points.
- (III) If the ability to finance the project is \$6.00 to \$7.99, the applicant shall be given 10 points.
- (IV) If the ability to finance the project is \$5.00 to \$5.99, the applicant shall be given 9 points.
- (V) If the ability to finance the project is \$4.00 to \$4.99, the applicant shall be given 8 points.

(VI) If the ability to finance the project is \$3.00 to \$3.99, the applicant shall be given 7 points.

(VII) If the ability to finance the project is \$2.00 to \$2.99, the applicant shall be given 6 points.

(VIII) If the ability to finance the project is \$1.75 to \$1.99, the applicant shall be given 5 points.

(IX) If the ability to finance the project is \$1.50 to \$1.74, the applicant shall be given 4 points.

(X) If the ability to finance the project is \$1.25 to \$1.49, the applicant shall be given 3 points.

(XI) If the ability to finance the project is \$1.00 to \$1.24, the applicant shall be given 2 points.

(XII) If the ability to finance the project is \$0.75 to \$0.99, the applicant shall be given 1 point.

(XIII) If the ability to finance the project is less than \$0.75, the applicant shall be given 0 points.

(G) Amount of grant requested (AR).

(i) Points under this category for amount of grant requested are distributed as follows:

- (I) \$95,001 to \$100,000: -5
- (II) \$90,001 to \$95,000: -4
- (III) \$85,001 to \$90,000: -3
- (IV) \$80,001 to \$85,000: -2
- (V) \$75,001 to \$80,000: -1
- (VI) \$70,001 to \$75,000: 0
- (VII) \$65,001 to \$70,000: +1
- (VIII) \$60,001 to \$65,000: +2
- (IX) \$55,001 to \$60,000: +3
- (X) \$50,001 to \$55,000: +4
- (XI) \$45,001 to \$50,000: +5
- (XII) \$40,001 to \$45,000: +6
- (XIII) \$35,001 to \$40,000: +7
- (XIV) \$30,001 to \$35,000: +8
- (XV) \$25,001 to \$30,000: +9
- (XVI) \$25,000 or less: +10

(ii) If a project exceeds \$75,000 and the amount of funds needed over and above the OWRB grant request are being secured through a loan from OWRB, then there will be no deduction of points under this category.

(H) Project benefit to other systems (BP). If the applicant's project will benefit other adjacent systems as well as applicant's, or result in or lead to consolidation of systems, an additional five (5) priority points will be included in the total of priority points assigned to the application.

(I) Number of grants. Since it is anticipated that entities who have received emergency grants might submit additional grant applications for approval,

points will be deducted from such applications according to the following schedule; provided, points shall not be deducted from such any emergency grant which was ~~funded funds~~ 10 or more years prior to the date of Board action on the pending application and which has been subjected to a Board audit:

- (i) 1 prior grant = 5 reduction points
- (ii) 2 prior grants = 8 reduction points
- (iii) 3 prior grants = 10 reduction points
- (iv) 4 prior grants = 12 reduction points
- (v) 5 or more prior grants = 14 reduction points

(c) Priority formula for school districts.

(1) School districts, created under Article V of the 1971 School Code, 70 O.S. 1981, §5-101 et seq., are political subdivisions of the State, and therefore are eligible for financial assistance under the Board's program.

(2) In evaluating and prioritizing grant applications from school districts similar criteria to those applied to municipalities, towns and rural water districts will be utilized.

(3) In developing a priority formula for school district applicants, again, the two primary statutory criteria are:

- (A) The emergency situation of the school district.
- (B) Whether the school district can reasonably finance the emergency project without the Board's assistance.

(4) The emergency aspect of each project is ranked with a maximum of 50 points being given to the most serious situations and a minimum of 30 points to the least serious. The emergency categories and points given for each are the same as those listed in (b)(2) of this Section.

(5) The school district's financial situation is given a ~~an~~ maximum of 66 points and is derived by analyzing the following:

- (A) Local tax levies
- (B) Bonded indebtedness
- (C) Local contribution
- (D) Median household income within the school district's geographical area
- (E) Applicant's ability to finance project
- (F) Amount of grant requested
- (G) Application number

(6) Priority lists compiled and published by other Oklahoma state agencies shall be utilized to assess the seriousness of the emergency.

(7) Using the previously mentioned analysis, the following formula has been devised to rank school districts' grant applications: $P = E + LT + BI + L + MHI + FP + AR - AN$, Where:

- (A) P = Priority ranking total points
- (B) E = Emergency ranking
- (C) LT = Local tax levies
- (D) BI = Bonded indebtedness
- (E) L = School's contribution toward the project
- (F) MHI = median household income of population within a school district
- (G) FP = Applicant's ability to finance project
- (H) AR = Amount of grant requested

Permanent Final Adoptions

(I) AN = Application number

(8) The criteria E, MHI, FP, AR and AN are the same as that set forth in (b) of this section. LT, BI and L are explained as follows:

(A) **Local tax levies (LT).** Points awarded under this category for local tax levies are based on the total amount of mills levied, as follows:

- (i) 95 to 100.00 mills = 13 points
- (ii) 90 to 94.99 mills = 11 points
- (iii) 85 to 89.99 mills = 10 points
- (iv) 80 to 84.99 mills = 8 points
- (v) 70 to 79.99 mills = 6 points
- (vi) 60 to 69.99 mills = 4 points
- (vii) 55 to 59.99 mills = 2 points
- (viii) 50 to 54.99 mills = 1 point
- (ix) 45 to 49.99 mills = 0 points
- (x) 40 to 44.99 mills = -1 points
- (xi) Less than 40 mills = -2 points

(B) **Bonded indebtedness (BI).**

(i) Priority points for Bonded Indebtedness are as follows: Percentage of Indebtedness Points

- (I) 95% to 100% of debt limitation = 10 points
- (II) 90% to 94.99% of debt limitation = 8 points
- (III) 80% to 89.99% of debt limitation = 7 points
- (IV) 75% to 79.99% of debt limitation = 6 points
- (V) 70% to 74.99% of debt limitation = 5 points
- (VI) 65% to 69.99 of debt limitation = 4 points
- (VII) 60% to 64.99% of debt limitation = 3 points
- (VIII) 55% to 59.99% of debt limitation = 2 points
- (IX) 50% to 54.99% of debt limitation = 1 point
- (X) 45% to 49.99% of debt limitation = 0 points
- (XI) 40% to 44.99% of debt limitation = -1 point
- (XII) 30% to 39.99% of debt limitation = -2 points
- (XIII) Less than 30% of debt limitation = -3 points

(ii) A deduction of one (1) point from the indebtedness ranking total will be made for applicants with 75% of existing debts financed at rates of 5% or less, and one (1) point will be added if 75% of existing debts are financed at rates greater than 10%.

(C) **Local participation (L).**

(i) In order to achieve the maximum benefit from available grant funds, the Board will not approve nor fund any grant application unless the

applicant contributes at least fifteen percent (15%) of the total cost of the proposed project.

(ii) The local participation ranking is based on the percent of the total project cost which is locally funded through cash contributions or incurrence of additional debt through a loan. Points awarded are as follows:

(I) If the percentage of the project cost locally funded is 90% or greater, the applicant shall be given 10 points.

(II) If the percentage of the project cost locally funded is at least 80% but less than 90%, the applicant shall be given 9 points.

(III) If the percentage of the project cost locally funded at least 70% but less than 80%, the applicant shall be given 8 points.

(IV) If the percentage of the project cost locally funded at least 60% but less than 70%, the applicant shall be given 7 points.

(V) If the percentage of the project cost locally funded at least 50% but less than 60%, the applicant shall be given 6 points.

(VI) If the percentage of the project cost locally funded is at least 50% but less than 60%, the applicant shall be given 5 points.

(VII) If the percentage of the project cost locally funded is at least 40% but less than 50%, the applicant shall be given 4 points.

(VIII) If the percentage of the project cost locally funded is at least 25% but less than 30%, the applicant shall be given 3 points.

(IX) If the percentage of the project cost locally funded is at least 20% but less than 25%, the applicant shall be given 2 points.

(X) If the percentage of the project cost locally funded is at least 15% but less than 20%, the applicant shall be given 1 point.

(XI) If the percentage of the project cost locally funded is less than 15%, the application shall not be approved nor funded.

(iii) Under the Ability to Finance Project (FP) category the Number of Customers (C) as previously discussed will be replaced by the Number of Families within a school district. Points awarded under the FP category are the same as discussed and shown in (b) of this Section.

785:50-7-7. Disbursement of funds

(a) **Conditions for disbursement.**

(1) After an application for financial assistance under the program authorized by Sections 1085.31 through 1085.49 of Title 82 of the Oklahoma Statutes has been approved by the Board, the following conditions and requirements shall be met prior to the release and disbursement of any assistance funds:

(A) Unless otherwise provided and approved by the Board, applicant must submit to the Board all plans, specifications and engineering reports for the

project for staff approval- all of which shall be complete and in sufficient detail as would be required for submission of the project to a contractor for bidding or contracting the project.

(B) Applicant and Board, and all other necessary parties, shall have executed all necessary and incidental instruments and documents for loan closing, including but not limited to all mortgages, notes, financing statements and pledges of project security and revenues where appropriate.

(C) If not previously provided, applicant shall provide Board with a written and verified statement setting forth ~~forty~~

(i) the amount of funds necessary for release and disbursement at closing which funds are needed for initial commencement of the project;

(ii) and, information reflecting the reasonable availability of and/or a commitment from all other revenue or funding sources needed to finance and complete the project.

(2) At the time of and upon compliance with the requirements in (1) of this subsection, the Board may release, advance and disburse financial assistance funds to the applicant for the approved project.

(b) **Disbursement of assistance funds.**

(1) Unless otherwise provided and approved by the Board, the total amount of financial assistance funds authorized for loan or grant under the program authorized by Sections 1085.31 through 1085.49 of Title 82 of the Oklahoma Statutes to the applicant shall not be released and disbursed to applicant in a total lump sum but instead shall be disbursed to applicant in partial amounts at agreed upon intervals and stages of construction, all as provided within the financial assistance agreement.

(2) In conjunction with the rule, the Board may require applicant to submit to the Board prior to any release or disbursement of funds such invoices, receipts, contracts, verifications, evidence of expenditure or encumbrance, construction status and progress reports or other information as the Board may require.

(3) Unless otherwise provided and approved by the Board, the Board shall not approve the release nor disbursement of more than ninety-five percent (95%) of the total loan funds authorized for loan until such time as the project has been completed, inspected by the project engineer and the Board, and accepted by the applicant. Furthermore, unless otherwise provided and approved by the Board, the Board shall not release nor disburse more than ninety-five percent (95%) of the total loan funds authorized for engineering services until the project engineer has prepared and submitted three sets of as built project plans (if different from original plans) to the applicant and one set to the Board.

(c) **Disbursement of grant funds.**

(1) Notwithstanding and in addition to the provisions set out in (a) of this Section, the following specific provisions ~~provision~~ shall apply in all instances of the

disbursement of grant (financial assistance) funds under the Water and Sewer Financial Assistance Program.

(2) Upon approval of a grant application, the Board shall furnish to the applicant a letter notice of grant approval and Board commitment. The notice and commitment shall advise the applicant that the grant application has been formally and officially approved by the Board and that the grant funds approved shall be made available to the applicant by the Board for such purposes and upon such other terms and conditions as the Board may require.

(3) Within ninety (90) days following the date of the letter notice of approval, the applicant shall file with the Board an acceptable bid for completion of the proposed project. Where determined necessary and appropriate, the Board or its staff may permit additional time to file such a bid; provided, notwithstanding any approval of additional time, if such a bid is not filed within one (1) year following the date of Board approval of the application, then the Board's approval shall expire and no funds shall be released; provided, however, if an acceptable bid for completion has not been filed due to circumstances that lay outside the applicant's control, the applicant may request, and the Board may approve or deny, a one- time extension of time not to exceed six months to file an acceptable bid. Provided further, in the event of such expiration the applicant may file a new application which shall be subject to due consideration on its own merit.

(4) For purposes of final disbursement of funds to the applicant, the grant amount initially approved may be lowered by the Board based on actual project costs.

(5) As the Board may determine and direct, grant funds may be disbursed to the applicant in installments or in lump sum, and may be disbursed prior to, during or upon completion of the project, all as deemed appropriate under the project circumstances presented. However, prior to the disbursement of any grant funds to the applicant, the applicant must:

(A) Submit to the Board such evidence as the Board may require to establish that the emergency continues to exist; and

(B) Establish, in such manner as is acceptable to the Board or its staff, a special and separate federally insured fund or account (within applicant's accounting system) in and through which the grant proceeds shall be administered and accounted for by the applicant.

(6) In all instances, the Board reserves the right to impose additional reasonable and necessary conditions or requirements for the disbursement of grant funds, all as may be deemed appropriate by the Board under the circumstances of the project for which grant assistance is made available.

(d) **Disbursement of contract funding.**

(1) Upon approval of an application for contract funding under the Water and Sewer Financial Assistance Program, the Board shall furnish to the applicant a letter containing notice of application approval and a draft contract.

Permanent Final Adoptions

(2) The contract shall contain, among others, the following provisions:

- (A) A description of the project;
- (B) The requirement that the applicant comply with applicable competitive bidding provisions in the acquisition of materials and services used for the project;
- (C) The requirement that proper invoices be submitted monthly to the Board as funds are expended;
- (D) The requirement that all books and records of applicant containing information pertaining to the project be available for inspection and audit.

(3) The funding contemplated by approval of the application and execution of the contract shall be paid to applicant upon submittal and acceptance of invoices for the work performed.

SUBCHAPTER 8. RURAL ECONOMIC ACTION PLAN (REAP) GRANT PROGRAM REQUIREMENTS AND PROCEDURES

785:50-8-2. Definitions

The following words and terms, when used in this Subchapter, shall have the following meaning, unless the context clearly indicates otherwise:

785:50-8-3. Application review and disposition

(a) **General procedures.** The general procedure to be followed in the financial assistance application, review and consideration process for financial assistance under the REAP grant program shall be as follows:

(1) **Pre-application conference.**

(A) While not specifically required, all potential applicants are encouraged to initially contact the Board for purposes of making arrangements for participating in a pre-application conference between Board staff, applicant (or representative), applicant's legal, financial and engineering advisors and such other persons whose attendance and participation may be deemed appropriate and beneficial.

(B) At the pre-application conference, preliminary matters respecting the applicant, the proposed project and the application for assistance may be generally discussed in an effort to familiarize all concerned parties with the financial assistance program and applicable application requirements and procedures.

(2) **Application.**

(A) Applicant shall initiate application review and consideration by submission to the Board of applicant's application for financial assistance. An application may be submitted directly by the qualified entity or, at the qualified entity's discretion, may be submitted by a COG for the benefit or on behalf of a qualified entity. A COG may assist a qualified entity in filling out or filing an application, but a COG may not exercise any power of review, approval or disapproval over an application. All applications filed with any COG shall be submitted by the COG to the Board. If an application submitted by a COG is approved, the money shall be disbursed directly to the qualified entity.

(B) In all instances, applications must be written and in a form which meets the requirements of Subchapter 5.

(C) All applications must have the verification form signed and notarized by the applicant representative, and must have a signature of an attorney representing applicant.

(3) **Preliminary review.** Upon receipt of the application by the Board, the submitted application shall be given preliminary review by Board staff for an initial determination of project eligibility, applicant eligibility and for completeness and accuracy of all required and necessary information. If Board staff find an application to be materially incomplete or inaccurate, the staff shall notify the applicant by letter stating the deficiency. An applicant shall file all documentation and information

required by Board staff within ~~3090~~ days after the date of the letter describing the deficiency, or else the application shall lapse and be deemed denied by operation of these rules. In the latter case, the file will be inactivated; an applicant may file a request to activate the file and consider the application, but such request shall be treated as a new application on its own merits.

(4) **Final review.** Subsequent to preliminary review and based upon the determination of eligibility and adequacy of information submitted, the application shall thereafter be reviewed by Board staff in accordance with this Subchapter for recommendation to the Board.

(5) **Submittal to Board.** Upon completion of staff review, the submitted application (with staff recommendations, if any) shall be placed upon the Board's agenda for the next regular (or special) Board meeting and shall be thereby submitted to the Board for action as described in (e) below.

(b) **General approval standards and criteria.** In the review and consideration of applications for financial assistance under the REAP grant program, the Board shall follow the priority point system set forth in 785:50-8-5. The Board shall also give consideration to the following general and non-exclusive criteria for application approval:

(1) **Compliance with laws.** The application and proposed project must be found to be in compliance with all applicable and relevant federal, state and local laws and regulations, and applicant must possess all necessary and incidental legal rights and privileges necessary to project commencement and operation.

(2) **Eligibility.** The applicant must be a qualified entity (or a COG applying on behalf of a qualified entity) and the proposed project must be for a qualified purpose as defined in 785:50-3-1 or 785:50-8-2.

(3) **Local need, support and priority.** The project must be found to be needed in the area to be served and must be found to be sufficient, as proposed, to serve such needs. The Board shall additionally consider the project's relative benefit and priority in relation to the needs of other proposed projects and applicants. The Board shall also consider the extent and degree of local support, interest and commitment in and to the proposed project.

(4) **Availability of other assistance.** The Board shall consider the feasibility and availability of alternative sources of revenue which could be obtained and utilized by applicant for project financing.

(5) **Economic feasibility.** The Board shall consider the overall apparent economic viability and feasibility of the project as a whole.

(6) **Project feasibility.** The Board shall consider from the engineering data submitted and otherwise available whether the proposed project appears to be feasible, and must determine as a prerequisite to application approval and funding that the project is cost effective.

(7) **Statewide needs and public interest.** The Board shall give consideration to the relationship between the proposed project and the overall water resource development needs within the State of Oklahoma as well as to

whether the proposed project, if constructed, will serve the public interest and welfare.

(8) **REAP grant amount; availability of funds.** In sizing a REAP grant, the Board shall take into consideration the current and anticipated availability of REAP program funds.

(9) **Conservation Measures.** The Board shall consider whether or not the applicant has taken all reasonable measures to limit waste and conserve water.

(c) **Criteria applicability.**

(1) The general criteria set forth in (b) and (d) of this Section are intended to constitute and shall constitute general guidelines and standards for application review and consideration by the Board.

(2) Such criteria shall not be deemed exclusive.

(3) In all instances, each individual application and project must be reviewed and considered on its own individual merits.

(4) The criteria and standards set forth in (b) and (d) of this Section shall accordingly be interpreted and applied so as to allow sufficient flexibility in the ultimate exercise of Board's judgment and discretion.

(d) **Criteria for denying an application.** The Board may deny an application for a REAP grant for any of the following reasons:

(1) The applicant or the entity which stands to receive the benefit of the grant assistance is not an eligible entity.

(2) Any other reason based upon applicable law or the Board's judgment and discretion.

(e) **Board action.**

(1) After reviewing and considering the submitted application, the Board may proceed to take one of the following alternative forms of Board action on the application:

(A) The Board may approve and grant the application as submitted, in whole or in part, and thereby authorize such further action as may be necessary to effectuate the disbursement of funds.

(B) The Board may retain the application under advisement for further consideration or continue hearing on same for later ruling and disposition, and, the Board may withhold ruling on the application pending further hearing and/or submission to the Board of such further or additional information as the Board may require for application consideration purposes.

(C) The Board may reject and deny the application, in whole or in part, based upon any criteria described in (d) of this Section which may be applicable.

(D) The Board may approve and grant the application, in whole or in part, such approval being conditioned and contingent upon the existence of adequate and available ~~loan and/or~~ grant funds or conditioned and contingent upon receipt and approval by Board staff of any outstanding and necessary material, information, documents, verifications or other authorization.

Permanent Final Adoptions

(2) Upon approval of an application, the Board may authorize the execution of all necessary grant documents and instruments by the Chairman of the Board, or other designated Board member, and may accordingly authorize and provide for disbursements and may authorize such further or additional action as may be necessary to complete and implement the approved transaction.

785:50-8-4. Applicable law; deadline for applications; eligible project costs

(a) The Board shall administer applications for REAP funds in accordance with any provisions of law applicable to such applications and REAP funds.

(b) To be considered for and receive funding from funds available for REAP in any given fiscal year, an application must be completed in accordance with the Board's rules and prescribed application form in all material respects with all attachments, and filed by the applicant and received by the Board on or before 5 p.m. the first business day of September of that fiscal year. However, if the deadline cannot be met due to circumstances beyond the applicant's control, the application may be accepted by the Board through the last business day of September with written proof of said circumstances. Any application not properly completed and filed shall not be considered for or funded from funds that may become available during that fiscal year. Furthermore, provided, if no applications are received before the deadline from the area of a given COG, then the Board staff may extend the deadline for that COG through the first business day of November and contact an appropriate official for the COG and notify him or her of the available funds.

(c) A REAP grant application submitted for consideration in a prior fiscal year that was not approved for funding out of funds made available in that prior fiscal year shall expire and be deemed denied unless the applicant files and the Board receives a timely written request to consider said application during the current fiscal year, together with updated application materials as may be reasonably required by the Board. To be timely, such request and updated application materials must be received by the board on or before the first business day of September, of the current fiscal year.

(d) For purposes of evaluating, approving and funding an application for a REAP grant, categories of project costs which are eligible for assistance shall including, in addition to those project costs described in 785:50-3-1:

(1) Architecture and/or engineer fees related to the project. Provided, however, that in order for these costs to be eligible for award, applicants shall provide documentation that all construction funding is available. If construction funding is not available the request for these costs will be placed in a "pending" status until such time as the construction funding is available. If, however, an Engineering Report is a requirement of a Consent Order, an applicant under Consent Order may be awarded a grant to cover the engineering costs without construction funding being available.

(2) Fees for soil testing.

(3) Fees for surveying.

(4) Payments to contractor(s) for construction of the improvements.

(5) Legal fees and expenses of counsel for the applicant which are related to the project.

(6) Services of full-time or part-time inspector.

(7) Administrative expenses shall not be eligible project costs.

785:50-8-5. REAP grant priority point system

(a) Basis of priority system and formula.

(1) **General description.** The priority system consists of a mathematical equation rating the qualified entities and the proposed project in accordance with the requirements of state law by means of a formula awarding points for each criterion used in the evaluation. The maximum point total under the system is one hundred fifteen (115). The Board may consider each month, and in order from the highest rating, those applications awarded point ratings of 40 or more priority ~~pointseests~~ points. If the Board determines that the qualified entity with the highest point rating cannot promptly proceed with the project due to delays, including but not limited to those caused by legal problems, engineering problems, feasibility problems or availability of other funding sources, the Board may pass over consideration of such application then proceed to consider in order the next highest rated application. Applications which are bypassed shall retain their ratings and thus remain eligible for further consideration. Applications preliminarily determined by Board staff to have point ratings of applicant submits additional information showing changed circumstances within 120 days after the date of staff's determination, and such information improves the applicant's preliminary point rating.

(2) **Statutory criteria.** The basis of the priority formula has been developed from the enacting legislation. The primary statutory criteria are:

(A) There shall be a higher priority for any city or town with a population less than one thousand seven hundred fifty (1,750) according to the Census Population than for any jurisdiction with a greater population; and

(B) *Among other cities or towns, those municipalities having relatively weaker fiscal capacity shall have a priority for project funding in preference to other municipalities* [62:2003]. In order to give a priority evaluation to each applicant, the Board shall evaluate all applications according to the fiscal capacity criteria set forth in this Section.

(3) **Total priority points.** Total priority points will be calculated and awarded for individual projects. Therefore, qualified entities will be required to complete separate applications for each project for which grant funds are requested. Priority lists compiled and published by other Oklahoma State agencies and/or seniority dates of applications submitted shall be utilized to decide ties in point totals among qualified entities.

(b) Priority formula for eligible entities other than school districts and counties.

(1) **Formula.** The following formula has been devised to rank grant applications: $T = P + WR + I + MHI + FP + N + AR + BP + PG$, Where:

- (A) T = Total of priority points
- (B) P = Population
- (C) WR = Water and sewer rate structure
- (D) I = Indebtedness per customer
- (E) MHI = Median household income
- (F) FP = Applicant's ability to finance project
- (G) N = Need
- (H) AR = Amount of grant requested
- (I) BP = Project benefit to other systems
- (J) PG = Previous grant assistance

(2) **Explanation.** Each of these criteria are explained below:

(A) **Population (P).** Municipalities which have a population of less than 1,750 according to the latest Census Population shall be given 55 priority points. Rural water or sewer districts which have less than 525 non-pasture customers shall be given 55 points.

(B) **Water and Sewer rate structure (WR).**

(i) For systems providing water service only, points are figured according to the same scale set forth in Section 50-7-5(b)(2)(B)(i).

(ii) For systems providing both water and sewer services, points are figured according to the same scale set forth in Section 50-7-5(b)(2)(B)(ii).

(iii) For systems providing sewer service only, points are figured according to the same scale set forth in Section 50-7-5(b)(2)(B)(iii).

(iv) The Board will deduct 3 points from the total of the Water and Sewer Rate Structure ranking for any system which charges a flat water rate (unmetered) without regard to the amount of water used, and 2 points for a decreasing block rate which lowers the cost per 1000 gallons for customers using larger amounts of water. No points will be added or subtracted for systems using a fixed rate per 1,000 gallons rate. Entities who dedicate sales tax for water and/or sewer improvements will be awarded 1 additional point. Under this category the maximum number of points is 13 and the minimum is -3 points.

(C) **Indebtedness per customer (I).** The indebtedness per customer ranking is calculated by taking the applicant's monthly requirements for debt service on debt incurred for water and/or sewer system purposes and dividing it by the number of customers served.

(i) If the indebtedness per customer is \$20.00 or greater, the applicant shall be given 10 points.

(ii) If the indebtedness per customer is \$17.50 to \$19.99, the applicant shall be given 9 points

(iii) If the indebtedness per customer is \$16.00 to \$17.49, the applicant shall be given 8 points.

(iv) If the indebtedness per customer is \$14.50 to \$15.99, the applicant shall be given 7 points.

(v) If the indebtedness per customer is \$13.00 to \$14.49, the applicant shall be given 6 points.

(vi) If the indebtedness per customer is \$11.50 to \$12.99, the applicant shall be given 5 points.

(vii) If the indebtedness per customer is \$10.00 to \$11.49, the applicant shall be given 4 points.

(viii) If the indebtedness per customer is \$8.50 to \$9.99, the applicant shall be given 3 points.

(ix) If the indebtedness per customer is \$7.00 to \$8.49, the applicant shall be given 2 points.

(x) If the indebtedness per customer is \$5.50 to \$6.99, the applicant shall be given 1 point.

(xi) If the indebtedness per customer is less than \$5.50, the applicant shall be given 0 points.

(D) **Median household income (MHI).** The median household income is calculated according to the most current United States Decennial Census or American Community Survey data available.

(i) The county median figure for median household income will be used in cases where data for the applicant's service area is not available.

(ii) Points for this MHI criterion are awarded according to the scale set forth in Section 50-7-5(b)(2)(E)(ii).

(E) **Ability to finance project (FP).**

(i) The maximum points possible under this criterion for the ability of the applicant to finance the project without assistance from the state is 12.

(ii) The FP ranking gives a standardized account of the amount the existing water/sewer rates would have to be raised in order for the applicant to finance the project through a loan. A standard interest rate and term of ~~5+0%~~ 5% for 25 years is assumed. The cost per customer per month is calculated using the following formula: $FP = AR \frac{(0.07100 - 1 + 0.05)^{25}}{0.05}$, Where:

(I) FP = Estimate of the amount monthly water/sewer rates would have to be raised to finance the amount of grant requested for the project.

(II) AR = Amount of grant requested.

(III) ~~0.0710~~ 0.0710 = Annual rate factor for a 25 year loan at ~~5+0%~~ 5%.

(IV) 12 = Number of months per year.

(V) C = Number of customers.

(iii) In cases where the applicant's current revenues exceed expenses by a large margin, the Board will appropriately adjust the (AR) figure to accurately represent the applicant's ability to finance the project.

(iv) Points in the FP ranking, based upon the cost per customer per month calculated as set forth in (ii) of this subparagraph, are awarded as follows:

(I) If the FP is \$10.00 or greater, the applicant shall be given 12 points.

(II) If the FP is \$8.00 to \$9.99, the applicant shall be given 11 points.

(III) If the FP is \$6.00 to \$7.99, the applicant shall be given 10 points.

Permanent Final Adoptions

- (IV) If the FP is \$5.00 to \$5.99, the applicant shall be given 9 points.
- (V) If the FP is \$4.00 to \$4.99, the applicant shall be given 8 points.
- (VI) If the FP is \$3.00 to \$3.99, the applicant shall be given 7 points.
- (VII) If the FP is \$2.00 to \$2.99, the applicant shall be given 6 points.
- (VIII) If the FP is \$1.75 to \$1.99, the applicant shall be given 5 points.
- (IX) If the FP is \$1.50 to \$1.74, the applicant shall be given 4 points.
- (X) If the FP is \$1.25 to \$1.49, the applicant shall be given 3 points.
- (XI) If the FP is \$1.00 to \$1.24, the applicant shall be given 2 points.
- (XII) If the FP is \$0.75 to \$0.99, the applicant shall be given 1 point.
- (XIII) If the FP is less than \$0.75, the applicant shall be given 0 points.
- (F) **Need (N).** An applicant who is subject to an enforcement order issued by a governmental agency with environmental jurisdiction shall be given 5 priority points for a proposed project which will remedy the violation out of which the order ~~arose~~ arose if the order specifies a project construction start date which is on or before June 30 of the Board's current fiscal year for funding REAP grants.
- (G) **Amount of grant requested (AR).** Points under this category for amount of grant requested are determined as follows:
- (i) If the AR is \$140,001 to \$150,000, the applicant shall be given -5 points.
- (ii) If the AR is \$130,001 to \$140,000, the applicant shall be given -4 points.
- (iii) If the AR is \$120,001 to \$130,000, the applicant shall be given -3 points.
- (iv) If the AR is \$110,001 to \$120,000, the applicant shall be given -2 points.
- (v) If the AR is \$100,001 to \$110,000, the applicant shall be given -1 point.
- (vi) If the AR is \$100,000, the applicant shall be given 0 points.
- (vii) If the AR is \$80,000 to \$99,999, the applicant shall be given 1 point.
- ~~(viii)~~ If the AR is \$60,000 to \$79,999, the applicant shall be given 2 points.
- ~~(ix)~~ If the AR is \$40,000 to \$59,999, the applicant shall be given 3 points.
- ~~(x)~~ If the AR is \$20,000 to \$39,999, the applicant shall be given 5 points.
- ~~(xi)~~ Any portion of an AR that is more than \$150,000 shall be denied.
- (H) **Project benefit to other systems (BP).** If the applicant's project will benefit other adjacent systems as well as applicant's or result in or lead to consolidation of systems, an additional five (5) priority points

will be included in the total of priority points assigned to the application.

(I) **Previous grant assistance (PG).** No qualified entity shall receive more than \$150,000 in REAP grant assistance in any twelve (12) month period. For purposes of this subparagraph a political subdivision and all its public trusts and similar subordinate entities together shall be treated as one and the same qualified entity; provided, rural water or sewer districts shall not be construed to be subordinate entities of counties unless the effect would be to make multiple grants to substantially the same entity and/or service area. If a qualified entity has received one (1) or more REAP grants from the Board in the past, points shall be deducted from the application according to all of the following provisions that apply, provided points shall not be deducted from any such REAP grant which was funded 10 or more years prior to the date of Board action on the pending application, and has been subject to Board audit:

(i) If the qualified entity has received one (1) REAP grant in the preceding twelve (12) month period, the application will be given -8 points.

(ii) If the qualified entity has received more than one (1) REAP grant in the preceding twelve (12) month period, the application will be given -10 points for each REAP grant so received.

(iii) If the qualified entity has received one (1) REAP grant more than twelve (12) months in the past, the application will be given -5 points.

(iv) If the qualified entity has received two (2) REAP grants more than twelve (12) months in the past, the application will be given -8 points.

(v) If the qualified entity has received three (3) REAP grants more than twelve (12) months in the past, the application will be given -10 points.

(vi) If the qualified entity has received four (4) REAP grants more than twelve (12) months in the past, application will be given -12 points.

(vii) If the qualified entity has received five (5) or more REAP grants more than twelve (12) months in the past, the application will be given -14 points.

(c) **Priority formula for school districts and counties.**

(1) School districts created under Article V of the School Code, 70 O.S. 1991, §5-101 et seq., and counties are political subdivisions of the State, and therefore are eligible for financial assistance under the Board's REAP grant program.

(2) In evaluating and prioritizing grant applications from school districts and counties, similar criteria to those applied to municipalities and rural water districts will be utilized.

(3) In developing a priority formula for school district and county applicants, the primary criteria are average

daily membership (for schools only), fiscal capacity, need, amount requested, and previous grant assistance.

(4) The following formula has been devised to rank REAP grant applications by counties and school districts:

$T = ADM + LT + BI + MHI + FP + N + AR + PG$, Where:

- (A) T = Total of priority points
- (B) ADM = Average daily membership
- (C) Lt = Local tax levies
- (D) BI = Bonded indebtedness
- (E) MHI = Median household income of population within the school district or area of county to be served
- (F) FP = Applicant's ability to finance project
- (G) N = Need
- (H) AR = Amount of grant requested
- (I) PG = Previous grant assistance

(5) The criteria MHI, FP, N, AR and PG are the same as that set forth in (b) of this Section. The criteria ADM, LT and BI are explained as follows:

(A) **Average daily membership (ADM).** School districts with an average daily membership of less than 525 students shall be given 55 priority points.

(B) **Local tax levies (LT).** Points awarded under this category for local tax levies are based on the total amount of mills levied, as follows:

- (i) If the mills are 95 to 100; the applicant shall be given 13 points.
- (ii) If the mills are 90 to 94.99, the applicant shall be given 11 points.
- (iii) If the mills are 85 to 89.99, the applicant shall be given 10 points.
- (iv) If the mills are 80 to 84.99, the applicant shall be given 8 points.
- (v) If the mills are 70 to 79.99, the applicant shall be given 6 points.
- (vi) If the mills are 60 to \$69.99, the applicant shall be given 4 points.
- (vii) If the mills are 55 to 59.99, the applicant shall be given 2 points.
- (viii) If the mills are 50 to 54.99, the applicant shall be given 1 point.
- (ix) If the mills are 45 to 49.99, the applicant shall be given 0 points.
- (x) If the mills are 40 to 44.99, the applicant shall be given -1 point.
- (xi) If the mills are less than 40, the applicant shall be given -2 points.

(C) **Bonded indebtedness (BI).**

- (i) Priority points for Bonded Indebtedness are as follows:
 - (I) If the percentage is 95% to 100%, the applicant shall be given 10 points.
 - (II) If the percentage is 90% to 94.99%, the applicant shall be given 8 points.
 - (III) If the percentage is 80% to 89.99%, the applicant shall be given 7 points.
 - (IV) If the percentage is 75% to 79.99%, the applicant shall be given 6 points.

(V) If the percentage is 70% to 74.99%, the applicant shall be given 5 points.

(VI) If the percentage is 65% to 69.99%, the applicant shall be given 4 points.

(VII) If the percentage is 60% to 64.99%, the applicant shall be given 3 points.

(VIII) If the percentage is 55% to 59.99%, the applicant shall be given 2 points.

(IX) If the percentage is 50% to 54.99%, the applicant shall be given 1 point.

(X) If the percentage is 45% to 49.99%, the applicant shall be given 0 points.

(XI) If the percentage is 40% to 44.99%, the application shall be given -1 point.

(XII) If the percentage is 30% to 39.99%, the applicant shall be given -2 points.

(XIII) If the percentage is less than 30%, the applicant shall be given -3 points.

(ii) A deduction of one (1) point from the indebtedness ranking total will be made for applicants with 75% of existing debts financed at rates of 5% or less, and one (1) point will be added if 75% of existing debts are financed at rates greater than 10%.

785:50-8-6. Disbursement of funds

(a) **Action following Board approval and prior to disbursement of funding.**

(1) **Notification of approval.** Upon approval of a REAP grant application, the Board shall furnish to the applicant a written notice of grant approval. The notice shall advise the applicant that the grant application has been formally and officially approved by the Board and that the grant funds approved shall be made available to the applicant by the Board for such purposes and upon such other terms and conditions as the Board may require.

(2) **Bid filing.** Within ninety (90) days following the date of the written notice of approval, the applicant shall file with the Board an acceptable bid for completion of the proposed project. Where determined necessary and appropriate, the Board or its staff may permit additional time to file such a bid; provided, notwithstanding any approval of additional time, if such a bid is not filed within one (1) year following the date of Board approval of the application, then the Board's approval shall expire and no funds shall be released provided however, if an acceptable bid for completion has not been filed due to circumstances that lay outside the applicant's control, the applicant may request, and the Board may approve or deny, a one-time extension of time not to exceed six months to file an acceptable bid. Provided further, in the event of such expiration the applicant may file a new application which shall be subject to due consideration on its own merits.

(3) **Additional conditions prior to disbursement of grant funds.**

(A) Applicant shall establish, in such manner as is acceptable to the Board or its staff, a special and

Permanent Final Adoptions

separate federally insured fund or account (within applicant's accounting system) in and through which the grant proceeds shall be administered and accounted for by the applicant.

(B) Unless otherwise provided and approved by the Board, applicant shall submit to the Board all plans, specifications and engineering reports, for the project for staff approval, all of which shall be complete and in sufficient detail as would be required for submission of the project to a contractor for bidding or contracting the project. If not previously provided, applicant shall provide Board with a written and verified statement setting forth:

- (i) the amount of funds necessary for release and disbursement at closing which funds are needed for initial commencement of the project, and
- (ii) information reflecting the reasonable availability of and/or a commitment from all other revenue or funding sources needed to finance and complete the project.

(C) Applicant and Board, and all other necessary parties, shall have executed all necessary and incidental instruments and documents, including but not limited to a grant agreement.

(4) **Board action on request for increase in approved amount.** If prior to disbursement of the grant monies to the applicant, the project bids exceed the engineer's estimates or it otherwise develops that the REAP grant amount approved by the Board, when combined with any other sources of funding, will be insufficient to complete the approved project, then the applicant may file a written request:

- (A) to amend the scope of the approved project in a manner consistent with (a)(5) of this Section; or
- (B) decline funding and withdraw its application for the current fiscal year and request that the Board reconsider the application with an increased REAP grant amount during the following fiscal year. The request for an increased REAP grant amount shall be treated as a new application on its own merits; provided, the original application shall not be counted for purposes of the previous grant assistance portion of the priority point determination.

(5) **Board action on request for change in scope of approved project.** If prior to disbursement of the grant monies to the applicant, it develops that the applicant wishes to change the scope of the project from that approved by the Board, then the applicant may file a written request for approval of such a change. If the Board staff determines that the change is reasonable and in all material aspects within the scope of the project description approved by the Board, then the staff shall be authorized to approve such requested change. If the Board staff determines that the change is not in all material respects within the scope of the project description approved by the Board, then such a request shall be presented to the Board for action. Provided, however, the Board shall not approve

a change in scope of project if the change, if considered as part of the original application, would have resulted in a lower priority point determination on the application.

(b) **Disbursement of funding to applicant; action following disbursement.**

(1) **Disbursement contingent on completion of conditions; reduction from approved amount.** At the time and upon compliance by the applicant with the applicable requirements in (a) of this Section, the Board may disburse the approved amount of REAP grant funds to the applicant for the approved project.

(2) **Disbursement in whole or part; timing.** As the Board may direct, grant funds may be disbursed to the applicant in installments or in lump sum, and may be disbursed prior to, during or upon completion of the project, all as deemed appropriate by the Board under the project circumstances presented.

(3) **Post-disbursement requests for increases in funding amount.** If after disbursement of the grant monies to the applicant it develops that the applicant needs more money for the project than the REAP grant amount disbursed by the Board, then any request for additional REAP grant money shall follow the rules in this Subchapter governing, and shall be treated as, a new application on its own merits.

(4) **Post-disbursement requests for changes in scope of approved project.** If after disbursement of the grant monies to the applicant it develops that the applicant wishes to ~~change~~ change the scope of the project from that approved by the board, then the applicant may file a written request for approval of such a change. If the applicant successfully demonstrates reasonably unforeseeable or extraordinary circumstances that in the Board's judgment and sound discretion represent a better utilization of REAP grant funds by the applicant to serve the public interest and welfare, then the Board shall approve the change in project scope. If the applicant does not make such a demonstration, then the Board shall deny the request and the applicant shall either proceed with the project as approved or abandon the project and return the grant monies to the Board within thirty days after the date of the Board's action.

(5) **Post-disbursement action regarding unexpended funding.** If following completion of the project it develops that the applicant needed less money for the project than disbursed by the Board, the applicant shall return the unexpended amount to the Board.

(6) **Additional requirements.** The Board may impose additional reasonable and necessary conditions or requirements for the disbursement to the applicant or expenditure by the applicant of REAP grant funds, all as may be deemed appropriate by the Board.

PART 3. GENERAL PROGRAM REQUIREMENTS

785:50-9-21. Eligible project

(a) The categories of wastewater projects eligible for assistance are as follows:

(1) Category I - Secondary Treatment. The treatment facility necessary to discharge an effluent meeting the secondary treatment definition. This category may include outfall lines and lines which take existing treatment plants out of operation by transporting the effluent to a different plant;

(2) Category II - Advanced Treatment. The additional treatment necessary to meet more stringent than secondary effluent requirements as established in water quality management plans;

(3) Category IIIA -- Infiltration/Inflow Correction. The correction of infiltration/inflow conditions including all costs necessary for removing excessive I/I from the sewer system, such as replacement or relining sewer sections, flow routing systems, etc;

(4) Category IIIB -- Sewer System Rehabilitation. Replacement or major rehabilitation of sewers, where it has been determined that such replacement or rehabilitation is necessary to the total integrity and performance of the wastewater treatment works;

(5) Category IVA -- New Collector Sewer Systems. Sewage collection system is the common lateral sewers, within a publicly owned treatment system, which are primarily installed to receive wastewaters directly from facilities which convey wastewater from individual structures or from private property, and which include service connection "Y" fittings designed for connection with those facilities. Pumping units, and pressurized lines, for individual structures or groups of structures when such units are cost effective and are owned and maintained by the applicant are included in this category;

(6) Category IVB - New Interceptor Sewer Systems and Appurtenances. A sewer whose primary purpose is to transport wastewaters from collector sewers to a treatment facility;

(7) Category V -- Combined Sewer Overflow Correction. Correction of combined sewer overflows including cost of new collectors, interceptors, storm sewers, retention basin, etc., necessary to alleviate the overflow problem;

(8) Category VI - Storm Sewers. Storm water and Brownfield activities;

Permanent Final Adoptions

- (9) Category VII - Nonpoint source activities;
 - (10) Category X - Water Reuse; and
 - (11) Other water quality projects as defined under 82 O.S. §1085.51, as amended.
- (b) The Board will determine annually the amount of funding necessary and the project categories that will be placed on the fundable portion of the Priority List.
- (c) Costs associated with the planning or assessing, design and building of the eligible categories of projects are considered allowable by the Board. Eligible construction costs will be based on the lowest responsible bidder.
- (d) Eligibility for equivalency projects is subject to the applicable Federal requirements including those identified in 785:50-9-38(e) and 785:50-9-45(2) through (4).
- (e) Additionally, the Board shall consider the following issues in determining project eligibility:
- (1) **Capacity funding limitations.** The eligible capacity shall be determined using average dry weather flow and peak flows in accordance with population and per capita flow estimates provided by the applicant. Project capacity must be consistent with environmental constraints.
 - (A) Eligible capacity for treatment plants will be up to a period of the design life of the project from the estimated date of construction completion.
 - (B) Eligible capacity for interceptors and outfalls will be up to 40 years from the estimated date of construction completion.
 - (C) Eligible capacity shall be calculated by multiplying the Board approved local population projection by an appropriate local per capita flow figure. The flow thus calculated will be deemed to include all the eligible project flows (residential, commercial, federal facilities, industrial, and infiltration/inflow). Eligible capacity will be determined during the development of the planning documents.
 - (D) The applicant will be responsible for documenting, in the planning document, the peaking factors used for the project.
 - (E) Eligible capacity will be determined when planning documents are approved by the Board.
 - (2) **Collection systems.** The common lateral sewers, within a publicly owned treatment system, which are primarily installed to receive wastewaters directly from facilities which convey wastewater from individual systems, or from private property, and which include service "Y" connections.
 - (3) **Population and flow projections.** Section 208 Areawide Water Quality Management Plan flow projections and Census Population will be used to determine the eligible project capacity. A discussion of the local projections should be included in the planning document.
 - (4) **Land costs.** Allowable costs for land and rights-of-way include the cost (including associated legal, administrative and engineering costs) of land acquired in fee simple or by lease or easement that will be an integral part of the treatment process, that will be used for the ultimate disposal of residues resulting from such treatment and acquisition of other land, and interests in

land, that are necessary for construction including but not limited to:

- (A) The cost of a reasonable amount of land, considering irregularities in application patterns and the need for buffer areas, berms, and dikes;
 - (B) The cost of land acquired for a soil absorption system for a group of two or more homes;
 - (C) The cost of land acquired for composting or temporary storage of compost residues which result from wastewater treatment; and
 - (D) The cost of land acquired for storage of treated wastewater in land treatment systems before land application. The total land area for construction of a pond for both treatment and storage of wastewater is allowable if the volume necessary for storage is greater than the volume necessary for treatment. Otherwise, the allowable cost will be determined by the ratio of storage volume to the total volume of the pond.
- (5) **On-site systems.** Treatment and collection systems constructed at or near the wastewater source where the system serving individual structures or groups of structures are cost-effective and are owned and operated by the loan recipient.
- (6) **Brownfield remediation.** The types of storm water and Brownfield activities that may be qualified for Clean Water SRF funding include, but are not limited to: excavation and disposal of underground storage tanks; constructing wetlands or other filtering mechanisms; capping wells; excavation, removal and disposal of contaminated soil or sediments; tunnel demolition; well abandonment; and all phases or brownfield assessments or planning required by the Department.
- 785:50-9-23. Clean Water SRF Project Priority System**
- (a) **Preparation.** The Board shall prepare and maintain a current Clean Water SRF Project Priority Listing of potential eligible projects in the order of priority.
 - (b) **Projects included.**
 - (1) **Fundable portion.** The fundable portion includes projects scheduled for financial assistance during the current fiscal year, and which are within the limits of currently available funds.
 - (2) **Planning portion.** The planning portion includes that portion of the priority list containing all of those projects outside the fundable portion of the list, and which are anticipated to receive financial assistance in future fiscal years. The planning portion may also include contingency projects which are scheduled for assistance during the current fiscal year, but for which adequate funds are not available to provide financial assistance. Contingency projects may receive assistance due to bypass provisions or due to additional funds becoming available.
 - (c) **Public participation.** Before the beginning of each fiscal year, the Board shall ensure that adequate public participation has taken place. A public meeting will be held to discuss the Clean Water SRF Project Priority List and any

revisions that were made to the Clean Water SRF Project Priority System. The notice of public meeting shall precede the public meeting by 30 days and shall be published in a statewide publication. At this time, the Board shall circulate information about the Project Priority List including a description of each proposed project. Attendees of the public meeting will be allowed to express their views concerning the list and system.

(d) **Clean Water SRF Project Priority List.** A Clean Water SRF Project Priority List shall become effective and supersede all previous lists upon the beginning of the fiscal year for which it is designated. A Clean Water SRF Project Priority List, as updated during the funding year, shall remain effective until such time as it is superseded by a new list.

(e) **CWSRF Integrated Priority Rating System.** The Board will utilize an integrated priority ranking system to evaluate and rank proposed projects, including treatment works, Brownfield activities, and stormwater activities, based on the relative impact of the project in achieving the water quality objectives of the Clean Water Act. This system consists of criteria integrating public health protection and Oklahoma's Water Quality Standards beneficial use maintenance and protection goals and Anti-degradation policy, including project type, water quality restoration, water quality protection, programmatic priorities, and readiness to proceed.

(1) **Project Type Factor.** The Project Type Factor provides a maximum of seventy (70) points for proposed water quality projects based on the following:

(A) Treatment works or water quality projects designed to effectively eliminate or reduce a documented source of human health threat and/or discharge permit limit violation within a watershed of a waterbody being utilized as a public water supply shall receive seventy (70) points.

(B) Treatment works or water quality projects designed to effectively eliminate or reduce a documented source of human health threat and/or discharge permit limit violation shall receive sixty (60) points.

(C) Treatment works or water quality projects designed to sustain compliance with or provide a degree of treatment beyond permit limits; increase capacity, reliability, or efficiency; reclaim/reuse wastewater; reduce a documented water quality threat, or otherwise maintain beneficial uses shall receive thirty (30) points.

(D) All other eligible treatment works or pollution control projects shall receive twenty (20) points.

(2) **Water Quality Restoration Factor.** The Water Quality Restoration Factor provides a maximum of twenty (20) points for proposed projects located on waterbodies which are not meeting the beneficial uses assigned to them in Oklahoma's Water Quality Standards and which are listed on Oklahoma's 303(d) list as threatened or impaired. The water quality restoration factor will be subject to change whenever the 303(d) List is revised. Water quality projects meeting the following criteria shall receive additional priority points:

(A) A project located in a watershed listed as a "~~Top Ten~~ NPS Priority Watershed" in Oklahoma's Nonpoint Source Management Program shall receive an additional ten (10) points.

(B) A project listed on Oklahoma's 303(d) list of threatened or impaired stream segments shall receive an additional five (5) points.

(C) A project that implements the recommendations of a conservation plan, site-specific water quality remediation plan, TMDL, storm water management program, water audit or modified 208 water quality management plan, which has been approved by an agency of competent jurisdiction, in a sub-watershed where discharge or runoff from nonpoint sources are identified as causing, or significantly contributing to water quality degradation shall receive an additional five (5) points.

(3) **Water Quality Protection Factor.** The Water Quality Protection Factor provides a maximum of ten (10) priority points to proposed water quality projects that provide maintenance of beneficial uses and protection for water bodies afforded special protection under OWQS. Projects shall receive ten (10) points for satisfying the following criteria:

(A) A water quality project located within the watershed of a stream segment or in a groundwater basin underlying a watershed of a stream segment (known as "Special Source" groundwater):

(i) listed in OWQS Appendix A. as an Outstanding Resources Water, High Quality Water, Sensitive Water Supply, Scenic River, ~~or~~ Culturally Significant Water or Nutrient Limited Watershed;

(ii) listed in OWQS Appendix B.--"Areas with Waters of Recreational and/or Ecological Significance"; or

(iii) located in a delineated "source water protection area"; or

(B) A water quality project located in an area overlying a groundwater classified in OWQS with a vulnerability level of Very High, High, Moderate, or Nutrient Vulnerable.

(4) **Programmatic Priority Factor.** The Programmatic Priority Factor provides a maximum of one hundred (100) priority bonus points to projects that address specific programmatic priorities set forth by the Environmental Protection Agency or Board and detailed in the Annual Intended Use Plan.

(5) **Readiness to Proceed Factor.** The Readiness to Proceed Factor provides a maximum of four hundred (400) points depending on the relative "readiness to proceed" with a loan commitment among proposed projects.

(A) A project requesting to be considered for funding within the five-year planning period shall receive one hundred (100) points.

(B) In addition to a request for funding, a project for which preliminary planning documents have been submitted shall receive two hundred (200) points. Preliminary planning documents include a

Permanent Final Adoptions

preliminary engineering report and a preliminary environmental information document, and must be submitted to the Board and to the Department or the Conservation Commission as appropriate.

(C) In addition to a request for funding and preliminary planning documents, a project for which a completed loan application has been submitted shall receive three hundred (300) points.

(D) In addition to a request for funding, preliminary planning documents, and a completed loan application, a project for which the appropriate technical plans and specifications necessary to implement the project have been approved by the Department or the Conservation Commission, as appropriate, shall receive four hundred (400) points.

(f) **Management of the Project Priority List.**

(1) **Tie breaking procedure.** A tie breaking procedure shall be utilized when two or more projects have equal points under the Project Priority System and are in competition for funds. Projects will be ranked according to existing population, i.e., the project with the greatest existing population will receive the higher ranking.

(2) **Project bypass.** A project on the fundable portion of the list may be bypassed if it is determined that the project will not be ready to proceed during the funding year. This determination will be made on projects that are unable to meet the schedule established on the priority list. The applicant whose project is affected shall be given written notices that the project is to be bypassed. Projects that have been bypassed may be reinstated on the funded portion of the list if sufficient funds are available, and the project completes the necessary tasks to proceed. Funds which become available due to the utilization of these bypass procedures will be treated in the same manner as additional allotments.

(3) **Project Priority List update.** The priority list is continually reviewed and changes (i.e., loan award dates, estimated construction assistance amounts, project bypass, addition of new projects, etc.) may occur as necessary.

(4) **Additional allotments.** After defining the fundable portion of the Clean Water SRF Project Priority List, the Board may determine that it is necessary or desirable to obligate additional funds that are available and the list may be extended to include the next highest ranked project or projects on the planning portion of the list. Any sum made available to a state by reallocation or deobligation shall be treated in the same manner as the most recent allotment.

(5) **Project removal.** The Board may remove a project from the Clean Water SRF Project Priority List when the project has been funded, the project is found to be ineligible, it is indicated that the applicant does not intend to continue in the Clean Water State Revolving Loan Program, or the Board has determined that the applicant does not have financial, legal, or managerial capability to construct the project.

(6) **Amount of financial assistance.** The amount of financial assistance shall be the sum of the total eligible

costs related to construction. The amount is contingent upon the availability of funds for this purpose. During each funding year, loans totaling twenty-five (25) percent of the funds available from the capitalization grant and state match for that year shall be provided to those eligible small municipalities with a population of 10,000 or less. However, if the state has not met the federal requirement of making binding commitments in an amount equal to one hundred and twenty (120) percent of each quarterly grant payment within one year of receipt of each quarterly payment, other eligible applicants may apply for a loan or an increase to an existing loan to utilize the small community set aside, if such actions will permit the state to comply with the federal binding commitment requirement.

(7) **Addition of new projects to the Clean Water SRF Project Priority List.**

(A) **General.** Prior to the placement of any new projects on the Clean Water SRF Project Priority List, the applicant must submit a Programmatic Application for such placement to the Board. If the applicant is not a previous borrower then an L1 also needs to be submitted prior to being placed on the project priority list. The Programmatic Application must specify that the applicant intends to apply for financial assistance from the Clean Water SRF. The Board will evaluate the Programmatic Application. If it is indicated that a viable project could result which would be in conformance with Clean Water SRF requirements and the applicant is an eligible entity then, the potential project will be added to the Clean Water SRF Priority List.

(B) **Brownfield Activities.** Requests received for Brownfield activity projects must satisfy the following requirements before they will be placed on the Clean Water SRF fundable portion of the project priority list:

- (i) Submit a certification from the Department that the project is a Brownfield project;

- (iii) Submit project documents which determine the water quality benefits of the proposed project.

(C) **Nonpoint source and Watershed Management activities.** Requests received for nonpoint source and watershed management activity projects must satisfy the requirements of 82 O.S. §1085.58(G), as amended, before they will be placed on the Clean Water SRF fundable portion of the project priority list.

(8) **Categories of need.** All projects receiving financial assistance must fit into at least one of the categories of need listed in 785:50-9-21(a).

(A) A project may include all eligible categories of need.

(B) If a point source project consists of more than one category including a nonpoint source project, its

project ranking calculation will be based on that category which will result in the greatest priority points.

(9) **Change of scope.** A change of scope, such as the addition of new construction items, will not be eligible after loan closing unless:

- (A) The change of scope is necessary to result in an operable treatment works due to an oversight and not to replace faulty construction or equipment already funded, or
- (B) The change of scope is necessary due to changes in Federal or State requirements

PART 7. SRF ENVIRONMENTAL REVIEW PROCESS

785:50-9-60. Requirement of environmental review

As required by the provisions of Section 602(b) (6) of the Clean Water Act, the Board shall conduct an interdisciplinary environmental review consistent with the National Environmental Policy Act of the project proposed for funding through the Clean Water State Revolving Fund Loan Account. This review will insure that the project will comply with the applicable local, state and federal laws and Board regulations relating to the protection and enhancement of the environment. Based upon the staff's review, the Board will make formal determinations regarding the potential social and environmental impacts of the proposed project. As necessary, the determination will include mitigative provisions as a condition of financial assistance for building and no financial assistance will be provided until a final environmental determination has been made. Nothing in this Part shall prohibit any public, private or governmental party from seeking administrative or legal relief from the determinations of the Board. Potential applicants to the Clean Water State Revolving Fund Loan Account should obtain guidance from the staff regarding the scope of the environmental review to be conducted by the Board and the environmental information which the applicant will be required to submit in support of the proposed project.

- (1) **Basic environmental determination.** There are three (3) basic environmental determinations that will apply to projects proposed to be implemented with assistance from the Clean Water State Revolving Fund Loan Account. These are: a determination to categorically exclude a project from a formal environmental review; a finding of no significant impact (FONSI) based upon a formal environmental review supported by an environmental

Permanent Final Adoptions

assessment (EA); and a determination to provide or not to provide financial assistance based upon a Record of Decision (ROD) following the preparation of an environmental impact statement (EIS). The appropriate determination will be based on the following criteria.

(A) The categorical exclusion determination applies to categories of projects that have shown over time not to entail significant impacts on the quality of the human environment.

(i) Projects which meet any of the following criteria may be categorically excluded from formal environmental review requirements.

(I) The project is directed solely toward rehabilitation of existing facilities, functional replacement of equipment, or toward the construction of related facilities adjoining the existing facilities that do not affect the degree of treatment or the capacity of the works (i.e. infiltration and inflow correction, rehabilitation of existing equipment and structures, and the construction of small structures adjacent to or on existing sites).

(II) The project is in a community of less than 10,000 population and is for minor expansions or upgrading of existing treatment works or on-site disposal systems are proposed.

(III) The project is in an unsewered community involving the replacement of existing onsite systems, providing the new onsite systems do not result in substantial increases in the volume of discharge or the loadings of pollutants from existing sources, or relocate existing discharge.

(IV) The project involves re-issuance of a NPDES permit for a new source providing the conclusions of the NEPA document are still valid (including the appropriate mitigation), there will be no degradation of the receiving waters, and the permit conditions do not change or are more environmentally protective.

(V) The project is for an award of grants authorized by Congress under EPA's annual Appropriations Act that are solely for the reimbursement of the costs of a project that was completed prior to the date the appropriation was enacted.

(VI) The project relates to existing infrastructure systems (such as sewer systems; and stormwater systems, including combined sewer overflow systems) that involve minor upgrading, or minor expansion of system capacity or rehabilitation (including functional replacement) of the existing system and system components (such as the sewer collection network and treatment system; and stormwater systems, including combined sewer overflow systems) or construction of new minor ancillary facilities adjacent to or on the same property as existing

facilities. This category does not include actions that: involve new or relocated discharges to surface or ground water; will likely result in the substantial increase in the volume or the loading of pollutant to the receiving water; will provide capacity to serve a population 30% greater than the existing population; are not supported by the state, or other regional growth plan or strategy; or directly or indirectly involve or relate to upgrading or extending infrastructure systems primarily for the purposes of future development.

(ii) The ~~Board responsible official~~ must review actions eligible for categorical exclusion to determine whether any extraordinary circumstances are involved. Extraordinary circumstances are when:

(I) The proposed action is known or expected to have potentially significant environmental impacts on the quality of the human environment either individually or cumulatively over time.

(II) The proposed action is known or expected to have disproportionately high and adverse human health or environmental effects on any community, including minority communities, low-income communities, or federally-recognized Indian tribal communities.

(III) The proposed action is known or expected to significantly affect federally listed threatened or endangered species or their critical habitat.

(IV) The proposed action is known or expected to significantly affect national natural landmarks or any property with nationally significant historic, architectural, prehistoric, archeological, or cultural value, including but not limited to, property listed on or eligible for the National Register of Historic Places.

(V) The proposed action is known or expected to significantly affect environmentally important natural resource areas such as wetlands, floodplains, significant agricultural lands, aquifer recharge zones, coastal zones, barrier islands, wild and scenic rivers, and significant fish or wildlife habitat.

(VI) The proposed action is known or expected to cause significant adverse air quality effects.

(VII) The proposed action is known or expected to have a significant effect on the pattern and type of land use (industrial, commercial, agricultural, recreational, residential) or growth and distribution of population including altering the character of existing residential areas, or may not be consistent with state or local government, or federally-recognized Indian tribe approved land use plans or federal land management plans.

(VIII) The proposed action is known or expected to cause significant public controversy about a potential environmental impact of the proposed action.

(IX) The proposed action is known or expected to be associated with providing financial assistance to a federal agency through an inter-agency agreement for a project that is known or expected to have potentially significant environmental impacts

(X) The proposed action is known or expected to conflict with federal, state or local government, or federally-recognized Indian tribe environmental, resource-protection, or land-use laws or regulations.

(iii) Categorical exclusions will be granted for the following projects without additional required documentation:

(I) Procedural, ministerial, administrative, financial, personnel, and management actions necessary to support the normal conduct of EPA business.

(II) Acquisition actions (compliant with applicable procedures for sustainable procurement) and contracting actions necessary to support the normal conduct of EPA business.

(III) Actions involving information collection, dissemination, or exchange; planning; monitoring and sample collection wherein no significant alteration of existing ambient conditions occurs; educational and training programs; literature searches and studies; computer studies and activities; research and analytical activities; development of compliance assistance tools; and architectural and engineering studies. These actions include those conducted directly by EPA and EPA actions relating to contracts or assistance agreements involving such actions.

(IV) Actions relating to or conducted completely within a permanent, existing contained facility, such as a laboratory, or other enclosed building, provided that reliable and scientifically-sound methods are used to appropriately dispose of wastes and safeguards exist to prevent hazardous, toxic, and radioactive materials in excess of allowable limits from entering the environment. Where such activities are conducted at laboratories, the Lab Director or other appropriate official must certify in writing that the laboratory follows good laboratory practices and adheres to all applicable federal, state, local, and federally-recognized Indian tribal laws and regulations. This category does not include activities related to construction and/or demolition within the facility.

(V) Actions involving emergency preparedness planning and training activities.

(VI) Actions involving the acquisition, transfer, lease, disposition, or closure of existing permanent structures, land, equipment, materials, or personal property provided that the property: has been used solely for office functions; has never been used for laboratory purposes by any party; does not require site remediation; and will be used in essentially the same manner such that the type and magnitude of the impacts will not change substantially. This category does not include activities related to construction and/or demolition of structures on the property.

(VII) Actions involving providing technical advice to federal agencies, state or local governments, federally-recognized Indian tribes, foreign governments, or public or private entities.

(VIII) Actions involving approval of EPA participation in international "umbrella" agreements for cooperation in environmental-related activities that would not commit the United States to any specific projects or actions.

(IX) Actions involving containment or removal and disposal of asbestos-containing material or lead-based paint from EPA owned or operated facilities when undertaken in accordance with applicable regulations.

(X) Actions involving new source NPDES permit modifications that make only technical corrections to the NPDES permit (such as correcting typographical errors) that do not result in a change in environmental impacts or conditions.

(iv) The Board may exclude, by amendment to these regulations, other categories of projects for which there is sufficient documentation demonstrating that they are not likely to have significant effects on the quality of the human environment.

(B) The FONSI will be based upon a prepared EA by the staff supported by an EID prepared by the applicant in conformance with 785:50-9-61(2)(A). Upon review of the EID, the staff will issue either a FONSI or a public notice that the preparation of an EIS ~~EIS~~ will be required. All applicants whose projects do not meet the criteria for ~~either~~ a categorical exclusion ~~or~~ ~~EIS~~ will be required to prepare an EID. The Board's issuance of a FONSI will be based upon an EA documenting that the potential environmental impacts will not be significant or that they may be mitigated without extraordinary measures.

(C) The ROD may only be based upon an EIS in conformance with the format and guidelines described in 785:50-9-61(3). An EIS will be required when the Board determines any of the following:

(i) the project will significantly affect the pattern and type of land use or growth and distribution of the population;

Permanent Final Adoptions

- (ii) the effects of the project's construction or operation will conflict with local or state laws or policies;
- (iii) the project may have significant adverse impacts upon:
 - (I) wetlands,
 - (II) floodplains,
 - (III) threatened and endangered species or their habitats,
 - (IV) cultural resources including parklands, reserves, other public lands or areas of recognized scenic, recreational, agricultural, archeological or historic value;
- (iv) the project will displace population or significantly alter the characteristics of existing residential areas;
- (v) the project may directly or indirectly (i.e., through induced development) have significant adverse effect upon local ambient air quality, local noise levels, surface and ground water quality or quantity, fish, shellfish, wildlife or their natural habitats;
- (vi) the project may generate significant public controversy;
- (vii) the treated effluent will be discharged into a body of water where the present classification is too lenient or is being challenged as too low to protect present or recent uses, and the effluent will not be of sufficient quality to meet the requirements of those uses.

(2) **Other determinations that are required of the Board.**

(A) Recognizing that a project may be altered at some time after an environmental determination on the project has been issued, the Board will provide that, prior to approval, the plans and specifications, assistance application, and related documents will be examined for consistency with the environmental determination. If inconsistencies are found, the Board may revoke a categorical exclusion and require the preparation of an EID or an EIS, consistent with the criteria of this subsection, or require the preparation of amendments to an EID or supplements to an EIS, as appropriate. Based upon the staff's review of the amended project, the Board will:

- (i) reaffirm the original determination through the issuance of a public notice or statement of finding;
- (ii) issue a FONSI for a project for which a categorical exclusion has been revoked, or issue a public notice that the preparation of an EIS will be required;
- (iii) issue an amendment to a FONSI, or revoke a FONSI and issue a public notice that the preparation of an EIS will be required, or
- (iv) issue a supplement to a ROD, or revoke an ROD and issue a public notice that financial assistance will not be provided.

(B) When the environmental determination is five years old or older, and for which the subject action has not yet been implemented, the Board staff must re-evaluate the proposed action, environmental conditions, and public views to determine whether to conduct a supplemental environmental review of the action and complete an appropriate decision document in accordance with 785:50-9-60(2)(A) or reaffirm original determination.

(3) **Other determinations that are available to the Board.**

(A) An applicant may request advance authority to construct part of the proposed wastewater treatment project prior to completion of the necessary environmental review when the part of the project will:

- (i) immediately remedy a severe public health, water quality or environmental problem;
- (ii) not preclude any reasonable alternatives identified for the complete system;
- (iii) not cause significant or indirect environmental impacts including those which cannot be acceptably mitigated without completing the entire project; and
- (iv) not be highly controversial.

(B) Based upon the review of the information required by Section 785:50-9-61, the Board will issue a FONSI so conditioned as to prohibit construction of the remainder of the project until a complete environmental review has been performed and a subsequent environmental determination has been issued.

(C) The Board may choose to accept determinations made by a federal agency in a previously issued environmental decision in lieu of conducting a formal environmental review when the proposed project will not cause adverse impacts to the environment and is not highly controversial.

(4) **Projects exempt from environmental review.**

The Board is not required to perform an environmental review of the following projects:

- (A) Projects that are not defined as Section 212 projects.
- (B) Projects that consist of design and planning fees only.

If discovery is permitted or performed, the Administrative Law Judge may order a party to the proceeding to comply with the judge's discovery-related orders, issue subpoenas for the attendance of a witness and for the production of records and other evidence at a discovery proceeding, including a deposition, and take action against a noncomplying party as appropriate and consistent with 85A O.S. § 73(B) and 85A O.S. § 83(B).

- (A) modify the decision of the Administrative Law Judge;
- (B) reverse the decision of the Administrative Law Judge and render a new decision;
- (C) reverse the decision of the Administrative Law Judge and remand the matter to the Administrative Law Judge with instructions or for a new administrative hearing; or

(2) The Commission en banc may reverse or modify the decision of an Administrative Law Judge only if it determines that the decision was against the clear weight of the evidence or was contrary to law. Any judgment of the Commission en banc which reverses a decision of the Administrative Law Judge shall contain specific findings relating to the reversal.

(3) All proceedings of the Commission en banc shall be recorded by a court reporter, if requested by a party. Any party requesting a transcript of the proceedings shall bear the costs associated with its preparation. (b) **Preauthorization for claims subject to the Commission's closed formulary.** Preauthorization is only required for drugs that are excluded from the closed formulary, as defined in this Chapter.

(c) **Preauthorization request.** The preauthorization request must include the prescribing doctor's drug regimen plan of care, and the anticipated dosage or range of dosages for the drugs. Failure to request preauthorization entitles an insurance carrier or employer to deny payment for the drug in question. If the insurance carrier or employer fails to respond to a preauthorization request within three (3) days, the request shall be deemed approved.

(d) **Preauthorization of intrathecal drug delivery systems.**

(1) An intrathecal drug delivery system requires preauthorization and the preauthorization request must include the prescribing doctor's drug regimen plan of care, and the anticipated dosage or range of dosages for the administration of pain medication.

(B) there is a change in prescribing doctor.

(e) **Treatment guidelines.** Except as provided by this Subsection, the prescribing of drugs shall be in accordance with 810:15-7-1 relating to treatment guidelines. (1) For situations in which the prescribing doctor determines and documents that a drug excluded from the closed formulary is medically necessary to treat an injured employee's compensable injury and has prescribed the drug, the prescribing doctor, other requestor, or injured

employee must request approval of the drug by requesting preauthorization from the insurance carrier, or pursuant to the preauthorization requirements of a certified workplace medical plan, if the claim is subject to the plan.

(2) If preauthorization is requested by an injured employee or a requestor other than the prescribing doctor, and the injured employee or other requestor requests a statement of medical necessity, the prescribing doctor shall provide a statement of medical necessity as set forth in Subsection (e) of 810:15-5-1 to facilitate the preauthorization submission.

(3) If preauthorization for a drug excluded from the closed formulary is denied, the requestor may request a hearing before an administrative law judge of the Commission by filing a CC-Form-9 as provided in 810:10-5-16.

(4) In the event of an unreasonable risk of a medical emergency, an interlocutory order may be obtained in accordance with 810:15-5-4.

SUBCHAPTER 7. TREATMENT GUIDELINES

810:15-7-2. Controlled substance monitoring and drugs of abuse testing for chronic pain management

One presumptive drug test is allowable at each individual office visit for chronic pain management. Definitive drug testing following a suspected abnormality on the presumptive drug test is permissible for not more than forty (40) individual definitive drug tests every twelve (12 months).

(a) Fees for services performed by a Commission appointed independent medical examiner shall be paid according to the following schedule:

(1) Diagnostic tests relevant to the questions or issues in dispute shall be paid by the employer or insurance carrier in accordance with the Oklahoma workers' compensation fee schedule; provided, diagnostic tests repeated sooner than six (6) months from the date of the test are not authorized for payment unless agreed to by the parties or ordered by the Commission for good cause shown.

(2) The review of records and information, including any treating physician evaluation and/or medical reports submitted by the parties, the performance of any necessary examinations, and the preparation of a written report as prescribed by Commission rules, shall be billed at the physician's usual and customary rate, not to exceed Three Hundred Dollars (\$300.00) per hour or any portion thereof, not to exceed a maximum reimbursement of One Thousand Six Hundred Dollars (\$1,600.00) per case. The Commission may permit exception to this provision, for

good cause shown. Subject to reimbursement if appropriate, these costs shall be billed to, and initially paid by, the respondent.

(3) Reimbursement for medical testimony given in person or by deposition shall be paid by the employer or insurance carrier in accordance with the independent medical examiner's usual and customary charges, not to exceed Four Hundred Dollars (\$400.00) per hour or any portion thereof, plus an allowance of One Hundred Dollars (\$100.00) for 15 minute increments thereafter. The employer or insurance carrier shall be reimbursed by the employee if the failure to appear or the cancellation by the employee was without good cause. The independent medical examiner may not assess a cancellation charge for appointments canceled by the examiner.

(b) Failure to timely pay a Commission appointed independent medical examiner for services rendered pursuant to Commission order may result in the imposition of assessments or sanctions at the discretion of the administrative law judge or Commission, including a fine for contempt as provided in 85A O.S., § 73(B).
